1.1. Individual members of management bodies of the issuer

1.1.1. Board of Directors of RAO UES of Russia

Chairman: *Alexander Stalievich Voloshin*

Members of the Board of Directors:

Kirill Gennadievich Androsoy

Year of birth: *1972*

Grigory Viktorovich Berezkin

Year of birth: *1966*

Andrei Evgenievich Bugrov

Year of birth: *1952*

Alexander Stalievich Voloshin

Year of birth: *1956*

German Oskarovich Gref

Year of birth: *1964*

Andrei Vladimirovich Dementiev

Year of birth: *1967*

Gleb Sergeevich Nikitin

Year of birth: *1977*

Sergei Aramovich Oganessian

Year of birth: *1953*

Olga Stanislavovna Pushkareva

Year of birth: *1955*

Kirill Gennadievich Seleznev

Year of birth: *1974*

Seppo Juha Remes

Year of birth: *1955*

Yakov Moiseevich Urinson

Year of birth: *1944*

Viktor Borisovich Khristenko

Year of birth: *1957*

Anatoly Borisovich Chubais

Year of birth: *1955*

Name: **PricewaterhouseCoopers Audit Closed Joint-Stock Company**
(**ZAO PwC Audit**)

Place of business: **115054, Moscow, Kosmodamianskaya nab., 52, str. 5**

INN (Taxpayer Identification Number): **7705051102**

Postal address: **115054, Moscow, Kosmodamianskaya nab., 52, str. 5**

Tel.: **(095) 967 60 00**

Fax: **(095) 967 60 01**

E-mail: **www.pwc.com**

Auditor

Auditor's license details: **to perform audit activities**

License number: **E000376**

Date of issuance: **May 20, 2002**

Period: **until May 20, 2007**

Issuing authority: **Ministry of Finance of the Russian Federation**

ZAO PricewaterhouseCoopers Audit (hereinafter the Auditor) was selected by tender in accordance with the requirements of Federal Law No. 94-FZ dated July 21, 2005 "On the Placement of Decrees for the Delivery of Goods, Performance of Work, Provision of services for State and Municipal Purposes" to audit the financial statements of RAO UES of Russia (hereinafter the Company) for a 3-year period beginning in 2006 and was approved by a resolution of the annual general meeting on July 28, 2006 as the official auditor of the Company and the RAO UES of Russia Group for 2006.

The Auditor conducts an audit of the accounts/financial statements prepared in accordance with the Russian accounting standards and international financial reporting standards of the Company and the financial statements of the RAO UES of Russia Group prepared in accordance with the IFRS requirements. Furthermore, the Auditor provides advisory services to the Company during the process of reforming the RAO UES of Russia Group.

The Auditor and the Company are not involved in any close business relations or family relationship. The Company did not extend any borrowings to the Auditor. The Auditor (the Auditor's executives) does not own any stakes in the authorized capital of the Company. The Company is not aware of any executives which simultaneously occupy positions as executives of the Auditor.

The Auditor conducted an audit of the 2005 accounts/financial statements of the Company and the RAO UES of Russia Group. The Company does not have any deferred or overdue payments for the services rendered by the Auditor.

Agreement No. 551/HO-05/RSA dated November 28, 2005 stipulates a 8.2 million ruble fee for the provision of services related to the audit of the 2005 accounts/financial statements of the Company prepared in accordance with the RAS.

Agreement No. 551/Cons-05/IFRS dated November 11, 2005 and supplementary agreement No. 1 dated November 28, 2005 stipulate a 81.1 million ruble fee for the provision of services related to the audit of the 2005 accounts/financial statements of the Company and the RAO UES of Russia Group prepared in accordance with the IFRS requirements.

1.4. Information concerning the issuer's appraiser

Pursuant to a resolution of the Management Board of RAO UES of Russia (Minutes No. 572 pr/2 of September 24, 2001), a resolution of the Board of Directors of RAO UES of Russia (Minutes No. 101 of September 28, 2001) and to bring into the books the true value of assets

RAO UES of Russia revalued its fixed assets as of January 1, 2002 which is described in section 3.6 of this report. The revaluation of fixed assets was undertaken by the members of a Consortium of the following firms: Ernst & Young, ZAO Mezhdunarodny Tsentr Otsenki and ZAO NP Consult.

Information on Ernst & Young, ZAO Mezhdunarodny Tsentr Otsenki and ZAO NP Consult can be found on the websites of the respective companies:
<http://www.ey.com/global/content.nsf/Russia/Home>;

<http://www.mrsa.ru/mco.htm>;

<http://www.npg.ru/index.php?page=about>.

In the 4th quarter of 2006 the Company did not retain any appraiser for the following purposes:

to determine the market value of the securities to be placed and the already placed outstanding securities;

to determine the market value of the property pledged to secure the issuer's collateral bonds to be placed or the already placed collateral bonds of the issuer obligations under which have not been fulfilled;

to render any other appraisal-related services concerning the issuance of the securities information on which is provided in the quarterly report.

1.5. Information concerning the issuer's advisors

As of the final date of the 4th quarter of 2006 RAO UES of Russia did not issue any securities or retain any financial advisor.

1.6. Information concerning other individuals who signed the quarterly report

Sergei Vladimirovich Makshakov, Head of the Financial and Tax Accounting Department of the Corporate Center of RAO UES of Russia, Chief Accountant of RAO UES of Russia.

Tel.: 7106804, fax: 7106250.

II. Basic Information Concerning the Financial and Economic Condition of the Issuer

2.1. Financial and economic performance indicators of the issuer

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 2.1.

2.2. Market capitalization of the issuer

2.3. Obligations of the issuer

2.3.1. Accounts payable

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 2.3.1.

2.3.2. Credit history of the issuer

In the 4th quarter of 2006, RAO UES of Russia did not have any obligations under credit agreements and loan agreements the principal under which would amount to 5 percent or more of the book value of the Company's assets as of the final date of the closed reporting quarter preceding the execution of a credit/loan agreement.

Over the past five closed fiscal years the Company raised 1 (one) credit the amount of obligations under which exceeds 5 percent of the book value of assets as of the final date of the most recently closed reporting quarter preceding the execution of the credit agreement. Details are given in the table below:

Obligation	Creditor/lender	Principal amount, rubles in millions	Credit (loan) period/repayment period		Delay in fulfilling an obligation
			contractual	actual	
Credit	Sberbank	24,000	up to and including March 25, 2004	March 3, 2003	The credit has been prepaid. All contractual obligations have been fulfilled in their entirety.

2.3.3. Obligations of the issuer with regard to collaterals furnished to third parties

As of December 31, 2006, the obligations of RAO UES of Russia totaled, respectively:

- collateral received to secure the obligations and payments (p. 950) equivalent to 2,600,504,000 rubles.
- collateral furnished to secure the obligations and payments (p. 960) equivalent to 3,815,558,000 rubles.

In 2006, RAO UES of Russia furnished collaterals to secure third party obligations totaling 5,121,958,000 rubles, namely:

- guarantees issued by RAO UES of Russia to secure third party obligations – 432,576,000 rubles;
- promissory note guarantees – 689,093,000 rubles;
- pledge of shares - 1,000,289,000 rubles.

There are no obligations with regard to collaterals furnished in 2006 amounting to 5 percent or more of the book value of the Company's assets.

2.3.4. Other obligations of the issuer

None

2.4. Goals of issuance and ways of using funds received as a result of issuance of issue-grade securities

As a result of the most recent issuance of Series R2 interest-bearing documentary bearer bonds, state registration number 4-02-00034-A, state registration date – September 30, 2002 funds amounting to 3,000,000,000 rubles were used to replenish the fixed assets of the Company.

2.5. Risks associated with the acquisition of issue-grade securities (to be) placed

2.5.1. Industry-specific risks

General information about the industry and the Issuer

Electric power industry is an infrastructural branch of economy. Most final users of the industry products are located in the territory of the Russian Federation. A minor portion of the electricity produced by the industry is exported. Therefore, the projected industry trends depend on the overall trends in the socio-economic development of the remaining branches of economy of the Russian Federation and to a certain extent on the climatic (water content) and weather (yearly average temperature) conditions in Russia.

RAO UES of Russia is the parent company of the largest holding which implements the principal provisions of the state policy in the domain of electricity industry as well as the business interests of its shareholders through ownership of blocks of shares in regional power companies.

The electricity production and transportation activities of the RAO UES of Russia holding in accordance with the Federal Law of the Russian Federation "On Natural Monopolies" are governed as activities in a natural monopoly environment.

2.5.2. Country risks

The economy of the Russian Federation still has certain features of the emerging market, namely: the inconvertibility of the Russian ruble in most countries, currency control and relatively high inflation. The existing Russian tax, currency and customs legislation is open to various interpretations and subject to frequent change.

Political risks

Russia continues to undergo political, economic and social changes. As a transition economy, Russia does not yet have a sufficiently developed business and legislative infrastructure. Furthermore, the Government of the Russian Federation has not yet completed the reforms aimed at creating banking, court, tax, administrative and legislative systems. These risks remain in the present-day Russian economy, resulting, in particular, in the inconvertibility of the national currency abroad, burdensome currency control, a low level of liquidity in the long-term credit and investment markets and a still high inflation rate.

Economic risks

The vast majority of economic factors are beyond the Issuer's control.

Although the economic situation shows emerging trends towards improvement, the economic prospects for the Russian Federation to a great extent depend on the efficiency of the economic measures, financial mechanisms and monetary policy implemented by the Government and the development of fiscal, legal and political systems.

Environmental risks

Given the current activities of the Issuer, environmental risks are associated with the implementation of the investment programs approved by the Board of Directors with regard to compliance with the standards in water facilities construction.

2.5.3. Financial risks

RAO UES of Russia services the credits and loans raised earlier in strict compliance with or ahead of the established service schedules.

As of October 1, 2006 the loans and credits repayable after the reporting date totaled 6,477.9 million rubles, 2,340.3 million rubles higher compared to the beginning of the year.

As of September 30, 2006, RAO UES of Russia owns absolutely liquid assets (cash and cash equivalents) half as much as the total raised funds, including deferred tax payments to the budget and short-term liabilities, and 3.2 times as much as credit and loan obligations.

The risk of non-fulfillment by RAO UES of Russia of its credit and loan obligations within the preset time limits and in their entirety is minimal.

Information as of December 12, 2006 may be provided based on the calculation of data contained in the 2006 financial statements of the Company.

Description of inflation impact.

The Issuer assesses inflation risks as minimal.

2.5.4. Legal risks

Given that the Issuer exports and imports products to a minor extent, the risks of changes in currency regulations and changes in customs regulations and customs duties should be deemed insignificant.

Changes in tax legislation with regard to an increase in tax rates or changes in the procedure and time of tax calculation and payment may reduce the net income of the Issuer, leading, in its turn, to the reduced amount of dividends to be paid.

Changed requirements for the licensing of the Issuer's core business may lead to an increased period of preparation of the documents required to prolong the period of license and the need for the Issuer's compliance with the established requirements. However, in general, this risk should be deemed insignificant, with the exception of cases in which the Issuer will be unable to comply with the requirements applicable to the prolongation of a license or to any licensable activity, or compliance with these requirements will be associated with numerous costs, which may lead to the termination of this activity by the Issuer.

Changes in court practices in relation to any issues concerning the Issuer's activities may lead to increased costs in connection with the retention of qualified lawyers and court judgments delivered not in favor of the Issuer, which may have an adverse impact on the Issuer's performance. However, the probability of changes which can considerably influence the Issuer's activities is insignificant.

2.5.5. Risks associated with the issuer's activities

Risks associated with the governmental regulation of business

The state directly influences the activity of the Holding by regulating wholesale electricity trade through the Federal Tariff Service (FTS) and retail trade in electricity and heat through regional energy commissions. Electricity and heat tariffs for the companies of the Holding are determined based on the regulatory documents on the generation of electricity and heat as well as the regulatory documents applicable to natural monopolies.

The principal income of the Issuer is receiving funds from the transmission fee which is approved by the Federal Tariff Service of Russia. Tariff proposals with respect to financial plans ensuring the Issuer's expenses for the performance of functions assigned thereto are developed pursuant to the resolutions of the Government of the Russian Federation and forwarded to the Ministry for Economic Development and Trade of the Russian Federation, the Ministry of Industry and Energy of the Russian Federation and the Federal Tariff Service. In August 2004, the Government of the Russian Federation approved the Russian Federation socio-economic development forecast for 2005 prepared by the Ministry for Economic Development and Trade and the basic parameters of the forecast through 2007 which includes a cap on tariffs on the Issuer's services and products.

Risks associated with the restructuring which is underway within the industry

A separate trend in the industry is the current restructuring of the electricity industry, including the process of reforming the companies of the RAO UES of Russia holding. The restructuring is carried out under the control of the Government of the Russian Federation in accordance with the regulations of the Russian Federation and in collaboration with the state

authorities. Potentially, reforming is an area which incurs a certain level of risk which is minimized, whenever possible, through the alignment of all significant provisions in the domain of reforming with the resolutions of the state.

III. Detailed Information Concerning the Issuer

3.1. Establishment history and development of the issuer

3.1.1. Information concerning the issuer's company name (name)

Full company name of the issuer.

Российское открытое акционерное общество энергетики и электрификации "ЕЭС России"

Unified Energy System of Russia

Short name.

ОАО РАО "ЕЭС России"

RAO UESR

Information about changes in the issuer's name and form of incorporation.

Unified Energy System of Russia (RAO UESR) Joint-Stock Company

Effective date: *December 31, 1992*

Unified Energy System of Russia (RAO UESR) Open Joint-Stock Company

Effective date: *December 31, 1998*

Unified Energy System of Russia (ОАО РАО UESR) Open Joint-Stock Company

Effective date: *July 31, 2002*

The current name came into effect on *July 31, 2002*

3.1.2. Information concerning state registration of the issuer

Before July 1, 2002.

Issuer's state registration date: *December 31, 1992.*

Number of state registration certificate: *020.863*

Authority which performed state registration: *Moscow Registration Chamber*

After July 1, 2002.

Principal state registration number: *1027700043293*

Date of registration: *July 19, 2002*

Authority which performed state registration: *Moscow Directorate of the Ministry of Taxation of the Russian Federation.*

3.1.3. Information concerning the establishment and development of the issuer

Unified Energy System of Russia (parent company RAO UESR as a legal entity, hereinafter referred to as the "Company") was established on December 31, 1992 as a result of the corporization of individual facilities used for the production, transmission and distribution of electricity formerly controlled by the Ministry of Fuel and Energy of the Russian Federation. Nuclear power plants were not transferred to RAO UESR.

As of September 30, 2006 the state owns 52.68 percent of shares in RAO UES of Russia which is equivalent to 54.99 percent of issued ordinary shares. 45% of issued shares are traded on the stock market of the Russian Federation.

The Issuer's ordinary shares are included in A-1 quotation lists of Not-for-profit partnership "Russian Trading System "Stock Exchange", "Open Joint Stock Company "Russian Trading System "Stock Exchange", and Closed Joint Stock Company "Moscow Interbank Currency Exchange". Preference shares in A-1 quotation list of Closed Joint Stock Company "Moscow Interbank Currency Exchange" and A-2 quotation list of Not-for-profit partnership "Russian Trading System "Stock Exchange". The issuer's shares are the most liquid securities on the Russian stock market.

Electricity industry in general and the Issuer in particular currently undergo the process of restructuring aimed at creating a competitive electric power market and the environment in which the Issuer and the successors thereof will be able to raise the funds necessary to maintain and expand production capacities.

3.1.3.1. Mission of RAO UES of Russia

RAO UESR for the benefit of its shareholders seeks long-term growth in the value of its shares and the shares in the companies which will be formed during the process of restructuring by successfully conducting the reform and increasing the efficiency and transparency of its activity and the activity of the companies established during the process of restructuring.

RAO UES of Russia for the benefit of its customers is implementing a large-scale investment program for the construction of new and the upgrading of the existing generation and transmission facilities to ensure safe and reliable energy supply to all customers for the purpose of satisfying the growing electricity and heat requirements of the economy and the population of this country.

3.1.3.2. Restructuring of RAO UES of Russia

The regulatory basis for reforming the electric power industry of Russia relies on Government Resolution No. 526 dated July 11, 2001 "On Restructuring the Electric Power Industry of the Russian Federation", Federal Laws No. 35-FZ dated March 26, 2003 "On Electric Power Industry", No. 36-FZ dated March 26, 2003 "On Specific Features of Functioning of Electric Power Industry During the Transitional Period and on Introduction of Amendments into Certain Legislative Acts of the Russian Federation and on Recognizing Certain Legislative Acts of the Russian Federation to Have Lost Their Force in Connection with the Adoption of the Federal Law 'On the Electric Power Industry'".

On January 1, 2006 the generation companies established as a result of the restructuring of AO-energos of RAO UES of Russia began operating in the wholesale electricity (capacity) market. These companies were assigned a status of independent wholesale market participants. A total of 44 companies entered the wholesale market since the beginning of 2006, including 6 wholesale generation companies (WGCs), 6 territorial generation companies (TGCs) and 32 regional generation companies (RGCs). The regional generation of the RAO UES of Russia Holding was introduced onto the wholesale market as part of activities aimed at improving and developing the functioning of the wholesale and retail electric power market envisaged in the electric power industry reform plan for 2005-2006 approved by the Government of the Russian Federation on April 15, 2005.

The Federal Tariff Service set substation tariffs on the electricity and capacity supply for new wholesale market suppliers. In order to prevent sudden changes in the cost of electric power in the retail markets for regions, individual tariffs were set for the acquisition of electric power from the wholesale electricity (capacity) market for 2006 based on the average weighted cost of electricity supply by the former power plants of AO-energo companies and the purchase of

electricity from the wholesale market before the introduction of regional generation onto the wholesale market.

Progress in Implementation of Strategy for Restructuring of the Company from October to December 2006

Infrastructural Entities

The principal infrastructural entities of the industry have been formed; the following entities have been established:

- FGC UES – an entity which manages the Unified National Power Grid (UNPG), ensures the integrity of technological management and renders services related to electricity transmission via the UNPG to the market participants on a contractual basis for value. The company underwent state registration as a wholly owned subsidiary of RAO UES of Russia on June 25, 2002. Upon completion of the electric power industry reform in accordance with the applicable law the stake in the authorized capital of the company owned by the state needs to be increased to 75% plus one voting share.

- System Operator – Centralized Dispatching Administration (SO – CDA) – an entity which renders operational dispatch management services to the market participants. The company underwent state registration as a wholly owned subsidiary of RAO UES of Russia on June 17, 2002. Upon completion of the electric power industry reform in accordance with the applicable law the stake in the authorized capital of the company owned by the state needs to be increased to 75% plus one voting share.

- Wholesale market trading system administrator (Unified Power System Wholesale Electric Power Market Trading System Administrator Nonprofit Partnership) (hereinafter NP ATS). Since November 1, 2003, NP ATS has organized the trading process in the free trade sector of the wholesale electricity (capacity) market.

Electricity (Capacity) Market Development

One of the key objectives of restructuring is to create a competitive electricity (capacity) market, a market the prices of which are not controlled by the government but formed based on the demand and supply of suppliers and buyers participating in the market. The target electricity market model envisages the following basic principles of operation of the wholesale and retail markets:

- the functioning of the wholesale electricity (capacity) market within the boundaries of the common market space in the European territory of Russia, the Urals and Siberia (with the exception of isolated power systems located in these territories);
- competitive electricity trade mechanisms: long- and mid-term bilateral financial contracts, day-ahead market, balancing market.
- competitive capacity trade mechanisms: long- and mid-term bilateral contracts, the purchase/sale of capacity at annual and long-term auctions (several years ahead);
- competitive trade in system services – the competitive selection of suppliers and the procurement by the System Operator of services necessary to maintain the preset level of electricity supply quality within the UPS of Russia;
- the translation of wholesale market prices into retail markets – dependence of end user prices in the retail market on the price at which electricity is acquired in the wholesale market;
- an opportunity for the end user to choose an electricity supplier in the retail market.

