

## **PJSC LUKOIL**

### **CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

**for the three and nine-month periods ended 30 September 2018**

**prepared in accordance with IFRS  
(unaudited)**

These condensed interim consolidated financial statements were prepared by PJSC LUKOIL in accordance with IFRS and have not been audited by our independent auditor. If these condensed interim consolidated financial statements are audited in the future, the audit could reveal differences in our consolidated financial results and we can not assure that any such differences would not be material.

## **Independent Auditors' Report on Review of Condensed Interim Consolidated Financial Statements**

To the Shareholders and Board of Directors

PJSC LUKOIL

### ***Introduction***

We have reviewed the accompanying consolidated statement of financial position of PJSC LUKOIL (the "Company") and its subsidiaries (the "Group") as at 30 September 2018, and the related consolidated statements of profit or loss and other comprehensive income for the three- and nine-month periods ended 30 September 2018 and the related consolidated statements of changes in equity and cash flows for the nine - month period ended 30 September 2018, and notes to the condensed interim consolidated financial statements (the "condensed interim consolidated financial statements"). Management is responsible for the preparation and presentation of these condensed interim consolidated financial statements in accordance with IAS 34 *Interim Financial Reporting*. Our responsibility is to express a conclusion on these condensed interim consolidated financial statements based on our review.

### ***Scope of Review***

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of condensed interim consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Audited entity: Public Joint Stock Company "Oil company "LUKOIL"  
Registration No. in the Unified State Register of Legal Entities  
1027700035769.  
Moscow, Russia.

Independent auditor: JSC "KPMG", a company incorporated under the Laws of the Russian Federation, a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

Registration No. in the Unified State Register of Legal Entities  
1027700125628.

Member of the Self-regulated organization of auditors "Russian Union of auditors" (Association). The Principal Registration Number of the Entry in the Register of Auditors and Audit Organisations: No. 11603053203.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the condensed interim consolidated financial statements as at 30 September 2018 and for the three- and nine-month periods ended 30 September 2018 are not prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

The accompanying notes are an integral part of these condensed interim consolidated financial statements.

## **Note 1. Organization and environment**

The primary activities of PJSC LUKOIL (the “Company”) and its subsidiaries (together, the “Group”) are oil exploration, production, refining, marketing and distribution. The Company is the ultimate parent entity of this vertically integrated group of companies.

The Group was established in accordance with Presidential Decree No. 1403, issued on 17 November 1992. Under this decree, on 5 April 1993, the Government of the Russian Federation transferred to the Company 51% of the voting shares of fifteen enterprises. Under Government Resolution No. 861 issued on 1 September 1995, a further nine enterprises were transferred to the Group during 1995. Since 1995, the Group has carried out a share exchange program to increase its shareholding in each of the twenty-four founding subsidiaries to 100%.

From formation, the Group has expanded substantially through consolidation of its interests, acquisition of new companies and establishment of new businesses.

### ***Business and economic environment***

The accompanying condensed interim consolidated financial statements reflect management’s assessment of the impact of the business environment in the countries in which the Group operates on the operations and the financial position of the Group. The future business environments may differ from management’s assessment.

## **Note 2. Basis of preparation**

### ***Statement of compliance***

The condensed interim consolidated financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*. These condensed interim consolidated financial statements should be read in conjunction with the Group’s consolidated financial statements for 2017 prepared in accordance with International Financial Reporting Standards (“IFRS”).

Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last consolidated financial statements for 2017.

The accompanying condensed interim consolidated financial statements and notes thereto have not been audited by independent auditors, except for the consolidated statement of financial position at 31 December 2017.

The condensed interim consolidated financial statements were authorised by the President of the Company on 27 November 2018.

### ***Functional and presentation currency***

The functional currency of each of the Group’s consolidated companies is the currency of the primary economic environment in which the company operates. The management has analysed factors that influence the choice of functional currency and has determined the functional currency for each Group company. For the majority of them the functional currency is the local currency. The functional currency of the Company is the Russian ruble (“RUB”).

The presentation currency of the consolidated financial statements of the Group is the RUB. All financial information presented in the RUB has been rounded to the nearest million, except when otherwise indicated.

## **Note 2. Basis of preparation (continued)**

The results and financial position of Group companies whose functional currency is different from the presentation currency of the Group are translated into presentation currency using the following procedures. Assets and liabilities are translated at period-end exchange rates, income and expenses are translated at rates which approximate actual rates at the date of the transaction. Resulting exchange differences are recognised in other comprehensive income.