The technological and commercial infrastructure of the wholesale market comprises the following entities:

- NP ATS - Trading System Administrator Nonprofit partnership established **in 2001** which later became a wholesale electricity (capacity) market operator.
- SO – CDA – system operator of the wholesale market which in **2004** completed the organizational construction of the single vertical framework of operational dispatch management: was assigned the functions of regional dispatching administrations.
- FGC UES – entity which manages the unified national (all-Russia) power grid.

Wholesale Market

A crucial step towards the target wholesale electricity (capacity) market model was the adoption of the new Wholesale Electric Power (Capacity) Market Rules of the Transitional Period approved by Resolution of the Government of the Russian Federation No. 529 dated August 31, 2006 "On Improvement of the Procedure for Functioning of Wholesale Electric Power (Capacity) Market" which came into force on September 1, 2006. The rules already define the competitive electricity trade mechanisms envisaged by the target wholesale market model. A step-by-step reduction in the volumes of electricity traded in the wholesale market at regulated prices (tariffs) provided for by the new Rules offers an opportunity for a step-by-step transition to the target model.

The gist of the transformations provided for by these regulations is transforming the regulated wholesale market sector into the system of regulated contracts (hereinafter the "RC") for the supply of electricity (capacity), i.e. the transition in the near future to long-term bilateral relationship between the suppliers and buyers of electricity (capacity) in the wholesale market.

In 2006, 100% of the electricity volumes included by the FTS of Russia in the forecast wholesale market balance were sold at regulated prices under regulated bilateral contracts among all wholesale market participants – buyers and sellers. However, the volume of trade in the day-ahead market in which trade is conducted at free (unregulated) prices has significantly increased, as since September 1, 2006 the entire volumes of planned electricity production and consumption have undergone a competitive selection of day-ahead price bids.

The volumes sold in the wholesale market at regulated prices (with the exception of electricity supplied to the population) will gradually decrease and all electricity volumes free from regulation, the entire consumption gain compared to the forecast data of the FTS of Russia for 2007 and the entire electricity of the new generation will be traded at free competitive prices. The rates of gradual reduction in the volumes of purchase and sale of electricity at regulated prices have already been set by the Government of the Russian Federation as percentage of the volume included by the FTS of Russia in the forecast balance for 2007. The percentage is as follows: 95% from January 1, 2007 to June 31, 2007; 90% from July 1, 2007 to December 31, 2007; 85% from January 1, 2008 to June 31, 2008; 75% from July 1, 2008 to December 31, 2008; 70% from January 1, 2009 to December 31, 2009; 50% from July 1, 2009 to December 31, 2009; 40% from January 1, 2010 to December 31, 2010; 20% from July 1, 2010 to December 31, 2010. From January 1, 2011 all electricity (with the exception of supplies to the population) will be traded at prices unregulated by the state.

In the 4th quarter of 2006 intensive work was performed with ministries and agencies to prepare regulatory documents ensuring the sustainable functioning of the wholesale electricity (capacity) market in a changed working environment, namely:

- a resolution was prepared with respect to the "pilot projects" for the execution of long-term regulated contracts;
- types of power plants were identified in respect of which the levels of the highest feasible expenses in connection with the electricity production (excluding capacity) are differentiated; used for identifying the cases of price manipulation in the wholesale market;
- ratios were prepared for use in the calculation of capacity value in the event that suppliers fail to fulfill their obligations to prepare generation equipment for the production of electricity of preset quality;

- work was performed to develop and adopt the formula for the adjustment of regulated electricity (capacity) prices (tariffs) used in long-term electricity (capacity) purchase and sale agreements.

In the fourth quarter of 2006, the issues of improving the transitional wholesale electricity (capacity) market continued to be discussed, in particular with the wholesale market participants, namely:

- the issues of reliable power supply to electricity consumers in the peak-load regions during the autumn/winter period were addressed;
- training seminars were conducted for the new wholesale electricity (capacity) market participants on the issues of tax and financial accounting of wholesale market transactions;
- the activity and financial performance of the new wholesale electricity (capacity) market participants were monitored on an ongoing basis.
- preparation for the contractual campaign in the wholesale market in 2007 was underway.

In the first quarter of 2007 it is planned to continue work to improve the wholesale electricity (capacity) market:

- monitoring of activity and financial performance of the new wholesale electricity (capacity) market participants.
- preparation of the rules of competitive capacity trade in the wholesale market.
- further drafting of the regulatory document stipulating the specifics of functioning of the wholesale market during the transitional period in the territories not united in non-price zones of the wholesale electricity (capacity) market.
- further concept elaboration and drafting of regulatory documents on the system service market.

Capacity Market

Forming a capacity market is an integral part of reforming the electric power sector in Russia and building competitive relationship in the wholesale electricity (capacity) market. The liberalization of capacity trade will also be carried out on a-step-by-step basis by reducing the volumes of capacity traded under regulated agreements and selling the remaining volumes (including new capacities commissioned after 2007) using competitive mechanisms – non-regulated bilateral agreements and capacity auctions.

The planned model of capacity auctions includes holding long-term capacity auctions several years ahead. Not only the existing power plants but also greenfield projects will be able to take part in such auctions in the event that the existing capacities fail to cover growing consumption according to long-term forecasts. Placing bids for the sale of capacity several years ahead an investor planning to invest in the construction of new capacities will have a guarantee that these funds will pay back if his bid withstands competition with other investment projects. Such model will allow providing a sufficient prospective number of generating capacities in the system and form price signals for investors, making electric power industry much more attractive to investors. To implement the concept of the competitive capacity market, the ministries and agencies are drafting the appropriate resolution of the Government of the Russian Federation.

However, mandatory technical requirements for suppliers are already in place to ensure that generating capacities are always ready for the production of electricity and ensure the proper quality of electricity. The specifications of generating equipment securing compliance with these requirements are mandatory and included in the capacity payment.

Specific Features of Functioning of the Wholesale Market During the Transitional Period in Areas Not United in Price Zones

On December 31, 2006 Resolution of the Government of the Russian Federation No. 830 dated December 29, 2006 "On the Amendment of Resolution of the Government of the Russian Federation on Electricity Industry Issues" was enacted. The resolution provides an opportunity for the newly established territories not united in the price zones of companies to enter the wholesale market and start independent operation in the wholesale market.

Pursuant to the adopted Resolution on January 1, 2007 the regional generation of non-price zones entered the wholesale market, which is, certainly, a significant step towards the efficient allocation of resources in said territories.

Furthermore, as instructed by the Government of the Russian Federation (resolution of the Government of the Russian Federation No. 529 dated August 31, 2006) the draft resolution of the Government of the Russian Federation determining the specifics of functioning of the wholesale market during the transitional period in the territories not united in the price zones of this market was prepared and is being agreed with the ministries and agencies concerned.

Said project stipulates the specifics of the wholesale market functioning in the territories not united in price zones, systemizes the specifics of participation of newly established companies according to new rules and fully reflects the rules of electricity and capacity trade in the territories not united in the wholesale market price zones.

The project envisages not only the significant improvement of pricing mechanisms in the wholesale market in the aforesaid territories but also the improvement of all engineering processes, including a transition to hourly planning and maintenance of generation modes, introduction of commercial dispatching with regard to the recording of cost performance of electricity production, hourly recording of actually supplied/consumed electricity, etc.

System Services Market

System services market is one of the most effective and efficient tools (mechanisms) for maintaining the required reliability level and the proper power system functioning quality. System services include:

- services related to frequency and active power flows control, including services aimed at ensuring various types of power reserves;
- services related to voltage and reactive power flows control;
- cold start and the involvement of automatic protective devices in work.

To prepare the system services market for launch pilot projects for the rendering of system services and scopes of services were determined and the rules for holding auctions for the selection of system service providers were developed. The implementation of pilot projects for the rendering of system services is planned to start in late 2006. The system services market launch will contribute to more reliable and higher-quality energy supply to customers.

Retail Electricity Markets

On September 1, 2006, under Resolution of the Government of the Russian Federation No. 530 dated August 31, 2006 "On Approval of Rules for Functioning of Retail Electric Power Markets During the Transitional Period of Electricity Industry Reform" the new Retail Electricity Market Rules came into force establishing new principles of interaction among the retail market participants during the transitional period of electricity industry reform. The adoption of new rules is a significant step towards the target model the principles of which were established in the RAO UES of Russia Strategy Concept for 2003-2008 "5+5".

Changes in the rules in accordance with which retail markets function are to a great extent connected with changes in the wholesale electricity market, primarily the sellers' and buyers' transition to the system of regulated contracts followed by a-step-by-step liberalization of electricity (capacity) trade.

The main characteristic of the new system of pricing in the retail market is its synchronization with the process of price liberalization in the wholesale market. This implies that volumes are partly supplied at a regulated price and partly at a price reflecting the cost of electric power in the competitive wholesale electricity market within the unregulated price cap. The unregulated price cap is determined according to a special formula recorded in the Rules based on the information published by NP ATS on a monthly basis in relation to the average cost of electricity unit (1 kWh) in the wholesale market in the previous month, with due account for state regulated tariffs on electricity transmission services, infrastructural services and markup.

The new Retail Market Rules determine the functions and status of guaranteeing supplier, rules for their operation, pricing characteristics, the procedure for the execution of contracts for electricity transmission services in retail markets.

As a result of the conducted structural reforms a sales entity, a transmission entity and a generation entity are currently operating instead of a single power supplier in the electric power industry in the retail electricity market.

In the 4th quarter of 2006, work was performed to launch the new retail electricity market model, namely:

- power sales entities, power suppliers, AO-energo companies – the subsidiaries and dependent companies of RAO UES of Russia – were appointed as guaranteeing suppliers;
- a contractual campaign for the execution of contracts between power sales entities – the subsidiaries and dependent companies of RAO UES of Russia – and customers is underway;
- campaigns have been prepared and are being conducted in the regions to explain the principal provisions of the Retail Market Rules to the customers and representatives of authorities;
- the activity of power sales companies with respect to entering the new model of retail electricity markets is being monitored.

Restructuring of AO-Energo Companies with Regard to Unbundling

The structural reform of the RAO UES of Russia Holding entities is carried out in 72 regional power companies. Reorganization is performed based on the restructuring projects approved by the Board of Directors of RAO UES of Russia pursuant to the resolutions of the Interagency Electric Power Reform Committee of the Russian Federation. As of September 30, 2006, a resolution to restructure 71 out of 72 AO-energo companies was adopted:

- the Board of Directors of RAO UES of Russia approved the projects for the restructuring of 67 out of 72 AO-energo companies (50 AO-energo companies were fully unbundled by means of reorganization through a spin-off under the base-case scenario and 17 AO-energос using a non-base-case scenario);

- the Board of Directors of RAO UES of Russia adopted individual resolutions on the strategy for the development and restructuring of 4 stand-alone AO-energo companies (OAO Magadanenergo, OAO Kolymaenergo, OAO Sakhalinenergo and OAO Chukotenergo);

- The resolution on the restructuring of OAO Yantarenergo is planned to be adopted upon development of the integrated Joint Effort Program of RAO UES of Russia and the Government of the Kaliningrad Region for the purposes of reliable electricity supply and creation of environment for the incorporation of the Kaliningrad Region customers in the electric grids.

- Prior to the phase of state registration of the companies to be established 64 projects were implemented, in particular, 59 restructuring projects were completed;

- 260 new companies underwent the state registration procedure;

To complete the AO-energo restructuring phase measures continue to be implemented with regard to the disposal of the regional management companies established during the unbundling of AO-energос. As of 30 September 34 out of 37 management companies were disposed of.

Unbundling of the Unified National Power Grid (UNPG)

In 2002, Federal Grid Company (FGC UES), a wholly-owned subsidiary of RAO UES of Russia, was established for the purposes of managing the Unified National Power Grid (UNPG). The authorized capital of FGC UES included the UNPG assets previously owned by RAO UES of Russia.

The consolidation of transmission networks within FGC UES is due to the necessity of compliance with the requirements of federal laws in accordance with which the entire UNPG needs to be managed by the UNPG managing entity.

As part of consolidation of transmission grid assets on December 23, 2003 the Government of the Russian Federation adopted resolution No. 1939-r on the establishment of seven Interregional Transmission Companies (ITCs).

Pursuant to this resolution in February 2004 the Russian Federal Property Fund in collaboration with FGC UES founded seven ITCs. The stake held by the Russian Federal Property Fund in these companies is 85%, the stake of FGC UES is 15%.

In February 2005, the UNPG unbundling scheme was modified. The modifications include payment for the additional issuance of shares in FGC UES using the shares in ITCs owned by RAO UES of Russia as well as the reorganization through a takeover of all TCs established as a result of restructuring of AO-energос and through the takeover of 6 ITCs by Center ITC.

On January 1, 2006 FGC UES received a tariff for the transmission of electricity via the UNPG networks.

In late 2006, the market evaluation of shares in 54 TCs and 7 ITCs was completed for the purposes of reorganization through a takeover by OAO Center ITC.

Tentatively in spring (March 2007) it is planned to conduct the extraordinary general meetings of shareholders of 54 Transmission Companies (OAOs) and 6 ITCs concerning the reorganization through a takeover by OAO Center ITC. In 2007 it is planned to complete phase one of the creation of Center ITC.

In 2006, the investment program of FGC UES was considered and the expected project funding sources were specified, including a tariff for the transmission of electricity via the UNPG networks and federal budget funds.

It is planned that in 2007-2009 federal budget funds will be raised for the implementation of the priority areas of the FGC UES investment program and included in the authorized capital of the company. The incorporation of federal budget funds in the authorized capital of FGC UES will contribute to an increase in the direct stake held by the state in the capital of the company and, consequently, compliance with all laws of the Russian Federation requiring that the state achieve a stake in FGC UES of more than 75% + 1 voting share.

Establishment of Interregional Distribution Companies (IDCs)

The principles of interregional integration were envisaged by the main lines of the Russian Federation electric power industry reform in accordance with Resolution of the Government of the Russian Federation No. 526 dated July 11, 2001 "On Restructuring the Electric Power Industry of the Russian Federation".

The resolution of the Board of Directors of RAO UES of Russia¹ approved the base-case scenario of the restructuring of distribution facilities – the intraregional bundling of the distribution companies (DCs) spun-off from AO-energos through the establishment of interregional distribution companies (IDCs).

On October 1, 2004 the Board of Directors of RAO UES of Russia approved the participation of RAO UES of Russia in 4 IDCs. In 2004 and 2005, RAO UES of Russia undertook the state registration of Center and North Caucasus IDC, Northwest IDC, Urals and Volga IDC, Siberia IDC.

The state registration of 4 IDCs has already been completed: OAO Center and North Caucasus IDC on December 17, 2004, OAO Northwest IDC on December 23, 2004, OAO Urals and Volga IDC on February 28, 2005, OAO Siberia IDC on July 4, 2005.

In August 2006, OAO Southern Grid Company (managing entity), a wholly-owned subsidiary of RAO UES of Russia, was also established for the real-time operation of the grid and sales companies of the southern Russia during the transitional period of reform.

For the transitional period the Board of Directors of RAO UES of Russia² adopted a resolution on the transfer of shares in IDCs owned by RAO UES of Russia to FGC UES for trust management.

In 2006 and 2007, a set of measures will be implemented to form the target IDC structure through the contribution of shares in RGCs established as a result of reorganization of AO-energos as payment for additional shares in IDCs.

In general, the Interagency Electric Power Reform Committee meeting of December 27, 2006 approved the Distribution Electricity Grid Development Strategy elaborated by RAO UES of Russia which envisages a transition to the tariff regulation of RGCs based on the RAB (regulated asset base) methods. The implementation of the Strategy will require, apart from the amendment of the regulatory framework for tariff regulation, that the number of IDCs be increased and up to 12 IDCs be established with the comparable amount of assets.

Establishment of Wholesale Generation Companies (WGCs)

Resolution of the Government of the Russian Federation No. 1254-r dated September 1, 2003 (amended version of the Russian Federation Government resolution No. 1367-r dated October 25, 2004) determined the creation of seven wholesale electricity market generation companies, 6 on the base of heat generation assets (hereinafter heat WGCs) and 1 on the base of hydrogeneration assets (hereinafter HydroOGK).

In accordance with the RAO UES of Russia Strategy Concept for 2003-2008 "5+5"³, the resolution of the Board of Directors of RAO UES of Russia (Minutes No. 150 dated September 26, 2003) the creation of heat WGCs underwent two phases:

- during phase one WGCs were established as the wholly-owned subsidiaries of RAO UES of Russia and the property of power plants and the shares in AO-power plants owned by RAO UES of Russia were contributed as payment for authorized capital;
- during phase two the blocks of shares in AO-power plants spun off from AO-energos owned by RAO UES of Russia were contributed as payment for additional shares in WGCs.

¹ Minutes of the meeting of the Board of Directors of RAO UES of Russia No. 113 of April 3, 2002.

² Minutes of the meeting of the Board of Directors of RAO UES of Russia No. 168 dated April 23, 2004, resolution on the prolongation of agreement – minutes No. 237 dated December 8, 2006)

³ Minutes of the meeting of the Board of Directors of RAO UES of Russia No. 150 of September 26, 2003 and No. 213 of February 26, 2006.

On May 27, 2005 the resolution of the Board of Directors of RAO UES of Russia (minutes No. 196) approved the target model of functioning of heat generation companies of the wholesale electricity market which envisages the creation of integrated operating companies through a takeover by WGCs of their respective AO-power plants. As part of the creation of integrated operating companies measures are being taken to ensure that AO-power plants join respective WGCs and, pursuant to resolutions being adopted, convert to a single share (exchange of the power plants' shares into the WGCs' shares).

The Board of Directors of RAO UES of Russia has approved the participation and RAO UES of Russia has performed the state registration of all seven WGCs: OAO OGK-5 (on October 27, 2004 in Yekaterinburg), OAO OGK-3 (on November 23, 2004 in Ulan-Ude), HydroOGK (on December 26, 2004 in Krasnoyarsk), OAO OGK-4 (on March 4, 2005 in Surgut), OAO OGK-2 (on March 9, 2005 in the village of Solnechnodolsk of the Stavropol Territory), OAO OGK-6 (on March 17, 2005 in Rostov-on-Don), OAO OGK-1 (on March 23, 2005 in Tyumen).

Throughout 2005 the Board of Directors of RAO UES of Russia adopted resolutions on the parameters for the establishment of all heat WGCs, i.e. the terms and ratios of exchange/conversion of shares in AO-power plants into the shares in their respective heat WGCs. The shareholders of AO-power plants of all heat WGCs at the general meetings of shareholders adopted the necessary resolutions for their takeover by their respective WGCs.

During 2006, all heat WGCs completed the process of consolidation through the takeover of their respective AO-power plants and are currently functioning as integrated operating companies. The shares in OAO OGK-1, OAO OGK-2, OAO OGK-3, OAO OGK-4, OAO OGK-5 and OAO OGK-6 entered the stock market.

The target model of functioning of HydroOGK envisages the creation of an integrated operating company comprising hydraulic power plants as its branches. For the purposes of organizing new activities (businesses) and implementing investment projects HydroOGK may establish subsidiaries (dependent companies).

Phase one includes the reorganization of the subsidiaries of HydroOGK the stake in which equals to 100% minus 1 share through their takeover (merger) by (with) HydroOGK or the contribution to the authorized capital of HydroOGK of the property of hydraulic power plants owned by the subsidiaries of HydroOGK in which HydroOGK owns 100% minus 1 share.

Phase two includes the reorganization of the remaining AO-HPPs (subsidiaries of HydroOGK) through their takeover (merger) by (with) HydroOGK if the Russian Federation is provided a stake in the authorized capital of HydroOGK (following the restructuring of RAO UES of Russia) equivalent to at least 50% + 1 share.

In December 2006, the report of the results of issuance of additional shares in HydroOGK paid for using the property owned by RAO UES of Russia underwent state registration. The property includes the shares in OAO Zagorskaya HPSPP, OAO Stavropol Electricity Generation Company, OAO Daghestan Regional Generation Company, OAO Cheboksarskaya HPP, OAO Zaramagskie HPPs, OAO Zelenchukskie HPPs, OAO NIIES, OAO B.E. Vedeneev VNIIG (the incorporation of generation assets in the HydroOGK holding).

Establishment of Territorial Generation Companies (TGCs)

The principles of integration of regional generation companies were envisaged by the main lines of the Russian Federation electric power industry reform in accordance with Resolution of the Government of the Russian Federation No. 526 dated July 11, 2001 "On Restructuring the Electric Power Industry of the Russian Federation".

The configuration envisaging the creation of 14 TGCs was considered and approved by the Russian Federation Government Commission on Reform of Electric Power Industry.

The resolution of the Board of Directors of RAO UES of Russia (minutes of the meeting of the Board of Directors of RAO UES of Russia No. 168 of April 23, 2004) approved the TGC

configuration on the base of AO-energo generation assets (with the exception of the generation assets of the isolated AO-energo companies and power stations taken over by WGCs).

The RAO UES of Russia Strategy Concept for 2003-2008 "5+5"⁴ defines the mechanisms and period for completion of the TGC creation, introduction of shares onto the stock market and the principal trends in the further development of the companies.

The target model of functioning of all TGCs envisages the creation of the integrated operating company typically through the reorganization of TGCs and RGCs by a takeover.

To date, the Board of Directors of RAO UES of Russia has adopted all necessary resolutions and is completing the creation of all 14 TGCs:

- 10 TGCs shall be formed on the base of the wholly owned subsidiaries of RAO UES of Russia established in 2004 and 2005;
- 1 TGC (TGK-3) was created on the base of the generation assets of OAO Mosenergo as a result of the unbundling of this company (April 1, 2005);
- 1 TGC (TGK-7) was established by OAO Samaraenergo, OAO Saratovenergo and OAO Ulyanovskenergo;
- 1 TGC (TGK-1) was established by OAO Kolenergo, OAO Karelenergo and OAO Lenenergo;
- 1 TGC (TGK-12) shall be created on the base of the generation assets of OAO Kuzbassenergo unbundled on July 1, 2006.

As of December 31, 2006:

- the creation of TGK-3 (OAO Mosenergo) on the base of the generation assets of Mosenergo reorganized on April 1, 2005 was completed;
- the creation of the target structure of OAO TGK-4, OAO TGK-5 and OAO TGK-14 through the takeover of the respective RGCs was completed;
- the OAO TGK-6 holding was created (the additional issuance of shares in this TGC was completed; shares were paid for using shares in 5 RGCs included in the configuration)l;
- the state registration of 13 TGCs was performed⁵;
- 9 out of 14 TGCs were reorganized through a takeover of the configured regional generation companies (TGK – 1, 2, 4, 5, 8, 9, 10, 13, 14), in particular, the creation of the target structure of TGK - 4, 5, 14 was completed.
- phase I of the reorganization of TGCs through a takeover was completed, the following operating companies were established:
 - OAO TGK-1 without the generation assets of OAO Murmanskaya CHPP. OAO Petersburg Generation Company, OAO Karelgeneratsiya, OAO Kola Peninsula Power Generation Company and OAO Apatitskaya CHPP ceased operation due to their takeover by OAO TGK-1. The generation assets of OAO Murmanskaya CHPP are scheduled to be incorporated in the 1st half of 2007.
 - OAO TGK-2 without the assets of OAO Arkhangelsk Generation Company. The scheme for the incorporation of OAO Arkhangelsk Generation Company in OAO TGK-2 is currently being elaborated.
 - OAO TGK-8 without the generation assets of OAO Kuban Generation Company. The generation assets of OAO Kuban Generation Company are scheduled to be incorporated in the TGC in April 2007.

⁴ Minutes of the meeting of the Board of Directors of RAO UES of Russia No. 150 of September 26, 2003 and No. 213 of February 3, 2006.

⁵ As specified in the establishment project approved on December 23, 2005 TGK-12 will be formed on the base of OAO Kuzbassenergo.

- OAO TGK-9 without the generation assets of OAO Komi Regional Generation Company. The generation assets of OAO Komi Regional Generation Company are scheduled to be incorporated in the TGC in February 2007.
- OAO TGK-10: the management company OAO TGK-10 and OAO Chelyabinsk Generation Company ceased operation as a result of their takeover by OAO Tymen Regional Generation Company. The united company was renamed OAO Territorial Generation Company No. 10. Phase two envisaging integration with OAO Kurgan Generation Company is scheduled to be completed in the first half of 2007.
- OAO Eniseiskaya TGK (TGK-13): the creation of TGK-13, an operating company, was completed. The management company OAO TGK-13 and OAO Krasnoyarskaya Generatsiya ceased operation as a result of their takeover by OAO Khakas Generation Company. The united company was renamed OAO Eniseiskaya Territorial Generation Company (TGK-13). In the 3rd quarter of 2007 it is planned to transfer to TGK-13 title to 100% of shares in the company to be established on the base of property of Kyzylskaya CHPP (currently owned by OAO Tyvaenergo).

- In March 2007, it is scheduled to establish the OAO TGK-7 holding (payment for the additional issuance of shares in TGK-7 using the shares in OAO Orenburg Heat Generation Company).

The shares in TGK-1, -2, -3, -4, -5, -6, -8, -9 entered the organized securities market and are traded.

Power Sales Companies

Following the reorganization of AO-energos the unbundled power sales companies started functioning as independent legal entities performing activities related to the purchase of electricity and its sale to end customers.

For the purposes of increasing the financial sustainability of power sales companies established through the restructuring of AO-energos for the transitional period the Board of Directors of RAO UES of Russia (minutes No. 198 of June 24, 2005) approved the base case of using the shares in EGCs envisaging the transfer of the blocks of shares in EGCs owned by RAO UES of Russia for trust management to TGCs. This mechanism envisages the execution of agreements for the trust management of shares in power sales companies for a one-year period between RAO UES of Russia and TGCs based on the territorial configuration of TGCs approved by the Board of Directors of RAO UES of Russia (without the transfer of title to the shares in power sales companies from RAO UES of Russia to TGCs).

On September 30, 2005 the Board of Directors of RAO UES of Russia identified 10 "pilot" projects for the use of shares in power sales companies different from the base case:

- the maximum of 3 projects to be implemented in collaboration with regional administrations;
- 1 project for the transfer of shares in EGCs owned by RAO UES of Russia for trust management to WGCs;
- at least 5 projects for the transfer of shares in the EGCs owned by RAO UES of Russia for trust management to independent sales companies;
- 1 project for the sale of shares in a power sales company at a public auction.

To date, 10 pilot projects have been implemented:

- 3 projects related to the transfer of shares in OAO Kaluga Sales Company, OAO Tambov Power Sales Company, OAO Krasnoyarskenegosbyt for trust management to counterparties

selected in collaboration with regional administrations;

- 1 project related to the transfer of shares in OAO Vologda Sales Company for trust management to OAO OGK-6 upon the terms similar to the terms of the agreement for trust management of shares in power sales companies executed with TGCs;

- 3 projects related to the transfer of shares in OAO Udmurt Power Sales Company, OAO Chelyabenergosbyt, OAO Novgorod Power Sales Company for trust management to the power sales companies independent of RAO UES of Russia;

- 1 project for the sale of 47.36% of shares in OAO Yaroslavl Sales Company owned by RAO UES of Russia at a public auction. In July 2006, a public auction was held to sell the block of shares in OAO Yaroslavl Sales Company owned by RAO UES of Russia. The price offer resulting from the sales was more than 2.3 times as much as the initial auction price. RAO UES of Russia raised over 425 million rubles.

After considering the results of analysis of implementation of the base case and pilot projects for the use of shares in power sales companies and in view of the upcoming reorganization of RAO UES of Russia, on December 8, 2006 the Board of Directors of RAO UES of Russia adopted the strategy of RAO UES of Russia in relation to power sales companies as a strategy for using the shares in power sales companies owned by RAO UES of Russia. The base case of the strategy implies selling the shares in power sales companies at a public auction with the initial price not lower than the market price determined by the independent appraiser.

Pursuant to the resolution of the Board of Directors of RAO UES of Russia the sale of shares in power sales companies will begin in 2007. Most power sales companies need to be sold by 2008.

All options for using the shares in EGCs different from the base case are planned to be submitted for consideration by the Board of Directors of RAO UES of Russia on a-case-by-case basis.

It was also resolved that pursuant to a resolution of the Board of Directors of RAO UES of Russia (minutes No. 198 of June 24, 2005) the term of agreements for the trust management of shares in EGCs executed with TGCs be extended until the sale of shares in EGCs. Pursuant to the resolutions of the Board of Directors of RAO UES of Russia dated June 24, 2005; July 1, 2005 and September 30 – October 4, 2005 the executed agreements for the trust management of shares in EGCs will be effective in accordance with the approved terms and conditions.

Attracting Investments in RAO UES of Russia Holding Companies

RAO UES of Russia and the RAO UES of Russia Holding companies are taking a set of measures to attract investment into the electric power industry. During the process, it is intended to attract both private investment through the issuance of additional shares in generation companies (WGCs, TGCs) and federal budget funds necessary to implement the investment programs of the companies falling under the state control upon completion of the restructuring of RAO UES of Russia (FGC UES, SO - CDA and HydroOGK).

Attracting Investments in Heat Generation Companies

As of December 31, 2006.

The Board of Directors of RAO UES of Russia approved the list of projects for the issuance of additional shares or disposal of shares in generation companies for the purposes of investment project financing.

First-priority projects include OAO OGK-3, OAO OGK-4, OAO OGK-5, OAO Mosenergo (TGK-3) and OAO TGK-9⁶.

The shares in the first "pilot" company, OAO OGK-5, were issued in November 2006.

Second-priority projects include OAO OGK-1, OAO OGK-2, OAO OGK-6, OAO TGK-1, OAO TGK-4, OAO TGK-5, OAO Volzhskaya TGK (TGK-7) (through the sale of treasury shares), OAO YuGK TGK-8, OAO TGK-10, OAO Kuzbassenergo (TGK-12) and OAO TGK-13⁷.

Attracting Investments in Infrastructural Entities (FGC UES, SO – CDA) and HydroOGK

The Government of the Russian Federation adopted a decision on the necessity for the participation of the state in the authorized capitals of FGC UES, SO - CDA and HydroOGK from 2007 to 2009 by means of the acquisition of additional shares in these companies using federal budget funds. The funds obtained will be used for the implementation of promising investment projects of FGC UES, SO - CDA and HydroOGK.

The implementation of the aforesaid measures will also contribute to an increase in the stake owned by the Russian Federation in the capital of the companies to the level established by law.

Restructuring of RAO UES of Russia

The restructuring of RAO UES of Russia means the final phase of structural reforms resulting in the creation of the target structure of electric power industry of Russia, the establishment of independent companies attractive to investors and operating efficiently in the competitive market environment.

All assets will be allocated among the shareholders of RAO UES of Russia (the state and minority shareholders) in proportion to their respective stakes in the authorized capital of RAO UES of Russia.

It is planned to restructure RAO UES of Russia in two phases:

During phase one (in late 2006 and early 2007) it is intended to spin off two heat generation companies (OAO OGK-5 and OAO TGK-5) from RAO UES of Russia and allocate shares on a pro-rata basis among the shareholders of RAO UES of Russia. As a result of restructuring of RAO UES of Russia its shareholders (the state and minority shareholders) will be provided with the blocks of shares in the target companies of the industry.

During the first half of 2006 all necessary preparatory measures were taken in accordance with the laws of the Russian Federation.

Upon the first reorganization of RAO UES of Russia the stakes held by the Russian Federation in the equities of the above-mentioned generation companies are expected to be as follows: at least 26.3%⁸ in OAO OGK-5 and at least 25% + 1 share in OAO TGK-5.

To that end, the general meeting of shareholders of RAO UES of Russia of December 6, 2006 simultaneously adopted resolutions on reorganization through a spin-off of companies from RAO UES of Russia and their takeover by the target companies ("combined" reorganization).

To implement the proposed procedure, resolutions on reorganization also need to be adopted by the general meetings of shareholders of OAO OGK-5 and OAO TGK-5. These

⁶ Minutes of the meeting of the Board of Directors of RAO UES of Russia No. 224 of June 23, 2006.

⁷ Minutes of the meeting of the Board of Directors of RAO UES of Russia No. 231 of September 29, 2006.

⁸ Including the issuance of additional shares in OAO OGK-5 and OAO TGK-5 and the sale of 25.03% of shares in OAO OGK-5.

resolutions are scheduled to be adopted only in the first half of 2007.

Therefore, upon completion of phase one of restructuring the shareholders of RAO UES of Russia will be able to receive shares in 2 heat generation companies.

Phase two of restructuring (2007 – mid-2008) – the final reorganization of RAO UES of Russia – includes completing structural transformations, spinning off all target industry companies from RAO UES of Russia and liquidating RAO UES of Russia as a legal entity.

As a result of reorganization the state needs to be provided at least controlling stakes in FGC UES (FGC) and SO – CDA (SO) as direct participation in the equities of these companies. Subsequently, by law the stake held by the Russian Federation in FGC and SO needs to be increased to at least 75% + 1 share; the state is also expected to withdraw from participation in the equities of heat generation companies (WGCs and TGCs).

3.2. Core business activities of the issuer

3.2.1. Industry in which the issuer operates

OKVED (All-Russia Classifier of Economic Activities) codes:

74.15, 40.10.2, 40.10.11, 65.23, 73.10, 45.21.5, 45.21.53, 74.14, 29.24.9, 80.30.3, 64.20, 22.15, 22.22, 85.12, 85.11.2, 63.40, 50.20, 72.40.

3.2.2. Core business activities of the issuer

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 3.2.2.

3.2.3. Materials, goods (raw materials) and suppliers of the issuer

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 3.2.3.

3.2.4. Target markets for the issuer's goods (work, services)

The main portion of income generated by the Company is the fee for services related to ensuring the functioning and development of the Unified Energy System of Russia provided by RAO UES of Russia in accordance with Resolution of the Government of the Russian Federations No. 793 dated July 12, 1996 "On Federal (All-Russia) Wholesale Electricity (Capacity) Market" and No. 792 dated December 30, 2003 "On the List of Services Related to Ensuring the Functioning and Development of the Unified Energy System of Russia". The fee was set by the Federal Tariff Service (FTS of Russia). The target market for the Company's services is the federal (all-Russia) wholesale electricity (capacity) market, the list of services and the amount of fee for such services is established by the state regulatory body and the Company has limited opportunities for influencing the target market for its services.

(The main portion of income generated by the Company is fees for services related to ensuring the functioning and development of the Unified Energy System of Russia rendered by RAO UES of Russia in accordance with article 12 of Federal Law No. 36-FZ dated March 26, 2003 "On Specific Features of Functioning of Electric Power Industry During the Transitional Period and on Introduction of Amendments into Certain Legislative Acts of the Russian Federation and on Recognizing Certain Legislative Acts of the Russian Federation to Have Lost Their Force in Connection with the Adoption of the Federal Law 'On the Electric Power Industry'" and Resolution of the Government of the Russian Federation No. 792 dated December 30, 2003 "On the List of Services Related to Ensuring the Functioning and Development of the Unified Energy System of Russia". Prior to the completion of the transitional period of electricity industry reform services will be rendered by RAO UES of Russia to the wholesale electricity (capacity) market participants, i.e. consumers of electricity and power suppliers, under bilateral agreements. The amount of service fee is established by the Federal Tariff Service (FTS) in accordance with the Procedure and Terms of Payment for Services Related to Ensuring the Functioning and Development of the Unified Energy System of Russia approved by Decree of the FTS of Russia No. 320-e/1 dated July 26, 2005)

Therefore, the Company performs the functions delegated by the Government of the Russian Federation upon monopolistic conditions and any changes in the target market for the Company's services are determined by the Government of the Russian Federation.

3.2.5. Information concerning licenses held by the issuer

Activities: *To perform activity related to explosion hazardous production facilities operation.*

3.2.6. Joint operations of the issuer

The goal of investment under joint operating agreements is generating income after the commissioning of construction projects. During the current phase, the principal goal of investment is the completion of construction and the commissioning of projects.

Obtainment of financial results from joint operations: financial results from investment during the performance of joint operations by RAO UES of Russia are intended to be obtained upon completion of construction and the commissioning of projects.

3.3. Plans for future activities of the issuer

In 2007, RAO UES of Russia will continue its activities to ensure the functioning and development of the Unified Energy System of Russia in accordance with Resolution of the Government of the Russian Federation No. 792 dated December 30, 2003 "On the List of Services Related to Ensuring the Functioning and Development of the Unified Energy System of Russia".

During the period of restructuring of the Company and electricity market development the specific objectives of RAO UES of Russia (the Company) for 2007 will include:

Conducting in a timely manner a contract campaign aimed at executing contracts and supplementary agreements for the provision of services related to ensuring the functioning and development of the Unified Energy System of Russia for 2007 with the wholesale market participants, with due account for the launch of the new wholesale market model (NOREM) and the establishment of new power sales companies as well as the restructuring of the power systems of the Far East and Siberia.

Ensuring cash proceeds to the Company's income in the amount approved by the Management Board of RAO UES of Russia (transmission fee, dividends, rent and other obligations).

Continuing work to sell the non-core assets owned by RAO UESR.

Ensuring that the 12.2 billion ruble investment program of RAO UES of Russia as approved by the Russian Government and concurred with the FTS of Russia is implemented 100% in 2007.

In 2007, funding for the objects of investment program of RAO UES of Russia is expected to focus on thermal power plants, namely: Kaliningradskaya CHPP-2, Ivanovskaya TPP and Mobilnye GTTPPs. During the implementation of the aforesaid program in 2007 the Mobilnye GTTPPs project will be carried out and the 1st power unit of Ivanovskaya TPP (with a capacity of 325 MW) will be launched.

Implementing the necessary measures aimed at reducing planned costs and generating additional income.

Further work related to the normalization of assets and liabilities in the context of the approaching liquidation of RAO UES of Russia.

Ensuring the further development of competitive electric power markets.

Monitoring the operation of the Unified Energy System of Russia for the early identification of signs and prevention of power supply interruptions and crises.

Coordinating and exercising control over fuel supply to generators which participate in the wholesale electricity (capacity) market.

3.4. Participation of the issuer in industrial, banking and financial groups, holdings, concerns and associations

Participation of RAO UES of Russia in financial and industrial groups is not envisaged by the electric power industry regulations of the Russian Federation.

3.5. Subsidiaries and dependent business entities of the issuer

This section of the report provides a list of subsidiaries and dependent companies of RAO UES of Russia.

The companies are recognized as subsidiaries and dependent companies (SDCs) in accordance with the Civil Code of the Russian Federation (part 1, articles 105 and 106) and the Federal Law "On Joint-Stock Companies" (article 6).

In accordance with Federal Law No. 35-FZ dated March 26, 2003 "On Electric Power Industry" the Unified Energy System of Russia is a set of production and other property assets of the electric power industry connected through the common process of production (including production in the mode of combined generation of electricity and heat) and transmission of electricity in the environment of centralized operational dispatch management in the electric power industry.

The Unified National (all-Russia) Power Grid is a set of electric grids and other electric grid facilities beneficially owned or owned upon any other ground provided for by the federal laws by the electricity industry participants and ensuring reliable electric power supply to customers, the functioning of the wholesale market and the parallel operation of the Russian electric power system and the electric power systems of foreign countries.

The list of members of the management bodies of the subsidiaries and dependent companies of RAO UES of Russia is provided in Appendix 5.

The website of the Company also provides information on the stake held by RAO UES of Russia in the authorized capitals and voting shares in the joint-stock companies on the following web-page:
http://www.rao-ees.ru/ru/info/about/str_sobsv/show.cgi?dol_sob.htm

3.6. Composition, structure and value of the issuer's fixed assets, information concerning plans for the acquisition, replacement, disposal of fixed assets and all evidence of encumbrance of the issuer's fixed assets

3.6.1. Fixed assets

Comparative data on the composition, structure and value of the fixed assets of RAO UESR for the five most recently closed fiscal years

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 3.6.1.

IV. Information Concerning Financial and Economic Activities of the Issuer

4.1. Financial and economic performance of the issuer

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 4.1.

4.1.1. Profit and loss

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 4.1.1.

4.1.2. Factors affecting change in the amount of revenue from the sale of goods, products, work, services by the issuer and the issuer's operating profit (loss)

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 4.1.2.

4.2. Liquidity of the issuer

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 4.2.

4.3. Value and structure of the issuer's equity and current assets

4.3.1. Value and structure of the issuer's equity and current assets

a) the authorized capital of the Company as specified in the Charter amounts to 21,558,451,684 (twenty-one billion, five-hundred fifty-eight million, four-hundred fifty-one thousand, six-hundred and eighty-four) rubles.

b) the issuer's shares repurchased by the issuer for their further resale (transfer) are not available. 60,576 shares valued at a total of 30,288 rubles are held in the Company's account as of December 31, 2006.

c) information on the establishment and use of the reserve fund as of December 31, 2006 is provided in paragraph 8.1.3 of this report. The reserve fund amounts to 3,234,156,000 rubles.

As of September 30, 2006

Indicator	First 9 months of 2005	2005	First 9 months of 2006
Authorized capital, rubles in thousands	21,558,452	21,558,452	21,558,452

Adequacy of the equity and current assets of the Company as of September 30, 2006

Indicator	First 9 months of 2005	2005	First 9 months of 2006
Average daily operating expenses inclusive of other operating expenses, rubles in thousands	227,595.9	237,683.5	89,091.8
Net current assets (net of long-term accounts receivable), rubles in thousands	27,941,499	29,170,823	36,110,096
Interval, days	123	123	405

The table above shows that the Company does not lack current assets.
The financial condition of the Company is stable.

Data as of December 31, 2006 cannot be provided in the Quarterly Report for the 4th quarter of 2006 due to the lack of completed financial statements of the Company for 2006.

4.3.2. Financial investments of the issuer

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 4.3.2.

4.3.3. Intangible assets of the issuer

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 4.3.3.

4.4. Information concerning policy and expenses incurred by the issuer in the domain of scientific and technological development, in relation to licenses and patents, new developments and research

In the fourth quarter of 2006, the Company carried out research and development (R&D) for 2 contracts executed in 2003 for the development R&D deliverables with the scope of work valued at 525,000 rubles.

No license agreements for the assignment of the right to use R&D deliverables were executed in the fourth quarter.

No documents securing the rights to intellectual property obtained as a result of R&D conducted per request of RAO UESR were executed in the 4th quarter of 2006

4.5. Analysis of development trends in the domain of the issuer's core business

4.5.1. Analysis of factors and conditions affecting the issuer's activity

Industry and RAO UES of Russia Development Forecasts for Period from 2007 to 2011

Since 2002, the RAO UES of Russia holding has operated a regular scheme for preparing mid-term forecasts of development of the power companies of the Holding and a consolidated forecast balance of the electricity industry and the Holding for the coming five years introduced

by decree of RAO UES of Russia No. 57 dated January 31, 2002. Since 2005, the aforesaid operations have been performed by a specially established the Agency for Power Balance Forecasting (hereinafter the Agency). The Agency is currently preparing the forecast of electricity industry development for the period from 2007 to 2011.

Domestic electricity supply forecast is based on the parameters of socio-economic development forecast. In an environment of high uncertainty of indicators connecting electricity demand to economic growth dynamics (elasticity to GDP, electric intensity reduction rates) the Scenario Conditions for 2007-2011 consider three scenarios of electric power consumption growth against 2006:

- the minimum case implying 18% growth over five years (the average annual rate of 3.4%) and consumption equivalent to 1,124 billion kWh in 2010 and 1,158 billion kWh in 2011;
- the base case implying 27% growth over five years (the average annual rate of 4.9%) and consumption equivalent to 1,197 billion kWh in 2010 and 1,247 billion kWh in 2011;
- the maximum case implying 36% growth over five years (the average annual rate of 6.3%) and consumption equivalent to 1,260 billion kWh in 2010 and 1,330 billion kWh in 2011.

The minimum-case scenario predicts the most intensive electricity consumption growth for the IPS of Northwest, Urals and Center. The base case also forecasts high growth rates for these IPS and intensive demand growth for the South IPS and the Siberia IPS. The maximum-case scenario expects the highest growth in the IPS of Northwest, Siberia and Vostokenergo.

Based on accepted electricity consumption scenarios and recent trends in electric power consumption modes the probable maximum loads for 2010 within the centralized electricity supply zone fall within the range of 177-190-202 GW for the minimum-, base- and maximum-case scenarios of electricity demand movement.

The cumulative electricity and capacity export from 2007 to 2011 will increase mainly due to supplies to China and by 2011 the export/import balance will amount to 17.3 billion kWh/3.3 GW.

Including projected export, reserve and the forecasted movement of capacity constraints of power plants the cumulative capacity demand will increase from 203.1 GW in 2006 to 236.1 GW in 2011 according to the minimum-case scenario, 250.7 GW according to the base-case scenario and 263.3 GW according to the maximum-case scenario.

Preliminary data suggest that by late 2006 the installed capacity of power plants in Russia in the centralized electricity supply zone (excluding the Taimyr and Norilsk load node) was equivalent to 211.2 GW. With due account for the forecasted dismantling of turbine equipment of power plants, in particular due to the requirements of the Engineering Policy Concept, and capacity gain as a result of the upgrading of po units, etc., the installed capacity in 2011 is estimated at 206.9 GW.

The investment program of electricity industry participants for the period from 2007 to 2011 includes the commissioning of generating capacities of 51.3 GW: 4.4 GW by NPPs, 6.9 GW by HPPs and 40.0 GW by TPPs.

The table below provides the volumes of generating capacities to be commissioned from 2006 to 2010 by year broken down by power plant type:

	MW					
	2007	2008	2009	2010	2011	2007-2011
NPPs	87.0	287.0	1,611.0	1,440.0	1,000	4,425
HPPs	896.1	637.9	1,633.5	2,266.4	1,467	6,901
TPPs	2,067.5	3,402.0	7,936.0	17,959.0	8,666	40,030

TOTAL	3,050.6	4,326.9	11,180.5	21,665.4	11,133.0	51,356
--------------	----------------	----------------	-----------------	-----------------	-----------------	---------------

The NPPs development program includes the commissioning of 1.0 GW unit No. 2 at Volgodonskaya NPP in 2009, the commissioning of 1.0 GW unit No. 5 at Kurskaya NPP and the construction of a 0.07 GW NPP with KLT-40S reactor facilities in Severodvinsk in 2010, the commissioning of 1.0 GW unit No. 4 at Kalininskaya NPP in 2011 as well as the implementation of the Forcing program increasing the capacity of existing units by 1.4 GW.

The capacities to be commissioned by HPPs from 2007 to 2011 total 6.9 GW with due consideration of the investment programs of HydroOGK, TGCs and independent generators. HydroOGK plans to continue during the period in question the construction and completion of the hydraulic power plants initiated in the previous years, namely: Bureyskaya HPP, Boguchanskaya HPP, Zaramagskie HPPs, Nizhne-Cherekskie HPP Cascade, etc. and launch the construction of the new power plants: Zagorskaya HPSPP-2, Nizhne-Bureyskaya HPP, Verkhne-Krasnogorskaya HPP. Furthermore, during the forecast period the existing HPPs of HydroOGK and TGCs will be re-equipped and generating unit No. 3 will be commissioned at Vilyuiskaya HPP-3 owned by OAO Almazy Rossii.

The capacities to be commissioned by TPPs by 2011 total 40.0 GW. With due account for the existing construction and the opportunity of increasing capacities as soon as possible the top priority for the period in question is gas-fired generation using combined-cycle gas and gas turbine technologies. For the purpose of accelerating construction and cheapening projects units CCGT-800 and CCGT-400 were approved as typical for implementation. It is planned to commission new units at Severo-Zapadnaya CHPP, Kaliningradskaya CHPP-2, Nizhnevertovskaya TPP, Permskaya TPP, Surgutskaya TPP-2, Stavropolskaya TPP, Nevinnomysskaya TPP, etc. Gas-fired capacities will account for more than 70% of total capacities to be commissioned by TPPs during the five-period period.

However, by the end of the period in question it is planned to increase the coal-fired capacities to be commissioned. 225 MW, 330 MW and 660 MW units were approved as typical for implementation. It is planned to commission units using coal fuel at Kashirskaya TPP, Serovskaya TPP, Troitskaya TPP, Cherepetskaya TPP, Berezovskaya TPP-1, etc.

The preliminary analysis of the balance situation under given conditions shows that:

- in all cases mentioned above the investment program does not meet the balance needs for the commissioning of new TPP capacities from 2007 to 2009 (in 2007 and 2008 according to the minimum-case scenario);
- the capacities to be commissioned according to the minimum case scenario throughout the period in the Siberia IPS and the East IPS and beginning in 2010 in all IPS of the European segment of the IPS of Russia as part of the investment program exceed the new capacity needs;
- the capacities intended to be commissioned according to the base-case scenario exceed the new capacity needs in the European segment of the IPS of Russia beginning in 2010 (beginning in 2010 in the Center IPS and the South IPS and by 2011 in the Urals IPS and the Northwest IPS); in the Siberia IPS the irregular commissioning of capacities leads to the alternating shortages (1.2 billion kW in 2010) and surpluses (0.9 GW in 2011) of new capacities; in the East IPS capacity shortage in 2010 and 2011 will amount to 0.3 GW.
- the capacities planned to be commissioned according to the maximum-case scenario meet 25-50% of the new capacity needs from 2007 to 2009. New capacity shortage during this period will amount approximately to 14 GW, reducing to 4.8 GW by 2011; in 2011 the Urals IPS, the Siberia IPS and the East IPS will suffer most from the shortage of new TPP capacities.

Therefore, analysis shows that if the planned program for the commissioning of generating capacities is implemented to the full extent, in 2010 and 2011 the capacity needs (for the estimated reserve) will anyway be met for the minimum- and base-case scenarios. The implementation of the maximum-case scenario will require expanding the scope of commissioning of new TPP capacities of the Holding by 15%, namely: by 10% in the Urals IPS, 1.8-fold in the Siberia IPS and 5-fold in the East IPS.

During the preparation of the consolidated Forecast Balance of the Electricity Industry and the RAO UES of Russia Holding for the period 2007-2011 the required volume of generating capacities to be commissioned during the period concerned and their respective sites will be specified.

Development Trends in the Domain of the Issuer's Core Business and Electric Power Industry of Russia

In 2005, the reliable functioning of the Unified Energy System was secured. The system operated 100% of calendar time at standard electric current frequency determined by GOST (national standard). In addition, in 2005 100.0% of time electric current frequency in the interconnection among the UES of Russia, the CIS countries and the Baltic states was maintained within the preset limits (50 ± 0.05 Hz).

The annual peak load of the UES of Russia power plants was recorded on December 27, 2005 at the 50.00 Hz electric current frequency and -13.3°C outdoor air temperature (0.1°C lower than the average temperature for many years and 4.9°C lower compared to 2004) and was equal to 137,400 MW, 2.0% higher than the 2004 peak load. On January 23, 2006 the peak load of the UES of Russia power plants reached 146,500 MW, 8.4% higher than the 2004 peak load.

Indicators	Unit of measurement	2001	2002	2003	2004	2005
Average electric current frequency rate within the Unified Energy System of Russia	Hz	50.00	50.00	50.00	50.00	50.00
Duration of operation of the Unified Energy System of Russia at the standard electric current frequency (% of calendar time)	%	100.00	100.00	100.00	100.00	100.00

Duration of operation of the Unified Energy System of Russia at the standard electric current frequency determined by GOST (national standard) (49.8-50.2 Hz) from 1999 to 2005

високосный	Leap year
Продолжительность работы с нормативной частотой	Duration of operation at standard frequency
% календарного времени работы с нормативной частотой	Operation at standard frequency (% of calendar time)

RAO UES of Russia is the largest electric power Holding. The installed capacity of its power plants as of January 1, 2006 amounted to 157,700 MW, 72.0% of the total capacity of Russian power plants.

Indicators	Unit of measurements	2001	2002	2003	2004	2005	2005/2004, +/-	2005/2004, %%	2005/2001, +/-	2005/2001, %%
Installed capacity										
Total for the Russian Federation	million kW	215.3	214.9	216.0	216.6	219.0	2.4	101.0	3.7	101.7
including TPP	million kW	147.9	147.4	148.1	148.4	149.2	0.8	100.6	1.3	100.9
HPP	million kW	44.7	44.8	45.2	45.5	46.1	0.6	101.2	1,4	103.1
NPP	million kW	22.7	22.7	22.7	22.7	23.7	1.0	104.4	1.0	104.4
of which Holding	million kW	156.2	155.3	156.4	156.5	157.7	1.2	100.8	1.5	101.0
including TPP	million kW	122.0	121.0	121.7	121.5	122.4	0.9	100.7	0.4	100.3
HPP	million kW	34.2	34.3	34.7	35.0	35.3	0.3	100.9	1.1	103.2

Heat plants account for 77.6% of the overall capacity of the Holding's power plants and 82.0% of the total capacity of heat plants in Russia as a whole.

The capacity gain of the Holding's power plants over the past five years has been 1.5 million kW. From 2001 to 2004 the following power plants co-owned by RAO UESR were put into operation: Severo-Zapadnaya CHPP (with an installed capacity of 450 MW), Kharanorskaya TPP (215 MW), Sochinskaya TPP (78 MW), Mutnovskaya GeoPP (50 MW), Irganayskaya HPP (107 MW), Zelenchukskie HPP (80 MW), Aushigerskaya HPP (60 MW), Bureyskaya HPP (a total capacity of 670 MW). In 2005, the Holding increased its installed capacity (by 1.2 million kW compared to 2004) due to the commissioning of TPP and HPP capacities, including the first 450 MW power unit at Kaliningradskaya CHPP-2 and the launch of another hydraulic unit with an installed capacity of 335 MW at Bureyskaya HPP, and continued to implement the program to

ensure the energy security of the Far East regions and improve the system sustainability and reliability of the East IPS.

The trend towards growth of electricity consumption throughout Russia has remained over the past five years. By 2005, consumption increased by 7.3% against 2001. In 2005, electric power consumption was equal to 939.0 billion kWh, 1.6% higher compared to the previous year (1.9% given that 2004 was a leap year). In 2005, the highest electricity consumption growth rates against 2004 were demonstrated by the power systems of Urals (2.4%), the Far East (2.4%) and the South (2.3%), the lowest increment was shown by the Volga IPS (0.1%).

Electricity consumption	Unit of measurement	2001	2002	2003	2004	2005	2005/2004, +/-	2005/2004, %%	2005/2001, +/-	2005/2001, %%
Total for the Russian Federation	billion kWh	875.4	878.4	902.9	924.2	939.0	14.7	101.6	63.6	107.3
For the Unified Energy System of Russia	billion kWh	861.2	863.2	888.2	908.9	923.4	14.5	101.6	62.2	107.2

Electricity production throughout the Holding amounts to 665.4 billion kWh, 2.1% higher compared with 2004. The Holding accounts for 70.0% of the country-wide electricity production (the level of 2004). Electricity generation through the heat plants of the Holding reached 540.8 billion kWh, 3.7% higher than the actual indicator of 2004; the Holding's hydraulic power plants reduced electricity production to 124.6 billion kWh or by 4.5% due to the deterioration of water content in the basins of the main rivers in the European Russia.

Indicators	Unit of measurement	2001	2002	2003	2004	2005	2005/2004, +/-	2005/2004, %%	2005/2001, +/-	2005/2001, %%

HPP	billion kWh	125.8	113.1	115.2	130.5	124.6	- 5.9	95.5	-1.2	99.0
Heat distribution										
Total for the Russian Federation	million Gcal	1476.1	1449.3	1447.9	1434.4	1,432.5	- 1.8	99.9	-43.6	97.0
Holding	million Gcal	479.6	469.8	468.8	465.8	465.2	- 0.6	99.9	-14.4	97.0

In 2005, the Holding's power plants included in the configuration of wholesale generation companies produced 302.3 billion kWh of electricity (45.4% of total electric power generated by the Holding's power plants), those included in the configuration of territorial generation companies produced 234.5 billion kWh (35.3%). The power plants of unstructured joint-stock companies generated 128.6 billion kWh (19.3%) of electricity.

In 2005, the entities of the Holding distributed 465.2 million Gcal of heat, almost the level of 2004, which is due to increased outdoor air temperatures in November and December 2005 compared to the previous years' temperatures. Country-wide, the Holding accounts for 32.5% of heat distribution, which is the level of 2004.

Meeting of the fuel reserve accumulation targets and reliable fuel supply to the Holding's power plants ensured the stable operation of power companies during the autumn/winter period and allowed successfully coping with the autumn/winter peak loads in 2005-2006.

Throughout 2005, OAO Gazprom and independent suppliers (which account for 33% of gas supply) provided stable gas supplies to the power plants, which had a positive impact on the accumulation of fuel reserves by the beginning of the 2005/2006 autumn/winter period.

In 2005, total gas consumption throughout the Holding grew by 2.1% compared to 2004. In particular, the most efficient power plants of WGCs increased gas consumption by 5.0%.

Coal supply to the Holding's power plants in 2005 increased by 6.8% compared to the 2004 level, Russian coal by 9.9%. Residual oil supply reduced by 10.2% against 2004.

In 2005, the trend towards increased fuel efficiency of the TPPs of the Holding remained. As a result of the TPP fuel economy implementation, the improvement of the electricity production structure and increased electricity generation through the heating cycle, total standard fuel economy throughout the Holding (against the established standards) in 2005 amounted to 556,000 tonnes of standard fuel.

Trends in specific fuel consumption for distributed electricity and heat

for electric power	g/kWh	337.6	336.5	335.3	334.1	334.3	0.2	100.1	- 3.3	99.0
for heat	kg/Gcal	145.9	145.4	145.1	144.8	144.8	0.0	100.0	-1.1	99.2

In 2005, pursuant to the resolutions adopted by the Government of the Russian Federation in relation to electric power industry reform the Holding completed the unbundling of 47 AO-energос, 25 more companies undergo reorganization. New companies are intensively forming the corporate governance system and creating high-skilled management teams. The establishment of all the 7 wholesale generation companies (WGCs), 13 out of 14 territorial generation companies (TGCs), all the 4 interregional distribution companies (IDC) has mostly been completed. The target structure of TGK-3, OGK-3 and OGK-5 has been entirely created, and their shares introduced onto the Russian stock market. Shares of a total of 78 companies established as a result of the reform are traded on the stock markets. These include generation, distribution, sales, maintenance (energy services) and management companies.

The wholesale electricity and capacity market is successfully developing. The free trade sector (FTS) of the wholesale electric power market is growing. Over 220 companies, including around 140 subsidiaries of the Holding, trade in the FTS. Last year, the FTS trade volumes amounted to some \$3.0 billion. In October 2005, the competitive balancing electricity market was launched. The reporting period, in accordance with the state electricity industry reform program, saw the further creation of the new wholesale electricity and capacity market model based on the regulated bilateral contract system. In March 2005, imitation sales based on the new wholesale electricity and capacity market model started for the participants of the wholesale market of the European Russia and Siberia. Sales were arranged by NP ATS in collaboration with SO - CDA.

During 2005, the regional power companies of the Holding distributed 606.4 billion kWh of electric power and 411.1 billion Gcal of heat to the consumer market.

In 2005, electric power distribution to internal retail market consumers increased by 2.4% compared to 2004 and heat consumption decreased by 0.8%.

The percentage of the principal consumer groups in electricity distribution did not undergo any significant change in 2005. Heat distribution structure showed the following dynamics: industrial consumers reduced by 4%, housing and utilities increased by 6%.

Electric power consumption in the retail market is dominated by the industrial sector which accounts for a total of 48.6% of electricity distributed in 2005. Housing and utilities account for 12.5% of the year-end electricity consumption, transport and communications 11%, population 7.6%.

Heat consumption is dominated by housing and utilities (47.6%) and industrial consumers (25.4%).

Breakdown of Electricity and heat Distribution to the Principal Groups of Consumers by the Holding Entities in 2005

Consumers	Electric power distribution		Heat consumption	
	billion kWh	%	million Gcal.	%
Total for the Holding	606.4	100.0	411.1	100.0
Production sector	294.7	48.6	104.5	25.4
Agriculture	14.0	2.3	3.5	0.9
Forest sector	0.2	0	0	0
Transport and communications	66.5	11.0	4.9	1.2
Construction sector	6.3	1.0	3.9	1.0
Housing and utilities	75.6	12.5	195.9	47.6
Population	46.2	7.6	31.2	7.6
Other industries	102.9	17.0	67.2	16.3

The average payroll headcount of the Holding in 2005 was 461,200 employees, including 452,100 operating and industrial personnel. In 2005, the average payroll headcount of the Holding's OIP reduced by 31,500 employees against 2004 and from 2002 to 2005 by 142,900 employees.

In 2005, electricity generation per employee included in the average payroll headcount of the Holding's OIP amounted to 1,472 GWh/person and from 2002 to 2005 grew by 0.434 GWh/person, in particular in 2004 and 2005 by 0.124 GWh/person.

The Holding allocated tax payments totaling over 100 billion rubles to the budgets of all levels, a 1.4 times increase compared to 2001.

Indicators	Unit of measurement	2001	2002	2003	2004	2005	2005/ 2004, +,-	2005/ 2004, %%	2005/ 2001, %%
Tax allocation by the holding entities to the budgets of all levels, total	rubles in billions	73.1	87.1	99.5	106.5	100.5	-6.0	94.4	137.5
including:									
Federal budget	rubles in billions	45.9	48.5	59.3	65.3	65.0	-0.3	99.5	141.6
Local budget	rubles in billions	27.2	38.6	40.2	41.2	35.5	-5.7	86.2	130.5

The installed capacity of the power plants incorporated in the RAO UES of Russia holding (as of October 1, 2006) amounts to 158,000 MW, 1,200 MW higher compared to the first 9 months of 2005.

The installed capacity increased due to the commissioning of capacities by the TPPs and HPPs of the Holding, including the second power unit at Severo-Zapadnaya CHPP (450 MW), Pravoberezhnaya CHPP-5 (180 MW), Chelyabinskaya CHPP-3 (180 MW) and the launch of hydroelectric generating units at Gelbakhskaya HPP (44 MW), small HPPs in Daghestan and the rehabilitation of Yaroslavskaya CHPP-2 (115 MW), CHPP-21 (110 MW), HPP-1 (25 MW), Chaikovskaya CHPP (50 MW), Yakutskaya TPP (a 45 MW GTPP), Volzhskaya, Kamskaya HPP.

The installed capacity of the power plants of the Holding included in the configuration of the wholesale market generation companies was equivalent to 76,000 MW (% of the total capacity of the power plants incorporated in the Holding); that of territorial generating companies amounts to 49,200 MW (%).

During the first 9 months of 2006 the volume of electricity production of the RAO UES of Russia Holding grew by 5.3% year-on-year to 503.2 billion kWh (corresponding to the electricity production dynamics across the UPS of Russia, i.e. 708.8 billion kWh or 5.3% higher). In particular, thermal power plants increased generation by 7.4%.

The operating results of the RAO UES of Russia Holding are provided on the website of the Company in section:

V. Detailed Information Concerning Individual Members of the Issuer's Management Bodies, the Issuer's Bodies Controlling the Issuer's Financial and Economic Activities and Brief Information Concerning the Issuer's Employees (Personnel)

5.1. Details of the structure and jurisdiction of the issuer's management bodies

The management bodies of the Company include:

- General Meeting of Shareholders;
- Board of Directors;
- Management Board of the Company (collegial executive body);
- Chairman of the Management Board acting as the sole executive body of the Company.

The jurisdiction of the General Meeting of Shareholders covers the following issues:

- 1) amendment of the Charter of the Company or approval of the updated Charter of the Company;
- 2) reorganization of the Company in accordance with the procedure established by federal laws and this Charter;
- 3) liquidation of the Company, appointment of the liquidation committee and approval of the interim and final liquidation balance sheets;
- 4) election of members to the Board of Directors of the Company and early termination of their powers, setting of remunerations or compensations payable to members of the Board of Directors of the Company;
- 5) determination of the quantity, par value, category (type) of authorized shares and the rights carried by such shares;
- 6) expansion of the authorized capital of the Company through an increase in the par value of shares or placement by the Company of additional shares as provided for by this Charter;
- 7) reduction of the authorized capital of the Company by decreasing the par value of shares through the placement by the Company of a portion of shares for the purposes of reducing their total number and by means of redemption of shares acquired or repurchased by the Company;
- 8) election (appointment) of the Chairman of the Management Board of the Company and early termination of his powers;
- 9) election of members to the Internal Audit Commission of the Company and early termination of their powers, setting of remunerations or compensations payable to members of the Internal Audit Commission of the Company;
- 10) approval of the Company's auditor;
- 11) approval of annual reports, annual financial statements, including profit and loss statements (income statements) of the Company, as well as distribution of profit, including payment (declaration) of dividends, and loss of the Company based on the fiscal year performance;
- 12) determination of the procedure for holding the General Meeting of Shareholders;
- 13) stock split and reverse stock split;
- 14) adoption of the resolution on the approval of transactions as provided for by Article 83 of the Federal Law "On Joint-Stock Companies";
- 15) adoption of the resolution on the approval of material transactions as provided for by Article 79 of this Federal Law "On Joint-Stock Companies";
- 16) adoption of the resolution on participation in holding companies, financial and industrial groups, associations or unions of other profit-making organizations;
- 17) approval of internal documents governing the activities of the Company's bodies;
- 18) resolution of any other issues provided for by the Federal Law "On Joint-Stock Companies".

10.3. The resolution of issues falling within the jurisdiction of the General Meeting of Shareholders may not be delegated to the Board of Directors, Chairman of the Management Board of the Company or the Management Board of the Company.
The General Meeting of Shareholders is not entitled to consider or resolve the issues which fall outside its jurisdiction as specified in the Federal Law "On Joint-Stock Companies".

The jurisdiction of the Board of Directors of the Company covers the following issues:

- 1) determination of high-priority activities of the Company;
- 2) convening of the annual and extraordinary General Meetings of Shareholders of the Company, with the exception of the instances provided for by paragraph 10.7.8 of this Charter;
- 3) approval of the agenda of the General Meeting of Shareholders;
- 4) determination of the date of preparation of the list of persons entitled to participate in the General Meeting of Shareholders and any other issues falling within the jurisdiction of the Board of Directors of the Company as specified in the provisions of Chapter VII of the Federal Law "On Joint-Stock Companies" and relating to the preparation and convening of the General Meeting of Shareholders;
- 5) submission of issues provided for by subparagraphs 2, 6 and 13-18 of paragraph 10.2 of the Charter for consideration by the General Meeting of Shareholders;
- 6) expansion of the authorized capital of the Company through the placement by the Company of additional shares as provided for by this Charter;
- *7) approval of resolutions on the issuance of issue-grade securities, issue-grade securities prospectuses, reports on the results of issue-grade securities issuance, approval of the report on share acquisition results as provided for by paragraph 3 of Article 12 of the Federal Law "On Joint-Stock Companies";
- 8) placement by the Company of bonds or any other issue-grade securities as provided for by the Federal Law "On Joint-Stock Companies" and this Charter;
- 9) determination of the price (monetary value) of the property, the offering and repurchase price of issue-grade securities as provided for by the Federal Law "On Joint-Stock Companies";
- 10) acquisition of stocks, bonds or any other issue-grade securities placed by the Company as provided for by the Federal Law "On Joint-Stock Companies";
- 11) appointment and early dismissal of members of the Management Board of the Company, with the exception of the Chairman of the Management Board.
Any agreements with members of the Management Board on behalf of the Company are signed by the Chairman of the Board of Directors of the Company or the person duly authorized by the Board of Directors of the Company;
- 12) approval of the terms and conditions of agreements executed with the Chairman and members of the Management Board of the Company, setting of remunerations or compensations payable to the Chairman and members of the Management Board;
- 13) recommendations on the amount of remunerations or compensations payable to members of the Internal Audit Commission of the Company; determination of the amount of auditor's fee;
- 14) recommendations on the amount of dividend on shares and its payment procedure;
- 15) determination of the procedure for the establishment and use of the Company's funds;
- 16) approval of the internal documents of the Company, with the exception of internal documents the approval of which in accordance with this Chapter falls within the jurisdiction of the General Meeting of Shareholders or the jurisdiction of the executive bodies of the Company; approval of the expense budget for the executive office of the Company inclusive of costs required to maintain the office of the Board of Directors of the Company;
- 17) establishment (liquidation) of branches and opening (liquidation) of representative offices of the Company; the respective amendment of the Charter of the Company;

- 18) adoption of resolutions on participation of the Company in any other entities (with the exception of those specified in subparagraph 10.2.16 of this Charter), acquisition, disposition and charge over their shares and stakes.
- 19) approval of material transactions as provided for by charter X of the Federal Law "On Joint-Stock Companies";
- 20) approval of transactions provided for by Chapter XI of the Federal Law "On Joint-Stock Companies";
- 21) determination of the policy and adoption of resolutions relating to the obtainment and extension (granting) of advances, loans, credits, guarantees, pledge and warranties in accordance with the procedure established by the Board of Directors of the Company;
- 22) approval of the procedure for interaction between the Company and business entities in which the Company owns shares and stakes; adoption of resolutions falling within its jurisdiction in accordance therewith;
- 23) determination of position of the Company (representatives of the Company), including instructions to take or not to take part in the voting on agenda items, vote "For", "Against" or "Abstain", while voting on draft resolutions on the following agendas of general meetings of shareholders (participants) of the subsidiaries and dependent business entities (hereinafter the subsidiaries and dependent companies) (with the exception of instances in which the functions of general meetings of the subsidiaries and dependent companies are performed by the Board of Directors of the Company) and meetings of the Boards of Directors of the subsidiaries and dependent companies (with the exception of the issue of approval of the agenda of general meetings of the subsidiaries and dependent companies when the functions of general meetings of the subsidiaries and dependent companies are performed by the Board of Directors of the Company), in particular for the Company to exercise control over the resolutions adopted by any entities which are subsidiaries and dependent companies in relation to the subsidiaries and dependent companies:
 - a) determination of agenda of the general meeting of shareholders (participants) of the subsidiaries and dependent companies;
 - b) reorganization or liquidation of the subsidiaries and dependent companies;
 - c) determination of the total number of members of the Board of Directors of the subsidiaries and dependent companies, nomination and election of its members and early termination of their powers;
 - d) determination of the quantity, par value, category (type) of authorized shares in the subsidiaries and dependent companies and the rights carried by such shares;
 - e) expansion of the authorized capital of the subsidiaries and dependent companies through an increase in the par value of shares or placement of additional shares;
 - f) placement of securities of the subsidiaries and dependent companies convertible into ordinary shares;
 - g) split and reverse split of stock of the subsidiaries and dependent companies;
 - h) approval of material transactions executed by the subsidiaries and dependent companies;
 - i) participation of the subsidiaries and dependent companies in any other entities (joining any existing entity or establishing a new entity) and (with due account for the provisions of subparagraphs "j" and "k") acquisition, disposition and charge over shares and stakes in the authorized capitals of entities in which the subsidiaries and dependent companies participate; change in the stake in the authorized capital of the respective entity;
 - j) execution by the subsidiaries and dependent companies of any transactions (including the acquisition, disposition, pledging or any other encumbrance through the execution of one or more inter-related transactions) in shares and stakes in any entities which are subsidiaries and dependent companies in relation to the subsidiaries and dependent companies and produce, transmit, dispatch, distribute and sell electricity and heat irrespective of the number of shares (amount of stakes in authorized capital) in such entities;

k) execution by the subsidiaries and dependent companies of any transactions (including the acquisition, disposition, pledging or any other encumbrance through the execution of one or more inter-related transactions) in shares and stakes in any entities which are subsidiaries and dependent companies in relation to the subsidiaries and dependent companies and do not produce, transmit, dispatch, distribute and sell electricity and heat;

l) execution by the subsidiaries and dependent companies of any transactions (including several inter-related transactions) concerning the disposal or possibility of disposal of property which constitutes fixed assets, intangible assets, construction-in-progress assets used for the purposes of production, transmission, dispatch and distribution of electricity and heat;

*m) execution by the subsidiaries and dependent companies of any transactions (including several inter-related transactions) concerning the disposal or possibility of disposal of property which constitutes fixed assets, intangible assets, construction-in-progress assets not used for the purposes of production, transmission, dispatch and distribution of electricity and heat;

n) determination of positions of representatives of the subsidiaries and dependent companies for issues on the agendas of general meetings of shareholders (participants) and meetings of the Boards of Directors of any entities which are subsidiaries and dependent companies in relation to the subsidiaries and dependent companies regarding the execution (approval) of transactions (including several inter-related transactions) concerning the disposal or possibility of disposal of property which constitutes fixed assets, intangible assets, construction-in-progress assets used for the purposes of production, transmission, dispatch and distribution of electricity and heat;

o) determination of positions of representatives of the subsidiaries and dependent companies for issues on the agendas of general meetings of shareholders (participants) and meetings of the Boards of Directors of any entities which are subsidiaries and dependent companies in relation to the subsidiaries and dependent companies and produce, transmit, dispatch, distribute and sell electricity and heat with respect to the reorganization, liquidation, expansion of the authorized capital of such entities through an increase in the par value of shares or through the placement of additional shares, placement of securities convertible into ordinary shares.

*The Board of Directors of the Company adopts resolutions on any issues provided for by clauses "j", "k", "l", "m", "n" of subparagraph 11.1.23 in the instances (amounts) determined by the procedure for interaction between the Company and business entities the shares and stakes in which are owned by the Company as approved by the Board of Directors of the Company in accordance with subparagraph 11.1.22 of this Charter.

24) preliminary approval (in accordance with the procedure determined by the Procedural Rules for Convening the Board of Directors Meetings) of resolutions on the execution of transactions in the non-current assets of the Company worth 10 to 25 percent of the book value of these assets on the date of adoption of the resolution on the execution of such transaction;

25) approval of the appointment of the head and members of the collegial executive body of the federal transmission company and system operator; performance of the functions of general meeting of the federal transmission company, wholesale generation companies and system operator during the period when these entities are wholly owned by the Company;

26) preliminary approval (in accordance with the procedure determined by the Procedural Rules for Convening the Board of Directors Meetings) of resolutions on the execution by the Company of any transactions (including several inter-related transactions) concerning the disposal or possibility of disposal of property which constitutes fixed assets, intangible assets, construction-in-progress assets used for the purposes of production, transmission, dispatch and distribution of electricity and heat in the instances (amounts) determined by a separate procedure to be established by the Board of Directors of the Company;

*27) approval of resolutions on the execution by the Company of any transactions (including several inter-related transactions) concerning the disposal or possibility of disposal of property which constitutes fixed assets, intangible assets, construction-in-progress assets not used for the purposes of production, transmission, dispatch and distribution of electricity and heat in the

instances determined by a separate procedure to be established by the Board of Directors of the Company;

28) approval of the Registrar of the Company and terms of the agreement therewith as well as termination of the agreement therewith;

29) any other issues provided for by the Federal Law "On Joint-Stock Companies" and the Charter of the Company.

** In accordance with the amendments to the Charter of RAO UES of Russia approved by the Annual General Meeting of Shareholders of RAO UESR on June 28, 2006.*

12.2. The jurisdiction of the Management Board of the Company covers the following issues:

12.2.1. development and submission of high-priority activities of the Company and prospective implementation plans to the Board of Directors for approval;

12.2.2. development and submission of the quarterly action plan to the Board of Directors for approval;

12.2.3. preparation of the Company's financial and economic performance plan;

12.2.4. submission of the Company's securities prospectuses to the Board of Directors for approval;

12.2.5. exercising (with due consideration of subparagraph 11.1.23 and subparagraph 11.1.25 of this Charter) the powers of general meetings of shareholders (participants) of the wholly owned subsidiaries of the Company in accordance with their documents of incorporation;

*12.2.6. nomination of candidates for the positions of sole executive bodies (with due consideration of subparagraph 11.1.25 of this Charter) and (with due consideration of subparagraph 11.1.23 of this Charter) representatives of the Company on the Boards of Directors and chairpersons of the Boards of Directors of entities of any form of incorporation in which the Company participates;

*12.2.7. resolution of any other issues of the Company's activities pursuant to the resolutions of meetings of shareholders or the Board of Directors as well as any additional issues submitted by the Chairman of the Management Board of the Company for its consideration.

13.3. The jurisdiction of the Management Board of the Company covers all issues of the Company's daily operation management, with the exception of issues falling within the jurisdiction of the General Meeting of Shareholders, the Board of Directors or the Management Board of the Company.

13.4. The Chairman of the Management Board of the Company acts on behalf of the Company without any power of attorney, in particular:

13.4.1. executes transactions on behalf of the Company, issues powers of attorney, opens settlement or any other accounts of the Company with banks;

13.4.2. independently manages the property of the Company, with due account for the restrictions imposed by the applicable law and this Charter;

13.4.3. exercises the rights of employer in labor relations within the Company, vests the aforesaid powers in the executives of the Company in accordance with the procedure established by laws, any other regulations and local regulatory documents of the Company, in particular approves the organizational structure and manning table of the Company, executes and terminates employment agreements (contracts), makes appropriate amendments thereto, applies incentives and disciplinary action to the employees of the Company;

13.4.4. organizes the operation of the Management Board of the Company, chairs its meetings;

13.4.5. submits proposals on the appointment and dismissal of members of the Management Board for consideration by the Board of Directors;

13.4.6. allocates duties among the Deputy Chairmen of the Management Board and members of the Management Board;

13.4.7. ensures the implementation of the Company's action plans required to accomplish its tasks;

13.4.8. approves Regulations for the Branches and Representative Offices of the Company;

13.4.9. approves the Company's regulations on issues falling within the jurisdiction of the Management Board;

13.4.10. organizes financial accounting and reporting within the Company;

13.4.11. issues decrees, approves instructions and other internal documents of the Company, gives mandatory instructions to all employees of the Company;

13.4.12. no later than 35 (thirty-five) days prior to the date of the Annual General Meeting of Shareholders of the Company submits the annual report, balance sheet, profit and loss statement of the Company, the profit and loss appropriation account of the Company for consideration by the Board of Directors of the Company;

13.4.13. on a quarterly basis submits the action plans of the Management Board of the Company (including plans for the execution of the transactions specified in subparagraph 24 of paragraph 11.1 of this Charter as well as any similar transactions performed by the subsidiaries and dependent business entities) and reports on the implementation of such plans (including reports on the execution of transactions specified in subparagraph 24 of paragraph 11.1 of this Charter as well as any similar transactions performed by the subsidiaries and dependent business entities) for consideration by the Board of Directors. The format of the aforesaid plans and reports on the activities of the Management Board of the Company is approved by a resolution of the Board of Directors;

*13.4.14. appoints the persons representing the Company at the meetings of any business entities in which the Company owns shares and stakes;

13.4.15. resolves any other issues related to the daily operation of the Company, with the exception of issues falling within the jurisdiction of the General Meeting of Shareholders, the Board of Directors or Management Board of the Company.

** In accordance with the amendments to the Charter of RAO UES of Russia approved by the Annual General Meeting of Shareholders of RAO UESR on June 28, 2006.*

The website of the Company: <http://www.rao-ees.ru/ru/>, Regulatory Documents section on the web-page:

http://www.rao-ees.ru/ru/info/about/corp_upr/norm_doc/show.cgi?content.htm provides the Charter and Corporate Governance Code of the Company. The Corporate Governance Code was approved by the Board of Directors of the Company (Minutes No. 222 of May 26, 2006). The text of the Corporate Governance Code is provided in Appendix 1 to this report.

On June 28, 2006 the Annual General Meeting of Shareholders of RAO UES of Russia approved the amendments to the Charter of the Company and the internal documents of the Company:

- Regulations for the Board of Directors RAO UES of Russia;
- Regulations for the Management Board of RAO UES of Russia;
- Regulations for the Remuneration of Members of the Internal Audit Commission of the Company for the Performance of their Duties and Reimbursement of Expenses in Connection with Visits to the Facilities of the Company.

5.3. Information concerning the amount of remuneration, benefits and/or reimbursement of expenses for each management body of the issuer

The total remunerations of members of the management bodies of RAO UES of Russia are as follows:

1. Members of the Management Board of RAO UES of Russia:

- for the closed 2005 fiscal year - 255,344.94 rubles in thousands;
including:
 - salary – 36,231.69 rubles in thousands;
 - bonuses – 158,171.83 rubles in thousands;
 - other payments – 60,941.42 rubles in thousands.

- for the closed 2006 fiscal year - 205 271,86 rubles in thousands;
including:
 - salary – 36,321.78 rubles in thousands;
 - bonuses – 143,229.96 rubles in thousands;
 - other payments – 25,720 rubles in thousands.

The amount of remuneration of members of the Management Board is determined in accordance with the Top Management Remuneration Conditions approved by the Board of Directors of the Company on June 25, 2004 (Minutes No. 172).

2. For the previous fiscal year 2005, members of the Board of Directors of RAO UES of Russia were paid 78,634.28 rubles in thousands.

Members of the Board of Directors of RAO UES of Russia (hereinafter the Board), pursuant to paragraph 2 of the Regulations for the Remuneration of Members of the Board of Directors of the Company for the Performance of Their Duties and Reimbursement of Expenses in Connection with Acting as Members of the Board of Directors of the Company (hereinafter the Regulations) approved by the General Meeting of Shareholders of the Company, are paid a remuneration for a period of work in the amount of 12,000 rubles for each participation in the Board meeting in person and 8,000 rubles if the Board meeting was conducted by ballot.

In accordance with paragraph 3 of the Regulations members of the Board are paid a remuneration for the net income indicator based on data from the annual financial statements approved by the General Meeting of Shareholders of the Company in the amount of 0.05% of net income.

The amount of remuneration payable to each member of the Board depends on the amount of net income based on data from the annual financial statements approved by the General Meeting of Shareholders of the Company and the number of meetings attended by a member of the Board of Directors and is determined according to the following formula:

$S = 0.05\% * I * N / X * M$, where

S – amount of annual remuneration of one member of the Board;

I – net income of the Company;

N - number of meetings of the Board of Directors attended by the Board member;

X – number of the Board members;

M – number of the Board meetings during a period of work.

In accordance with paragraph 4 of the Regulations members of the Board are paid an additional remuneration for a period of work if the market value of shares in the Company grows by 0.0175 percent of the amount of the absolute increment in the average weighted value of all ordinary shares determined based on data from the Russian Trading System (RTS).

Remuneration under paragraph 4 of the Regulations is paid in the event that the average weighted price of an ordinary share in the Company for the current work period is higher than the average weighted price of an ordinary share in the Company for the previous work period. The average weighted price of an ordinary share in the Company is determined based on transactions executed via the RTS in accordance with the procedure determined by the RTS.

The absolute increment in the average weighted value of ordinary shares in the Company is determined as the difference between the average weighted value of all ordinary shares in the Company for the current and previous periods.

Under paragraph 5 of the Regulations the total amount of remunerations envisioned by paragraphs 3 and 4 of these Regulations payable to each member of the Board may not exceed more than 60-fold the amount of basic salary of a member of the Management Board set by the Board and payable in 2004.*

**Any Board member may refuse, in whole or in part, the remuneration payable to such member in accordance with paragraphs 2-4 of these Regulations or give his remuneration to charity under a written application by the Board member.*

5.4. Information concerning structure and jurisdiction of bodies exercising control over financial and economic activities of the issuer

The body exercising control over the financial and economic activities of the Company is the Company's Internal Audit Commission. The operating procedures of the Internal Audit Commission of the Company are determined by the internal document titled "Regulations for the Operating Procedures of the Internal Audit Commission of Unified Energy System of Russia (RAO UES of Russia)" approved by the General Meeting of Shareholders.

The Internal Audit Commission is composed of 5 members elected in accordance with the procedure established by the Charter of the Company and these Regulations.

The Internal Audit Commission of the Company audits (inspects) the financial and business activities of the Company, the branches, representative offices and other stand-alone subdivisions of the Company based on their annual performance and at any time at its own discretion, pursuant to a resolution of the General Meeting of Shareholders, the Board of Directors of the Company or upon request from the shareholders of the Company which collectively own at least 10 percent of voting shares in the Company.

In conducting audits (inspections) of the financial and business activities of the Company (a subdivision) the Internal Audit Commission of the Company organizes work in the following areas:

- compliance with the law of the Russian Federation, resolutions of the General Meeting of Shareholders of the Company, the Board of Directors and instructions recorded in the certificates of previous audits (inspections);
- the reliability of data contained in the Company's Annual Report and Annual Financial Statements;
- compliance with the regulatory documents governing corporate relationship and approved by the Board of Directors of the Company;
- compliance by members of the Board of Directors, the Management Board and executives of the management bodies of the Company with the policies established by the Charter of the Company and other documents of the Company, including the non-abuse of their powers in the management of the Company's property, execution of transactions and performance of financial operations on behalf of the Company;
- the accuracy of recognition of the authorized capital amount in the accounts, the lawfulness and reasonableness of decisions to change its amount;
- the timeliness and correctness of the recognition of all financial operations in the financial statements and statistical reports in accordance with the established policies and maintenance procedure;
- the correctness of the recognition of costs (expenses) as the production cost of products (work, services), the preparation of the Company's financial performance and its recognition in the profit and loss statement;
- calculation of the amount of dividend on ordinary shares payable to the shareholders and the correctness of determination of the amount of yield on preference shares;
- the protection of cash and tangible assets. Proper cash spending in accordance with the approved budgets;
- the reasonableness and effectiveness of decisions in relation to the participation of RAO UESR in investment projects and the attraction of external investors;
- compliance with the Charter of RAO UESR;
- the feasibility and necessity of establishment and termination of operation of branches, representative offices and other stand-alone subdivisions of the Company.

In auditing (inspecting) the branches, representative offices and other stand-alone subdivisions of the Company, the Internal Audit Commission of the Company checks in addition to all aforesaid:

- the protection of the property affixed to a subdivision, the lawfulness and business feasibility of the expenses incurred thereby, compliance with the financial discipline and policy of economy with respect to spending funds allocated by the Company to the activities of a subdivision;
- the correctness of maintenance of accounting records of property and the reliability of the established statements submitted to the Company;
- compliance with the prescriptions recorded in the certificates of previous audits (inspections).

The website of RAO UES of Russia provides free access to the Regulations for the Operating Procedures of the Internal Audit Commission of the Company, the Regulations for the Remuneration of Members of the Internal Audit Commission and the Report of the Internal Audit Commission on the audit of the financial and economic activities of RAO UES of Russia in 2005:

http://www.rao-ees.ru/ru/info/about/corp_upr/reviz_kom/show.cgi?content.htm

The Company has the Procedural Rules for the Disclosure of Transactions in the Securities of RAO UES of Russia and the Subsidiaries and Dependent Companies by Insiders approved by the Board of Directors of the Company on May 27, 2005 (Minutes No. 196). The Procedural Rules are available on the following web-page of RAO UES of Russia:
<http://www.rao-ees.ru/ru/info/docs/show.cgi?reglam.htm>

Information concerning the imposition of administrative sanctions in the domain of finance, taxes and levies, securities market or criminal sanctions (criminal record) for crimes in the field of economics or offences against the state authority: *N/A*

Information concerning positions held in the management bodies of profit-making organizations during a period when bankruptcy proceedings were initiated against said organizations and/or one of the bankruptcy procedures provided for by the insolvency (bankruptcy) laws of the Russian Federation was introduced: *N/A*

5.6. Information concerning the amount of remuneration, benefits and/or reimbursement of expenses for the body exercising control over financial and economic activities of the issuer

The remunerations paid to members of the Internal Audit Commission in 2006 for the previous fiscal year 2005 total 36,000 rubles.

In accordance with the Regulations for the Remuneration of Members of the Internal Audit Commission of the Company for the Performance of Their Duties and Reimbursement of Expenses in Connection with Visits to the Facilities of the Company approved by the General Meeting of Shareholders, members of the Internal Audit Commission of RAO UES of Russia are paid a remuneration for a period during which they perform their duties within the Internal Audit Commission.

5.7. Data on headcount and high-level data on education and composition of the issuer's employees (personnel) and changes in the issuer's employee (personnel) headcount

Indicators for the first 9 months of 2006 as compared to the equivalent period of 2005.

Indicator	First 9 months of 2005	First 9 months of 2006	Decrease "-" Increase "+"
Average headcount, persons	1,809	1,355	-454
Payroll, rubles in thousands	1,257,203.0	1,408,282.9	-151,079.9
Social transfers, rubles in thousands	21,034.6	17,942.6	-3,092
Compensation, rubles in thousands	1,278,237.6	1,426,225.5	+147,987.9
Percentage of the issuer's employees with higher professional education, %	82.3 (as of December 31, 2004)	86.2 (as of December 31, 2005)	+3.9 points

The main reasons for a decrease in the headcount in the first 9 months of 2006 compared to the first 9 months of 2005 include:

- the liquidation of 60 Let Plana GOELRO holiday hotel, a branch of RAO UES of Russia, - 35 people;
- the liquidation of Kashirskie Rodnichki holiday hotel, a branch of RAO UES of Russia, - 128 people;
- the liquidation of Energetik holiday hotel, a branch of RAO UES of Russia, - 172 people.

Percentage of the issuer's employees with higher professional education, % (2005 year-end data as compared to 2004):

2004 (as of December 31, 2004) - 82.3%

2005 (as of December 31, 2005) - 86.1%

The quarterly report for the 4th quarter of 2006 does not provide the information contained in paragraph 5.7.

5.8. Information concerning any obligations of the issuer to employees (personnel) regarding their possible participation in the authorized (share) capital (unit trust) of the issuer

There are none of such obligations.

VI. Information Concerning the Issuer's Participants (Shareholders) and Related-Party Transactions Executed by the Issuer

6.1. Information concerning total number of shareholders (participants) of the issuer

As of December 31, 2006 the number of persons registered in the RAO UES of Russia Shareholder Register (exclusive of data on the clients of nominee shareholders) was as follows:

Total:	329,802
including:	
owners - natural persons:	329,111
owners – legal entities:	646
nominee shareholders:	39
trustees:	6

6.2. Information concerning the issuer's participants (shareholders) owning at least 5 percent of the issuer's authorized (share) capital (unit trust) or at least 5 percent of the issuer's ordinary shares, and information concerning participants (shareholders) of such persons owning at least 20 percent of authorized (share) capital (unit trust) or at least 20 percent of their ordinary shares

The information on depositary banks holding depositary receipts is available on the website of the Company at:

<http://www.rao-ees.ru/ru/investor/market/adr/show.cgi?banks.htm>

8.1.2. Information concerning changes in the amount of the issuer's authorized (share) capital (unit trust)

For the past five years, the authorized capital of RAO UES of Russia has remained unchanged.

8.1.3. Information concerning establishment and utilization of the issuer's reserve fund and other funds

In accordance with the Charter of RAO UES of Russia a reserve fund is established which is a special fund for the employees of the Company, and pursuant to a resolution of the Board of Directors any other funds and reserves necessary for its activity.

The reserve fund of the Company amounts to 15 percent of its authorized capital.

The reserve fund of the Company is intended to cover the losses, redeem the Company's bonds and repurchase the Company's shares if other funds are unavailable and may not be used for any other purposes.

The procedure for the establishment and utilization of the Company's funds is determined by the Board of Directors of the Company.

The reserve fund of the Company as of September 30, 2006 equals to 3,234,156,000 rubles.

8.1.4. Information concerning procedure for convening and holding meeting (session) of the issuer's supreme management body

The supreme management body of RAO UES of Russia is the General Meeting of Shareholders.

The procedure for convening, preparing, holding and summarizing the General Meeting of Shareholders of the Company is governed by the internal document titled "Regulations for the General Meeting of Shareholders of RAO UES of Russia".

The date and procedure for holding the General Meeting, the list of materials (information) provided to the shareholders in the preparation for the General Meeting of Shareholders are established by the Board of Directors of the Company in accordance with the requirements of the Federal Law "On Joint-Stock Companies" or any other regulations and this Charter.

A notification of the upcoming General Meeting of Shareholders is published in the *Izvestia* newspaper no later than 30 days prior to the date of the shareholders' meeting. (paragraph 10.5 of Article 10 of Amendments No. 4 to the Charter of the Company).

The notification of the General Meeting of Shareholders shall specify:

- the full name of the Company and the location of the Company;
- the form of the General Meeting of Shareholders (meeting or absentee voting);
- the date, location, time of the General Meeting of Shareholders and the postal address at which completed ballots can be sent or (if the General Meeting of Shareholders is conducted through absentee voting) the final date of ballot submission for voting and the postal address at which completed ballots should be sent;

- the date of preparation of the list of persons entitled to participate in the General Meeting of Shareholders;
- the agenda of the General Meeting of Shareholders;
- the procedure for reviewing the information (materials) to be submitted in the preparation for the General Meeting of Shareholders and the address (addresses) where it can be reviewed.

The shareholder(s) which own(s) in total at least 2 percent of voting shares in the Company is (are) entitled to include items in the agenda of the Annual General Meeting of Shareholders and propose officers to be members of the Board of Directors of the Company, the Internal Audit Commission of the Company the number of which may not exceed the total number of members in the respective body. Such proposals need to be submitted to the Company within 60 days from the close of a fiscal year.

The Extraordinary General Meeting of Shareholders is held in accordance with the requirements of the Federal Law "On Joint-Stock Companies".

The number of voting shares in the Company owned by a shareholder which signed a request for convening the Extraordinary General Meeting of Shareholders and the total number of voting shares in the Company are determined on the date of request.

If a request for convening the Extraordinary General Meeting of Shareholders is sent in a simple letter or any other simple mailing piece the date of submission of such request is the date specified on postage mark impression which confirms the date of receipt of mailing piece or, in the event that a request for convening the Extraordinary General Meeting of Shareholders is sent by registered mail or in any other registered mailing piece, the date of delivery of mailing piece to the addressee (return receipt requested).

The request for convening the Extraordinary General Meeting of Shareholders needs to specify items for inclusion in the agenda of the Extraordinary General Meeting of Shareholders.

The Extraordinary General Meeting of Shareholders is held by a decision of the Board of Directors of the Company at its own discretion, request from the Internal Audit Commission of the Company, the auditor of the Company and shareholder(s) owning at least 10 percent of voting shares in the Company on the date of submission of request.

The Extraordinary General Meeting of Shareholders held upon request from the Internal Audit Commission of the Company, the auditor of the Company and shareholder(s) owning at least 10 percent of voting shares in the Company needs to be conducted within 40 days from the submission of a request for convening the Extraordinary General Meeting of Shareholders.

8.1.5. Information concerning profit-making organizations in which the issuer owns at least 5 percent of authorized (share) capital (unit trust) or at least 5 percent of ordinary shares

The information concerning joint-stock companies (subsidiaries and dependent companies) in which RAO UES of Russia is a shareholder and owns at least 20% of the total number of ordinary shares is provided in paragraph 3.5 of this report.

Information concerning joint-stock companies in which RAO UES of Russia owns at least 5% and no more than 20% of the total number of ordinary shares.

Rights of the owner of this category (types) of shares:

Preference shares in the Company which belong to the same type provide to the shareholders which own them the same volume of rights and have the same par value.

The owners of A preference shares are entitled to the annual fixed dividend. The total amount payable as a dividend on each A preference share is equal to 10 (ten) percent of the Company's net income for the fiscal year divided by the number of shares equivalent to 25 (twenty five) percent of the authorized capital of the Company. If the amount of dividends payable by the Company on each ordinary share in a certain year exceeds the amount payable as dividends on each A preference share the amount of dividend payable on the latter needs to be increased to the amount of dividend payable on ordinary shares.

Dividends are payable to the holders of A preference shares on an annual basis within the time limits set by the General Meeting of Shareholders, yet no later than May 1 of the year following the year of the General Meeting of Shareholders which adopted a resolution on the payment of dividends and additionally on the date of payment of dividends on ordinary shares in the event that in accordance with this paragraph the amount of dividend on A preference shares needs to be increased to the amount of dividend payable on ordinary shares.

Shareholders owning A preference shares are entitled to participate in the General Meeting of Shareholders and have the right to vote on all issues within its jurisdiction beginning with the meeting following the Annual Meeting of Shareholders which irrespective of reasons failed to adopt a resolution on the payment of dividends or adopted a resolution on the incomplete payment of dividends on this type of preference shares. The right of shareholders owning A preference shares to participate in the General Meeting of Shareholders ceases as from the first complete payment of dividends on the aforesaid shares.

Shareholders owning A preference shares participate in the General Meeting of Shareholders of the Company and have the right to vote when the issues of the reorganization and liquidation of the Company are resolved.

Shareholders owning A preference shares acquire the right to vote when the General Meeting of Shareholders resolves the issues of amendment of the Charter of the Company which restricts the rights of shareholders owning this type of A preference shares and the issues of granting privileges to shareholders owning any other type of preference shares in the order of payment of dividend and/or the disposal value of shares. A resolution on such amendment is deemed to have been adopted if voted for by at least three-fourths of votes of shareholders owning voting shares which participate in the General Meeting of Shareholders, with the exception of votes of shareholders owning A preference shares, and three-fourths of votes of all shareholders owning A preference shares.

The shareholders of the Company have a pre-emptive right to acquire additional shares in the Company placed in a public offering and issue-grade securities convertible into the Company's shares in an amount proportionate to the number of this category (type) of shares owned by them.

The shareholders of the Company which voted against or did not participate in voting on the issue of placement in a private offering of shares and issue-grade securities of the Company convertible into the Company's shares and issue-grade securities convertible into the Company's shares placed in a private offering, in an amount proportionate to the

number of this category (type) of shares owned by them. This right does not cover the placement of shares and any other issue-grade securities convertible into shares in a private offering only among the shareholders, if the shareholders have an opportunity to acquire an integral number of placed shares and other securities convertible into shares in an amount proportionate to the number of this category (type) of shares owned by them.

In the event of liquidation of the Company the Company's property remaining after the creditors' claims are satisfied is used to make payments in the following order of priority:

payable in the first place are payments on shares to be repurchased in accordance with Article 75 of the Federal Law "On Joint-Stock Companies";

payable in the second place are accrued, yet unpaid dividends on preference shares and disposal value for preference shares determined by the Charter of the Company;

in the third place property is distributed among the shareholders owning ordinary shares and all types of preference shares.

Tax Code of the Russian Federation, Part II (Chapter 25) dated August 5, 2000 No. 117-FZ;
Double Taxation Treaties between the Russian Federation and foreign countries residents of which own the issuer's securities;
Federal Law No. 115-FZ "On Anti-Money Laundering and Combating the Financing of Terrorism" dated August 7, 2001.
Instruction of the Central Bank of the Russian Federation No. 93-I "On Procedure for the Opening of Bank Accounts of Non-Residents in the Currency of the Russian Federation by Duly Authorized Banks and the Execution of Operations Involving These Accounts" dated October 12, 2000.

8.8. Description of procedure for taxation of income from the issuer's issue-grade securities (to be) placed

Information provided in this paragraph is of a general nature. It is based on the Russian law as of the date of preparation of this report and may be altered in the future.

In accordance with Chapter 25 of the Tax Code of the Russian Federation corporate income tax levied on the tax residents of the Russian Federation for issue-grade securities to be placed in the form of dividends is charged at a 9% rate; on foreign legal entities (non-residents of the Russian Federation) at a 15% rate.

Tax payment procedure and period: Income taxes in the form of dividends are levied at the source of payment of this income and transferred to the budget by a tax agent which made a payment within 10 days of the date of payment of income.

Specifics of the procedure for taxation of income of legal entities resident in the Russian Federation:

The amount of tax deducted from income of the taxpayer receiving dividend is calculated by the tax agent based on the total amount of tax and the stake of each taxpayer in the total amount of dividends.

The total amount of income is determined as tax rate multiplied by the difference between the amount of dividends distributable among shareholders (participants) in the current tax period, minus the amount of dividends payable by the tax agent to foreign entities and/or natural persons non-resident in the Russian Federation in the current tax period, and the amount of dividends received by the tax agent himself/herself in the current reporting (tax) period and the previous reporting (tax) period if these amounts of dividends did not participate earlier in the calculation for determination of taxable income in the form of dividends. In the event that a negative difference is received, no obligation to pay tax will occur and no reimbursement from the budget will be made.

Specifics of the procedure for taxation of income of foreign legal entities non-resident in the Russian Federation in the form of dividends: In the event that a Russian entity – tax agent pays dividends to a foreign entity the tax base of the taxpayer receiving dividends for each such payment is determined as the sum of paid dividends.

Avoidance of double taxation.

Income received by a Russian entity at sources outside the Russian Federation is considered in the determination of its tax base. The aforesaid income is considered in full inclusive of expenses incurred both in the Russian Federation and beyond.

In the determination of tax base expenses incurred by a Russian entity with respect to the receipt of income at source outside the Russian Federation are deducted in accordance with the procedure and in the amounts established by Chapter 25 of the Tax Code of the Russian

Federation.

The amounts of tax paid in accordance with the legislation of foreign countries by a Russian entity are set off in the payment of tax in the Russian Federation by this entity. The amount of set-off taxes paid outside the Russian Federation may not exceed the amount of tax payable by this entity in the Russian Federation.

Set off is performed provided that a taxpayer submits a document confirming the payment (withholding) of tax outside the Russian Federation: for taxes paid by an entity itself a document certified by the tax authority of the respective foreign country and for taxes withheld in accordance with the legislation of foreign entities or international treaty a confirmation of tax agent. Confirmation is effective during the tax period in which it was submitted to the tax agent.

In accordance with Chapter 23 of Part 2 of the Tax Code of the Russian Federation the income of natural persons which are tax residents of the Russian Federation from participating interest in the activities of entities received in the form of dividends are taxable at a 9% rate; the income of natural persons which are not tax residents of the Russian Federation at a 30% rate.

Tax payment procedure and period: the obligation to withhold the amount of tax from the taxpayer's income and pay it to the respective budget is imposed on a Russian entity which is a source of the taxpayer's income in the form of dividends (tax agent). The accrued amount of tax is withheld directly from the taxpayer's income in its actual payment. Tax agents are obliged to transfer the amounts of calculated and withheld tax no later than the day of actual receipt of cash from the bank for the payment of tax and for the transfer of tax from the bank accounts of tax agents to the taxpayer's accounts or upon the taxpayer's request to third-party bank accounts.

Specifics of individual income tax payment in respect of income from participating interest in an entity

The amount of individual income tax in respect of income from participating interest in an entity received in the form of dividends is determined with due account for the following provisions:

1) the amount of tax with respect to dividends received at sources outside the Russian Federation is independently determined by the taxpayer for each amount of dividends received at a 9% rate.

Taxpayers receiving dividends from sources outside the Russian Federation are entitled to reduce the calculated amount of tax by the amount of tax calculated and paid at the location of income source only in the event that the source of income is located in a foreign country with which double taxation agreement (treaty) was executed.

In the event that the amount of tax paid at the location of income source exceeds the calculated amount of income the difference received is not refundable from the budget;

2) if the source of the taxpayer's income received in the form of dividends is a Russian entity the aforesaid entity is recognized as the tax agent and determines the tax amount for each individual taxpayer in respect of each payment of the aforesaid income at a 9% rate in accordance with the procedure provided for by Article 275 of the Tax Code.

Specifics of taxation of income of individuals resident in the Russian Federation:

The amount of tax to be withheld from income of the taxpayer receiving dividends is calculated by the tax agent based on the total amount of tax and the stake of each taxpayer in the total amount of dividends.

The total amount of income is determined as tax rate multiplied by the difference between the amount of dividends distributable among shareholders (participants) in the current tax period, minus the amount of dividends payable by the tax agent to foreign entities and/or natural persons non-resident in the Russian Federation in the current tax period, and the amount of dividends received by the tax agent himself/herself in the current reporting (tax) period and the previous reporting (tax) period if these amounts of dividends did not participate earlier in the

calculation for determination of taxable income in the form of dividends. In the event that a negative difference is received, no obligation to pay tax will occur and no reimbursement from the budget will be made.

Specifics of the procedure for taxation of income of individuals non-resident in the Russian Federation in the form of dividends: In the event that a Russian entity – tax agent pays dividends to an individual non-resident in the Russian Federation the tax base of the taxpayer receiving dividends for each such payment is determined as the sum of paid dividends.

Avoidance of double taxation:

The amounts of tax on income received outside the Russian Federation actually paid by the taxpayer which is a tax resident of the Russian Federation outside the Russian Federation in accordance with the legislation of other countries are not considered in the payment of tax in the Russian Federation, unless otherwise provided for by the respective double taxation agreement (treaty).

To be exempt from tax, perform a setoff, receive tax deductions or any other tax privileges a taxpayer needs to submit to the tax authorities a formal confirmation of residence in the country with which the Russian Federation executed a double taxation agreement (treaty) effective during the respective tax period (or a portion thereof) and a document on the income received and the payment of tax outside the Russian Federation confirmed by the tax authority of the respective foreign country. Confirmation may be provided both before the payment of income or advance tax payments and within one year from the completion of the tax period for which a taxpayer claims tax exemption, setoff, tax deductions or privileges.

In accordance with paragraph 1 of Article 284 of Chapter 25 of the Tax Code of the Russian Federation the income of individuals which are tax residents of the Russian Federation from operations related to the subsequent sale of securities to be placed is assessed with income tax at a 24% rate (Federal Budget – 6.5%, budgets of the constituent entities of the Russian Federation – 17.5%, in the reduction for certain categories of taxpayers the aforesaid tax rate to be transferred to the budgets of the constituent entities of the Russian Federation may not be lower than 13.5%).

For entities resident in the special economic zone the laws of the constituent entities of the Russian Federation may establish a reduced rate of tax to be transferred to the budgets of the constituent entities of the Russian Federation in respect of income from activities performed in the territory of the special economic zone on condition of the separate recording of income (expense) received (incurred) from activities performed in the territory of the special economic zone and income (expense) received (incurred) from activities performed outside the territory of the special economic zone. The amount of the aforesaid tax rate may not be lower than 13.5 percent.

The tax rate for non-resident foreign legal entities receiving income at source and located in the territory of the Russian Federation is 20% (the Federal Budget).

Procedure and period for payment of tax by legal entities non-resident in the Russian Federation: Tax payable upon expiration of tax period is paid no later than March 28 of the year following the expired tax period. Quarterly advance payments are paid within 28 days of the date of expiration of the respective tax period. Monthly advance payments are paid no later than the 28th day of each month of this reporting period. Taxpayers calculating monthly advance payments in respect of actually received income make advance payments no later than the 28th day of the month following the month for which tax is calculated. At the end of the reporting (tax) period the amounts of monthly advance payments made within the reporting (tax) period are offset against advance payments for the reporting period. Quarterly advance payments are offset against the tax payable for the tax period.

The specifics of determination of tax base for transactions involving securities are established by Article 280 of the Tax Code of the Russian Federation.

The taxpayer's income from operations related to the sale or any other disposal of

securities (including redemption) is determined based on the price of sale or any other disposal of a security as well as the amount of accrued interest (coupon) yield paid by the buyer to the taxpayer and the amount of interest (coupon) yield paid to the taxpayer by the issuer (bill drawer). The taxpayer's income from the sale or any other disposal of securities does not include the amounts of interest (coupon) yield considered in taxation earlier.

Expenses in connection with the sale (or any other disposal) of securities, including investment units from an investment unit trust, are determined based on the security acquisition price (including expenses in connection with its acquisition), costs in connection with the sale thereof, the amount of relieves against the calculated value of investment units, the amount of accrued interest (coupon) yield paid by the taxpayer to the security seller. The amounts of accrued interest (coupon) yield considered in taxation earlier are ignored.

In respect of securities which are not traded on the organized securities market the actual price of sale or any other disposal of these securities applies for tax purposes provided that at least one of the following conditions is met:

- 1) if the actual price of the respective transaction falls within the price range for a similar (identical, homogenous) security registered by the trade institutor on the securities market on the date of execution of the transaction or on the date of the nearest sales which took place prior to the day of completion of the respective transaction if the trade involving these securities was conducted by the trade institutor at least once in the recent 12 months;

- 2) if a deviation of the actual price of the respective transaction falls within the range of 20 percent upward or downward from the average weighted price of a similar (identical, homogenous) security calculated by the trade institutor on the securities market in accordance with the policies established thereby based on the trade results on the date of execution of such transaction or on the date of the nearest sales which took place prior to the day of completion of the respective transaction if the trade involving these securities was conducted by the trade institutor at least once in the recent 12 months.

A taxpaying shareholder selling the shares which he received through an increase in the authorized capital of the Company determines income as a difference between the selling price and initially paid value of share adjusted for the changed number of shares resulting from an increase in the authorized capital.

In the sale or any other disposal of securities the taxpayer independently chooses among the following methods of expensing the value of securities disposed of in accordance with the accounting policy adopted for tax purposes:

- 1) based on the value of first-in acquisitions (FIFO);
- 2) based on the value of last-in acquisitions (LIFO);
- 3) based on unit value.

Taxpayers which incurred loss(es) from transactions involving securities in the previous tax period or following tax periods are entitled to reduce the tax base received from transactions involving securities in the reporting (tax) period. Losses from transactions involving securities not traded on the organized securities market incurred in the previous tax period (previous tax periods) may be used to reduce the tax base from transactions involving such securities identified in the reporting (tax) period.

Losses from transactions involving securities traded on the organized securities market incurred in the previous tax period (previous tax periods) may be used to reduce the tax base from transactions related to the sale of this category of securities.

Income received from transactions involving securities traded on the organized securities market may not be reduced by expenses or losses from transactions involving securities not traded on the organized securities market.

Income received from transactions involving securities not traded on the organized securities market may not be reduced by expenses or losses from transactions involving securities traded on the organized securities market.

Procedure and period of tax payment by foreign legal entities non-resident in the Russian Federation in respect of income from the sale of shares in Russian entities over 50% of assets of which consist of immovable property located in the territory of the Russian Federation: Tax is calculated and withheld by a Russian entity paying income to a foreign entity in each income payment and transferred by the tax agent to the federal budget simultaneously with the payment of income in the currency in which this income is paid or in the currency of the Russian Federation at the exchange rate of the Central Bank of the Russian Federation on the date of tax transfer. Specifics of taxation procedure for foreign legal entities non-resident in the Russian Federation from the sale of shares in Russian entities over 50% of assets of which consist of immovable property located in the territory of the Russian Federation: If a foreign entity prior to the date of income payment provides a confirmation that this foreign entity is permanently resident in the country with which the Russian Federation has an international agreement governing the issues of taxation in respect of income for which the international agreement provides for preferential tax treatment in the Russian Federation exemption from withholding tax at source of payment or tax withholding at reduced rates are performed.

In accordance with Chapter 23 of Part 2 of the Tax Code of the Russian Federation the income of natural persons which are tax residents of the Russian Federation from the subsequent sale of securities to be placed is charged at a 9% rate; the income of natural persons which are not tax residents of the Russian Federation at a 30% rate.

Income (loss) from securities purchase and sale transactions is determined as a difference between the amounts of income received from the sale of securities and expenses in connection with the acquisition, sale and storage of securities actually performed by the taxpayer and documented.

Tax payment procedure and period: The tax amount is calculated and paid by the tax agent upon expiration of tax period (calendar year) or, if the tax agent pays the taxpayer's cash, prior to the expiration of a regular tax period. In the payment of cash prior to the expiration of a regular tax period tax is payable on a proportion of income corresponding to the actual amount of cash to be paid.

Specifics of the procedure for taxation of income of individuals which are tax residents of the Russian Federation from the sale of securities to be placed: In the event of failure to document expenses, an individual is entitled to use a property-related tax deduction in an amount received from the sale of securities, yet not exceeding 125,000 rubles. Specifics of the procedure for taxation of income of individuals which non-resident in the Russian Federation from the sale of securities to be placed: Avoidance of double taxation.

To be exempt from tax, perform a setoff, receive tax deductions or any other tax privileges a taxpayer needs to submit to the tax authorities a formal confirmation of residence in the country with which the Russian Federation executed a double taxation agreement (treaty) effective during the respective tax period (or a portion thereof) and a document on the income received and the payment of tax outside the Russian Federation confirmed by the tax authority of the respective foreign country. Confirmation may be provided both before the payment of income or advance tax payments and within one year from the completion of the tax period for which a taxpayer claims tax exemption, setoff, tax deductions or privileges. During the circulation of securities in the future the procedure for taxation of income from securities to be placed may be altered in accordance with the laws of the Russian Federation.

8.9. Information concerning dividends declared (accrued) and paid on the issuer's shares and yield on the issuer's bonds

Information on the dividends on shares in RAO UES of Russia accrued and actually paid during the 5 most recently closed fiscal years and as of the final date of the most recent reporting quarter.

Dividends on ordinary shares:

8.10. Other information

Paragraph 8.10. in accordance with the Regulations for the Information Policy of RAO UES of Russia approved by the Board of Directors on June 23, 2006 (minutes No. 224) provides additionally disclosed information on the activities of the Company.

Paragraph 8.10. also provides links to the corporate website of the Company.

1. Information concerning the amount of remuneration of the Company's registrar paid during most recently closed fiscal year and information on existing agreements regarding such payments in current fiscal year.

Under agreements between RAO UES of Russia and ZAO Status RC in 2005 the registrar was paid a remuneration (VAT inclusive) in the following amount:

- 17.7 million rubles for the provision of services related to keeping a register of owners of inscribed securities under Agreement No. 310-04 dated December 15, 2004;
- 8.85 million rubles for the provision of services related to the accrual and payment of dividends under Agreement No. 336-04 dated December 31, 2004;
- 29.0 million rubles for the preparation and holding of the Annual General Meeting of Shareholders under the Agreement dated April 24, 2006 and 548,000 rubles under Supplementary Agreement No. 1 dated June 22, 2006

Furthermore, pursuant to a resolution of the Board of Directors of the Company (Minutes No. 181 of November 26, 2004) in December 2004 the registrar was changed. In accordance with the agreement dated December 24, 2004 for the delivery of information and documents which constitute the system of maintenance of the register of owners of inscribed

securities of RAO UES of Russia from the previous registrar, Central Moscow Depository (CMD), to the new registrar, ZAO Status RC, within three years RAO UES of Russia is obliged to pay a fee of 20.5 million rubles. Under this agreement in 2005 CMD paid 6.84 million rubles (VAT inclusive).

2. Information concerning establishment and utilization of the Company's reserve fund and other funds.

In accordance with the Charter of RAO UES of Russia establishes a reserve fund, a special fund for the employees of the Company, and pursuant to a resolution of the Board of Directors any other funds and reserves necessary for its activity.

The reserve fund of the Company amounts to 15 percent of its authorized capital.

The reserve fund of the Company is intended to cover the losses, redeem the Company's bonds and repurchase the Company's shares if other funds are unavailable and may not be used for any other purposes.

The procedure for the establishment and utilization of the Company's funds is determined by the Board of Directors of the Company.

The reserve fund of the Company as of September 30, 2006 equals to 3,234,156,000 rubles.

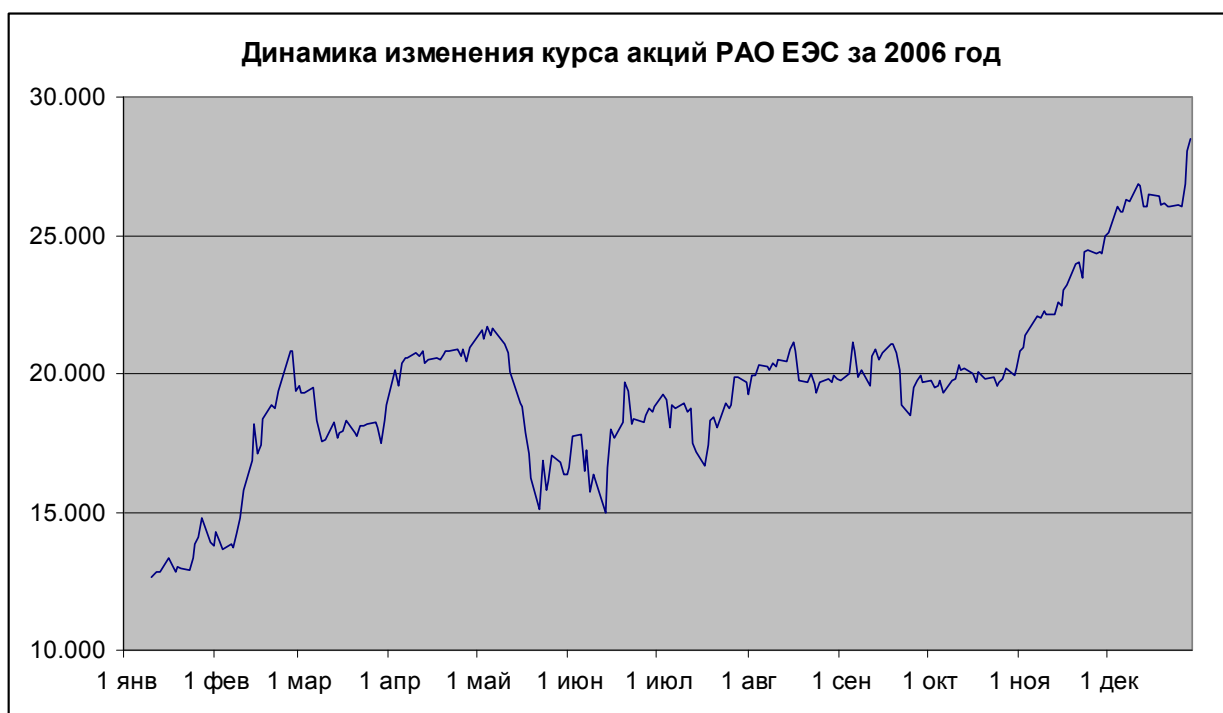

Information on the reserve fund of the Company is also provided in paragraph 8.1.3 of this report.