## **Note 3. Changes in accounting policies**

The accounting policies adopted in the preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in the consolidated financial statements for 2017 except for IFRS 9 *Financial instruments* and IFRS 15 *Revenue from Contracts with Customers* that the Group has adopted with effect from 1 January 2018.

IFRS 9, issued in July 2014, replaced the existing guidance in IAS 39 *Financial Instruments: Recognition and Measurement*. IFRS 9 sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. IFRS 9 replaced the current 'incurred loss' model with a forward-looking 'expected credit loss' model. The adoption of IFRS 9 resulted in recognition of additional provisions for impairment of receivables under the expected credit loss model. The overall impact of applying the standard resulted in recognition of additional allowance on accounts receivables recognised directly in equity in the amount of 6,831 million RUB net of deferred income tax at 1 January 2018. As permitted by IFRS 9 comparatives have not been restated.

IFRS 15, issued in May 2014, established a comprehensive framework for determining whether, how much and when revenue is recognised. It replaced existing revenue recognition guidance, including IAS 18 *Revenue*, IAS 11 *Construction Contracts* and IFRIC 13 *Customer Loyalty Programmes*. The core principle of the new standard is that an entity recognises revenue when a customer obtains control of the goods. Based on management's analysis performed the standard does not have a material effect on the Group's consolidated financial statements, no transition adjustment has been made and comparative information has not been restated.

## **Note 4. Use of estimates and judgments**

Preparation of the consolidated financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are the following:

- estimation of oil and gas reserves;
- estimation of useful lives of property, plant and equipment;
- impairment of non-current assets;
- assessment and recognition of provisions and contingent liabilities.

**Note 5. Income taxes**

Operations in the Russian Federation are subject to a Federal income tax rate of 3.0% and a regional income tax rate that varies from 12.5% to 17.0% at the discretion of the individual regional administration. The Group's foreign operations are subject to taxes at the tax rates applicable to the jurisdictions in which they operate.

The Group's effective income tax rate for the periods presented differs from the statutory income tax rate primarily due to domestic and foreign tax rate differences and the incurrence of costs that are either not tax deductible or only deductible to a certain limit. Tax expense is recognised based on the management's best estimate of the weighted-average annual income tax rate expected for the full financial year multiplied by the pre-tax income of the interim reporting period.

The Company and its Russian subsidiaries file income tax returns in Russia. A number of Group companies in Russia are paying income tax as a consolidated taxpayers' group ("CTG"). This allows taxpayers to offset taxable losses generated by certain participants of a CTG against taxable profits of other participants of the CTG.

Total long-term debt	538,289	597,691
Current portion of long-term debt	(24,820)	(110,044)
<b>Total non-current portion of long-term debt</b>	<b>513,469</b>	<b>487,647</b>

***Long-term loans and borrowings***

Long-term loans and borrowings from third parties include amounts repayable in US dollars of 184,690 million RUB and 194,251 million RUB and amounts repayable in euros of 25,544 million RUB and 49,749 million RUB at 30 September 2018 and 31 December 2017, respectively. This debt has maturity dates from 2018 through 2028. The weighted-average interest rate on long-term loans and borrowings from third parties was 4.52% and 4.33% per annum at 30 September 2018 and 31 December 2017, respectively. A number of long-term loan agreements contain certain financial covenants which are being met by the Group. Approximately 35% of total long-term loans and borrowings from third parties at 30 September 2018 are secured by shares of an associated company, export sales and property, plant and equipment.

In April 2018, a Group company redeemed non-convertible bonds totaling \$1.5 billion (92.6 billion RUB) in accordance with the conditions of the bond issue. The bonds were issued in 2013 with a maturity of 5 years and a coupon yield of 3.416% per annum.

**Note 24. Operating lease**

At 30 September 2018 and 31 December 2017, Group companies had commitments primarily related to the lease of vessels, tank-cars, storage facilities and petroleum distribution outlets. Commitments for minimum rentals under these leases are payable as follows:

	<b>30 September 2018</b>	<b>31 December 2017</b>
Less than a year	22,136	24,753
1-5 years	48,633	54,917
More than 5 years	88,990	88,277
<b>Total</b>	<b>159,759</b>	<b>167,947</b>

**Note 25. Commitments and contingencies**

*Capital commitments*

At 30 September 2018, capital commitments of the Group relating to construction and acquisition of property, plant and equipment are evaluated as 377,869 million RUB.

*Taxation environment*

The taxation systems in the Russian Federation and other emerging markets where Group companies operate are relatively new and are characterized by numerous taxes and frequently changing legislation, which is often unclear, contradictory, and subject to interpretation. Often, differing interpretations exist among different tax authorities within the same jurisdictions and among taxing authorities in different jurisdictions. Taxes are subject to review and investigation by a number of authorities, who are enabled by law to impose substantial fines, penalties and interest charges. In the Russian Federation a tax year remains open for review by the tax authorities during three subsequent calendar years. However, under certain circumstances a tax year may remain open longer. Recent events within the Russian Federation suggest that the tax authorities are taking a more assertive position in their interpretation and enforcement of tax legislation. Such factors significantly increase taxation risks in the Russian Federation and other emerging markets where Group companies operate, comparing to other countries where taxation regimes have been subject to development and clarification over longer periods.

The tax authorities in each region of the Russian Federation may have a different interpretation of similar taxation issues which may result in taxation issues successfully defended by the Group in one region being unsuccessfully defended by the Group in another region. There is some direction provided from the central authority based in Moscow on particular taxation issues.

The Group has implemented tax planning and management strategies based on existing legislation. The Group is subject to tax authority audits on an ongoing basis, which is a normal practice in the Russian Federation and other republics of the former Soviet Union, and, at times, the authorities have attempted to impose additional significant taxes on the Group. Management believes that it has adequately met the requirements and provided for tax liabilities based on its interpretation of existing tax legislation. However, the relevant tax authorities may have differing interpretations and the effects on the consolidated financial statements, if the authorities were successful in enforcing their interpretations, could be significant.

*Litigation and claims*

In July 2015, the prosecutors with the Ploesti Court of Appeals (hereinafter the “Prosecutor’s Office”) charged the general director and several officers of PETROTEL-LUKOIL S.A., a Group company, with bad faith use of the company’s credit and money laundering. Similar charges were brought against LUKOIL Europe Holdings B.V., a Group company, for 2010–2014. On 10 May 2016, the Prahova Tribunal lifted all preventive measures that were in effect against the accused individuals.

**Note 25. Commitments and contingencies (continued)**

Upon preliminary hearings the Prosecutor's Office revised the amount of damage claimed from \$2.2 billion (144.3 billion RUB) to \$1.5 billion (98.4 billion RUB). An expertise of all relevant issues of the criminal case was carried out during 2017, the results of which were accepted by the Tribunal on 12 February 2018. At the final hearing on the case which was held 23 October 2018 the court issued a not guilty decision to all the accused, including general director of PETROTEL-LUKOIL S.A., his deputies and PETROTEL-LUKOIL S.A. and LUKOIL Europe Holdings B.V. itself. As a result freezing injunction in the amount of approximately \$1.5 billion (98.4 billion RUB) was removed from all assets of the refinery, shares and accounts of PETROTEL-LUKOIL S.A. and LUKOIL Europe Holdings B.V. On 1 November 2018, this decision was appealed by the Prosecutor's Office. It is expected that the hearing of the appeal will take place in May – June 2019. Management does not believe that the outcome of this matter will have a material adverse effect on the Group's financial position.

LUKOIL Overseas Karachaganak B.V., a Group company, among other contractors, is involved in the disputes with the Republic of Kazakhstan with respect to cost recovery in 2010–2014 (the "CR") and the calculation of the "Fairness index" (the "FI") in accordance with the Final Production Sharing Agreement relating to the Contract Area of the Karachaganak Oil and Gas Condensate Field. In relation to the CR, the parties are making efforts to resolve the dispute through negotiations and in relation to the FI the parties are taking part in an arbitration which is at its initial stage, and management believes that the amounts of claims, as well as calculations of potential losses arising from these disputes to be preliminary and should not be disclosed in order to avoid any adverse impact on the arbitration process and the positions of the parties therein. At the same time management does not preclude the possibility of settlement of the FI related dispute and believes that the final outcome of the above mentioned disputes will not have a material adverse effect on the Group's financial position.