4. Information concerning market makers of the Company.

In the 4th quarter of 2006, the Company did not execute any agreements with market makers.

5. Information concerning financial and economic activities of the Company

5.1. Information concerning activities, goods (services) produced (provided).

Information on the activities of the Company, goods (services) produced (provided) is given in paragraph 3.2.3 of this report. The report for the 4th quarter of 2006 does not provide such information.

5.2. Information concerning investment projects of the Company.

Investing activities of the Company

The planned volume of capital investment as specified in List of Capital Investment Projects in the Electricity Industry and Justified Amount of Earmarked Investments Included in the transmission fee of RAO UESR No. 70-e/b dated December 3, 2005 approved by the Management Board of the FTS of Russia is 20.801 billion rubles.

The investment program primarily included thermal and hydraulic power plants the construction of which is preset by the resolutions of the Government of the Russian Federation and directives of the President of the Russian Federation, high-readiness launch facilities, facilities ensuring the current reliability of electric power supply.

The principal investment projects of the Company in 2006 include:

Bureyskaya HPP (design capacity – 2,000 MW).

The power plant construction will allow solving the problem of safe and reliable power supply to the Far East, reduce dependence on imported costly fuel. After the launch of the fourth 335 MW hydraulic unit in 2005 the capacity of the Bureyskaya HPP increased to 1,005 MW.

In 2006, it is planned to build the dam to the design level of 265 meters (left-bank portion to the level of 248 meters), install the intake channel hydromechanical equipment, service spillway on a permanent basis and embed 149,000 m³ of concrete in the main facilities

Kaliningradskaya CHPP-2 (design capacity: 900 MW). The power plant is being built in accordance with the Russian enclave development program aimed at ensuring the energy security of the region and strengthening the common economic space of Russian in general. 2005 saw the commissioning of the first 450 MW power unit using state-of-the-art gas-steam cycle technology.

Boguchanskaya HPP (design capacity: 3,000 MW). The construction of the hydraulic power plant will allow eliminating the winter peak power shortage in the region, ensuring the electricity needs of the electric power industry complex of the Lower Transangara.

Zelenchukovskaya HPP (design capacity of the power plant: 160 MW).

The implementation of the project for the completion of water diversion on the Bolshoy Zelenchuk River will allow doubling the generation by the hydraulic power plant without increasing its installed capacity.

Irganayskaya HPP (design capacity of the power plant: 800 MW). Two 200 MW power units were commissioned. Their capacity at the normal water level (NWL) of the reservoir equivalent to 483 meters is 214 MW (2 by 107 MW). Filling the dam and increasing the NWL to the level of 521 meter will allow achieving the design values of commissioned hydraulic units thus increasing the reliability of power supply to the consumers of the North Caucasus Region.

Zaramagskie HPP (design capacity of the power plant: 352 MW). The commissioning of the power plant will allow meeting more than a half of the electricity needs of North Ossetia.

Nizhne-Cherekskie HPP Cascade (design capacity of the cascade: 120 MW). Aushigerskaya HPP (60 MW) was commissioned in 2002. Sovetskaya HPP is under construction. The commissioning of the power plant will improve the reliability of power supply to the North Caucasus IPS.

Ivanovskaya TPP (design capacity: 701.7 MW). The project solves the task of developing the mass production of the domestic gas turbine plant GTP-110 which is a basic element of the combined-cycle gas turbines CCGT-325 intended to replace widely used steam-power units with a capacity of 200-300 MW. Such replacement ensures increasing the productivity of units from 35-38 % to 51% and allows reducing natural gas consumption by 30 % for each power unit being rehabilitated.

The total funding in 2006 using the earmarked investments of RAO UESR was 20.28 billion rubles.

In addition, HydroOGK funded a number of HPPs from the investment program of RAO UES of Russia in the amount of 5,122.2 million rubles, including Irganayskaya HPP – 1,550 million rubles, Boguchanskaya HPP – 726.7 million rubles and 1,034.379 (RUSAL), Zaramagskaya HPP – 761.592 million rubles, Nizhne-Cherekskie HPP Cascade – 749.5 million rubles, Bureyskaya HPP – 300 million rubles.

Capital investment using all sources of finance: 21.09 billion rubles.

Due to the fact that in January 2007 funding-raising for hydropower facilities was transferred from RAO UES of Russia to the investment program of HydroOGK, in 2007 fund-raising for the investment program of RAO UES of Russia is expected to focus on the implementation of thermal power plants, such as Kaliningradskaya CHPP-2, Ivanovskaya TPP and Mobilnye GTTPPs.

If the above-mentioned program is implemented, it will be possible to commission the 2nd power unit of Kaliningradskaya CHPP-2 in 2009, commission the 1st power unit and start the construction of the 2nd unit at Ivanovskaya TPP in 2007 and implement the Mobilnye GTTPPs project, i.e. install 10x25 MW mobile gas-turbine power plants.

5.3. Information concerning appraisal activity and asset appraisal methods.

The creation of the appraisal system began from the establishment of the Appraisal Committee under the Board of Directors of RAO UES of Russia (hereinafter the Appraisal Committee) in April 2002 pursuant to a resolution of the Board of Directors on the "Common approach to the appraisal of RAO UES of Russia and its subsidiaries and dependent companies during the reform process" issue. In accordance with the Committee Regulations it was established for the purposes of rendering assistance to the Board of Directors in the fulfillment of its duties related to the development of the procedure and control over the determination of the market value of assets of RAO UES of Russia and its subsidiaries and dependent companies. The Appraisal Committee is composed of member of the Board of Directors or their agents, the managers of RAO UES of Russia and representatives of the appraisal community.

The key elements of the appraisal system include *certification, the selection of appraisal companies* for the performance of appraisal work and *control over quality* and output of their work.

The certification of appraisal companies is performed in accordance with the Regulations for the Selection of Companies Entitled to Perform Activities Related to the Determination of the Market Value of Business and/or Assets of RAO UES of Russia, AO-Energos and the Subsidiaries and Dependent Companies and Organizing Appraisal Work During the Reform Process approved by the Board of Directors on June 4, 2002. The certification procedure is organized by the Appraisal Committee.

So far, RAO UES of Russia has certified 42 appraisal companies. 26 represent Moscow, the others represent regions. Since the launch of the certification system 3 appraisal companies have been decertified because of low-quality performance of appraisal work.

The selection of certified appraisers for the performance of appraisal work is performed on a tender basis in accordance with the *Instructive Letter on the Procedure for Working with Certified Appraisers* approved by the Appraisal Committee on October 24, 2003. RAO UES of Russia and its subsidiaries and dependent companies established tender committees the objective of which is organizing tenders for the performance of appraisal work. Tender notifications are published openly at www.b2b-energo.ru. Thus publicity and competitiveness are ensured in conducting appraisal tenders.

Control over the quality of work performed by appraisal companies is exercised by the Appraisal Committee and the executive office of the Company represented by the Department for Regulation of Property Relations. Under the Appraisal Committee an Expert Council was established which performs the independent evaluation of appraisal reports upon request from the Committee. It is composed of representatives of three self-governing entities: SIAA (Self-Regulatory Interregional Association of Appraisers), RSA (the Russian Society of Appraisers) and RBA (Russian Board of Appraisers). In a number of cases when appraisal work has poor quality and was performed in bad faith reports are submitted to the Expert Council for examination. Based on the results of examination pursuant to a resolution of the Committee an appraisal company may be decertified.

To ensure a common approach of appraisal companies to the core asset appraisal Deloitte & Touche, upon request from RAO UES of Russia, prepared the *Methodology and Guidelines for the Appraisal of Business and/or Assets of RAO UES of Russia and the Subsidiaries and Dependent Companies of RAO UES of Russia* (hereinafter the Methodology) approved by the Board of Directors of the Company on April 20, 2004. The Methodology contains a detailed description of approaches and methods of appraisal of the assets of RAO UES of Russia. As part of the reform during the appraisal of the core assets of RAO UES of Russia appraisal reports are reviewed by Deloitte & Touche as to their compliance with the Methodology.

To standardize the information sources used by appraisal companies in the appraisal of generation facilities using a cost approach, the CO-INVEST company, upon request from RAO UES of Russia, prepared the *Handbook of Detailed TPP Replacement Cost Indicators* adopted at the Appraisal Committee Meeting on October 12, 2004.

As part of the restructuring of RAO UES of Russia reports on the appraisal of core and large non-core assets are considered by the Appraisal Committee and recommended to the Board of Directors for the adoption of corporate decisions.

5.5. Information concerning debt to equity ratio of the Company.

Debt to equity ratio

Borrowings are dominated by short-term loans and credits (43.8%), short-term accounts payable account for 32.8%, long-term loans and credits and other long-term debt (including deferred tax liabilities) 11.6%, other liabilities 11.7%.

In the first 9 months of 2006:

- the percentage of long-term loans and credits reduced to 2.7%, the percentage of other long-term debt (including deferred tax liabilities) decreased by 7.9% to 8.9%, the percentage of short-term loans and credits reduced by 5.0% to 43.8%;
- the percentage of short-term accounts payable increased from 24.5% to 32.8%.

Information as of December 31, 2006 cannot be provided in the Quarterly Report for the 4th quarter of 2006 due to the lack of completed financial statements of the Company for 2006.

5.7. Changes in breakdown of accounts receivable and accounts payable.

1. Introduction

The goals of this Corporate Governance Code (hereinafter the Code) shall include improving and systemizing the corporate governance of Unified Energy System of Russia (hereinafter the Company), ensuring greater transparency of the governance of the Company and confirming the permanent readiness of the Company to follow proper corporate governance standards. In particular:

- the Company shall be governed at a proper level of responsibility and accountability so that the shareholder value is maximized;
- the Board of Directors and executive bodies shall work efficiently, for the benefit of the Company and its shareholders (including minority shareholders) and create an environment for the sustainable growth of shareholder value;
- proper information disclosure, transparency and efficient operation of risk management and internal control systems shall be secured.

Adopting, regularly improving and rigorously adhering to the provisions of this Code, the Charter of the Company and other internal documents the Company confirms its intent to contribute to the development and improvement of proper corporate governance practices.

To further strengthen confidence on the part of shareholders, employees, investors and the public the Company in preparing this Code went beyond the Russian legislative norms and included in the Code additional provisions based on generally accepted Russian and international⁹ corporate governance standards.

The Company shall assume the obligations provided for by this Code and undertakes to meet the norms and principles established herein.

2. Information about the Company

Unified Energy System of Russia (RAO UES of Russia) was established on December 31, 1992 as a result of the corporization of facilities used for the production, transmission and distribution of electricity formerly controlled by the Ministry of Fuel and Energy of the Russian Federation.

The Company is among the world's largest energy holdings. Its shareholders include hundreds of thousands of both Russian and foreign legal entities and natural persons. The majority interest in the Company is owned by the Russian Federation.

As a parent company of the Holding, the Company seeks to form on the base of the Holding cost-effective, profitable, investment-attractive business companies integrated into the world economy and providing customers with high-quality and clean energy and other goods and services produced by top-notch specialists in the spirit of competition for the customer and cost-effective use of resources using advanced technologies.

⁹ OECD (Organization for Economic Cooperation and Development) Principles of Corporate Governance.

The role of the Company in the economy of the Russian Federation is exceptional. The activity of the Company and its subsidiaries and dependent companies meets the vital needs of the population and fosters all branches of economy of the Russian Federation.

The scope and exceptional nature of activity of the Company are associated with high responsibility both to the shareholders and the state, the employees of the Company, suppliers, customers and society as a whole.

Realizing this responsibility and recognizing the importance of high-level corporate governance for the successful business of the Company and the achievement of mutual understanding among all persons interested in the Company's activity, the Company undertakes to follow in its activity the principles set forth herein and use all reasonable endeavors to ensure that the Company complies with them in its daily operations.

3. PRINCIPLES AND STRUCTURE OF CORPORATE GOVERNANCE IN THE COMPANY

3.1. Definition and Principles

By corporate governance the Company implies a set of processes ensuring corporate governance and control over its activity and including relations among the shareholders, the Board of Directors and executive bodies of the Company for the benefit of its shareholders. The Company views corporate governance as a means of improving the efficiency of the activity of the Company, strengthening its reputation and reducing costs associated with capital raising by the Company.

This Code in accordance with which corporate governance shall be carried out in the Company shall be based on the Russian law, the Corporate Governance Code recommended for application by FCSM Resolution No. 421/r dated April 4, 2002 (hereinafter the FCSM Code) and internationally accepted corporate governance principles such as the OECD (Organization for Economic Cooperation and Development) Principles of Corporate Governance.

Corporate governance in the Company shall rely on the following principles:

- **Accountability.** The Code shall stipulate the accountability of the Board of Directors of the Company to all shareholders in accordance with the applicable law and shall serve as a guide for the Board of Directors in developing the strategy, managing and exercising control over the activity of the executive bodies of the Company.
- **Fairness.** The Company undertakes to protect the rights of its shareholders and ensure the equal treatment of all shareholders. The Board of Directors shall provide to all shareholders an opportunity to receive effective protection in case of violation of their rights.
- **Transparency.** The Company shall ensure the timely disclosure of reliable information about all material facts concerning its activities, including its financial condition, social and environmental indicators, performance, ownership structure and governance of the Company and provides free access to such information for all interested parties.
- **Responsibility.** The Company shall recognize the rights of all interested parties provided for by the applicable law and seek to cooperate with such parties for the purposes of its development and ensuring financial sustainability.

3.2. Internal Documents.

This code shall be a set of principles. Specific structures, procedures and practices of corporate governance shall be regulated by the Charter and internal documents of the Company, namely:

- Regulations for the General Meeting;
- Regulations for the Board of Directors;
- Regulation on the Management Board;
- Regulations for the Operating Procedures of the Internal Audit Commission.

The above-listed internal documents of the Company are prepared in accordance with the law and with due account for the principal provisions of the Corporate Governance Code recommended for application by the FCSM (FCSM Resolution No. 421/r dated April 4, 2002). All documents listed above can be found on the website of the Company at <http://www.rao-ees.ru>.

3.3. Overall Structure of Corporate Governance

The system of management bodies of the Company shall include:

- the General Meeting of Shareholders, a supreme management body of the Company through which the shareholders shall exercise their right to participate in managing the Company;
- the Board of Directors, a management body responsible for the development of the Company's strategy, the overall management of its activity and control over the activity of executive bodies. The Board of Directors of the Company may also establish committees under the Board of Directors.
- Committees under the Board of Directors, advisory bodies under the Board of Directors of the Company established for the prior consideration of critical issues falling within the jurisdiction of the Board of Directors.
- the Management Board and the Chairman of the Management Board, management bodies managing the daily operations of the Company and implementing the strategy defined by the Board of Directors and shareholders of the Company;
- the Internal Audit Commission, a body exercising control over the financial and economic activities of the Company, reporting directly to the General Meeting of Shareholders of the Company.

4. CORPORATE GOVERNANCE PRACTICES IMPLEMENTED BY THE COMPANY

The Company views the professional Board of Directors as an essential element of effective corporate governance. The Board of Directors shall influence the performance of the Company by carrying out overall strategic direction and exercising control over the operation of executive bodies for the benefit of the Company and its shareholders. The executive bodies of the Company responsible for managing the daily operations of the Company shall also play an important role in the governance process. Effective interaction between these two bodies and a clear distinction between their powers shall be among the key factors for ensuring proper corporate governance practices.

4.1. Board of Directors.

4.1.1. Election, term and termination of powers of members of the Board of Directors. Members of the Board of Directors shall be elected for the period until the regular Annual Meeting of Shareholders. The Board of Directors of the Company shall be elected by cumulative voting.

The Company believes that imposing limitations on the number of re-elections for members of the Board of Directors shall not meet the interests of the Company or its shareholders. Members of the Board familiar with the activities of the Company shall play an important role in ensuring proper governance.

The powers of the Board of Directors shall be governed by the Charter of the Company in accordance with the applicable law and the FCSM Code recommendations.

The total number of members of the Board of Directors shall be defined in the Charter of the Company.

The General Meeting of Shareholders may terminate the powers of the Board of Directors only in its entirety.

4.1.2. Independence. The law prohibits combining the positions of the sole executive body and the Chairman of the Board of Directors. The Company believes that the Board of Directors should be headed by a director¹⁰ which simultaneously shall not act as the sole executive body and/or member of the collegial executive body of the Company, since it shall allow the Board of Directors to perform its functions more effectively.

The composition of the Board of Directors shall ensure the proper fulfillment of duties related to exercising control and defining the strategy and main directions for the development of the Company.

The Board of Directors shall be composed of no more than 25% of executive directors which simultaneously shall act as employees of the Company.

To ensure the objectivity of adopted decisions and maintain the balance of interests of various groups of shareholders the Company shall seek to have at least 3 (three) independent directors on the Board of Directors. According to the definition given by the Company, independent directors mean those who meet the following requirements for independence:

- do not act as executives or employees of the Company as of the election or during 3 years preceding the election;
- do not act as executives of any other business entity in which any executive of the Company is a member of the Personnel and Remuneration Committee under the Board of Directors;
- are not spouses, parents, children, brothers and sisters of executives of the Company;
- are not affiliates of the Company, with the exception of a member of the Board of Directors of the Company;
- are not parties to the commitments with the issuer in accordance with the terms of which they may acquire property (receive cash resources) valued at at least 10 of the cumulative annual

¹⁰Hereinafter "member of the Board of Directors of the Company".

income of the aforesaid persons, with the exception of receipt of remuneration for participation in the activity of the Board of Directors of the Company;

- are not representatives of the state and/or local governments, i.e. persons which need to vote under written directives (instructions, etc) from the duly authorized federal authorities, authorities of the constituent entities of the Russian Federation or local governments.

4.1.3. Structure of the Board of Directors of and its committees. The Company shall establish the following committees of the Board of Directors:

- Audit Committee;
- Personnel and Remuneration Committee;
- Strategy and Reforming Committee;
- Appraisal Committee.

The activity of all committees shall be governed by the local regulations of the Company which contain provisions on the composition, jurisdiction, procedure for operation of the committees and the rights and duties of their members, namely:

- Regulations for the Audit Committee of the Board of Directors of RAO UES of Russia;
- Regulations for the Personnel and Remuneration Committee under the Board of Directors of RAO UES of Russia;
- Regulations for the Strategy and Reforming Committee under the Board of Director of RAO UES of Russia;
- Regulations for the Appraisal Committee under the Board of Directors of RAO UES of Russia.

Committees of the Board of