The Group is involved in various other claims and legal proceedings arising in the normal course of business. While these claims may seek substantial damages against the Group and are subject to uncertainty inherent in any litigation, management does not believe that the ultimate resolution of such matters will have a material adverse impact on the Group's operating results or financial condition.

***Political situation***

In July – September 2014, the United States ("US"), the European Union ("EU") and several other countries imposed a set of sanctions on Russia, including sectoral sanctions which affect several Russian oil and gas companies. The US has placed the Company onto the Sectoral Sanctions Identifications List subject to Directive 4. Directive 4 prohibits US companies and individuals from providing, exporting, or re-exporting directly or indirectly, goods, services (except for financial services), or technology in support of exploration or production for deepwater, Arctic offshore or shale projects that have the potential to produce oil in the Russian Federation, or in maritime area claimed by the Russian Federation and extending from its territory.

In August – October 2017, the US expanded abovementioned sanctions to include international oil projects initiated on or after 29 January 2018 that have the potential to produce oil in any location, and in which companies placed on the Sectoral Sanctions Identifications List (subject to Directive 4) have an ownership interest of 33% or more, or ownership of a majority of the voting interests.

Management believes that current sanctions do not have a material adverse effect on the Group's oil projects. At the same time the Company continues to monitor and evaluate potential risks for its operations in connection with sanctions.

The Group is exposed to political, economic and legal risks due to its operations in Iraq. Management monitors these risks and believes that there is no adverse effect on the Group's financial position that can be reasonably estimated at present.

**Note 26. Related party transactions**

In the rapidly developing business environment in the Russian Federation, companies and individuals have frequently used nominees and other forms of intermediary companies in transactions. The senior management of the Company believes that the Group has appropriate procedures in place to identify and properly disclose transactions with related parties in this environment and has disclosed all of the relationships identified which it deemed to be significant. Related party sales and purchases of oil and oil products were primarily to and from associates and joint ventures. Other financial assets mostly represent loans given to associates and joint ventures.

Outstanding balances with related parties were as follows:

	<b>30 September 2018</b>	<b>31 December 2017</b>
Accounts receivable	13,323	10,567
Other financial assets	83,888	82,288
<b>Total assets</b>	<b>97,211</b>	<b>92,855</b>
Accounts payable	23,557	6,696
Loans and borrowings	2,736	3,170
<b>Total liabilities</b>	<b>26,293</b>	<b>9,866</b>

Related party transactions were as follows:

	<b>For the three months ended 30 September 2018</b>	<b>For the three months ended 30 September 2017</b>	<b>For the nine months ended 30 September 2018</b>	<b>For the nine months ended 30 September 2017</b>
Sales of oil and oil products	10,106	3,326	29,028	10,244
Other sales	950	868	3,635	3,024
Purchases of oil and oil products	59,448	18,272	163,265	65,452
Other purchases	3,115	1,988	8,229	4,784
(Purchases) proceeds from sale of other financial assets, net	(3,203)	2,484	9,889	6,322
Principal repayments of loans, net	(443)	(388)	(551)	(404)

During the second quarter of 2017, a Group company acquired from a related party 3,300,000 ordinary shares of the Company for 9,474 million RUB.

**Note 27. Compensation plan**

During the period from 2013 to 2017, the Company had a compensation plan available to certain members of management, which was based on assigned shares and provided compensation consisting of two parts. The first part represented annual bonuses that were based on the number of assigned shares and amount of dividend per share. The payment of these bonuses was contingent on the Group meeting certain financial KPIs in each financial year. The second part was based upon the Company's common shares appreciation from 2013 to 2017, with rights vested in December 2017. The number of assigned shares for this compensation plan was approximately 19 million shares.

For the first part of the share plan the Group recognised a liability based on expected dividends and number of assigned shares. The second part of the share plan was also classified as liability settled. The grant date fair value of this part of the plan was estimated at 7.6 billion RUB, using the Black-Scholes-Merton option-pricing model. The fair value was estimated assuming a risk-free interest rate of 6.50% per annum, an expected dividend yield of 4.09% per annum, an expected time to maturity of five years and a volatility factor of 16.10%. The expected volatility factor for the annual weighted average share price was estimated based on the historical volatility of the Company's shares for the previous seven year period up to January 2013. All the liabilities related to this plan were settled.

In late December 2017, the Company announced a new compensation plan based on approximately 40 million shares available to certain members of management and key employees for the period from 2018 to 2022, which was implemented in July 2018 and recognised as equity-settled share-based compensation plan.

**Note 27. Compensation plan (continued)**

The fair value of the plan was estimated at the grant date at 156.8 billion RUB based on forecasting principles of Monte-Carlo model and is not going to be recalculated in the future. The fair value was estimated assuming a spot-price of the Company's share in the amount of 4,355 RUB at the grant date, discount for illiquidity in the amount of 9.95% per annum, a risk-free interest rate of 7.50% per annum, an expected dividend yield of 4.99% per annum, an expected time to maturity of five years and a volatility factor of 25.68%. The expected volatility factor was estimated based on the historical volatility of the Company's shares for the previous five years. The vesting of shares is contingent on meeting the requisite service period, certain KPIs and share price appreciation. The Group is planning to recognise expenses related to the plan evenly during the vesting period.

Related to these share plans the Group recognised expenses of 23,269 million RUB, 23,459 million RUB, 3,043 million RUB and 325 million RUB during the three and nine months ended 30 September 2018 and 2017, respectively.

**Note 28. Segment information**

The Group has the following operating segments – exploration and production; refining, marketing and distribution; corporate and other. These segments have been determined based on the nature of their operations. Management on a regular basis assesses the performance of these operating segments.

The exploration and production segment explores for, develops and produces primarily crude oil. The refining, marketing and distribution segment processes crude oil into refined products, purchases, sells and transports crude oil and refined petroleum products, refines and sells chemical products, produces steam and electricity, distributes them and provides related services. The corporate and other business operating segment includes activities of the Company and businesses beyond the Group's traditional operations.

Geographical segments are based on the area of operations and include two segments: Russia and International.

Operating earnings are supplemental non-IFRS financial measure used by management to evaluate segments performance. Operating earnings are defined as profit before finance income and expense, income tax expense, depreciation, depletion and amortisation.

**Note 28. Segment information (continued)**

In the International segment the Group receives the most substantial revenues in Switzerland, the USA and Singapore.

	For the three months ended 30 September 2018	For the three months ended 30 September 2017	For the nine months ended 30 September 2018	For the nine months ended 30 September 2017
Sales revenues				
in Switzerland	1,033,814	647,716	2,830,582	1,928,446
in the USA	299,778	128,937	661,304	429,388
in Singapore	205,850	120,069	508,215	352,138

These amounts are attributed to individual countries based on the jurisdiction of subsidiaries making the sale.

**Note 29. Fair value**

There are the following methods of fair value measurement based on the valuation method:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;

Level 3 – unobservable inputs.

The following tables show the carrying amounts and fair values of financial assets and financial liabilities included in the consolidated statement of financial position at 30 September 2018 and 31 December 2017.

30 September 2018	Carrying amount	Fair value			Total
		Level 1	Level 2	Level 3	
<b>Financial assets:</b>					
Commodity derivative contracts	8,834	-	8,834	-	8,834
Financial assets at fair value through other comprehensive income	5,464	5,464	-	-	5,464
<b>Financial liabilities:</b>					
Commodity derivative contracts	9,633	-	9,633	-	9,633
Loans and borrowings	538,289	306,622	-	240,124	546,746

31 December 2017	Carrying amount	Fair value			Total
		Level 1	Level 2	Level 3	
<b>Financial assets:</b>					
Commodity derivative contracts	11,634	-	11,634	-	11,634
Available for sale securities	5,106	5,106	-	-	5,106
<b>Financial liabilities:</b>					
Commodity derivative contracts	11,978	-	11,978	-	11,978
Loans and borrowings	597,691	368,811	-	260,214	629,025

The fair values of cash and cash equivalents (Level 1), current and long-term accounts receivable (Level 3) are approximately equal to their value as disclosed in the consolidated statement of financial position. The fair value of long-term receivables was determined by discounting with estimated market interest rates for similar financing arrangements. The fair value of long-term loans (Level 3) was determined as a result of discounting using estimated market interest rates for similar financing arrangements. These amounts include all future cash outflows associated with the long-term debt repayments, including the current portion and interest. Market interest rates mean the rates of raising long-term debt by companies with a similar credit rating for similar tenors, repayment schedules and other similar main terms. The fair value of bonds (Level 1) was determined based on market quotations at 30 September 2018 and 31 December 2017.
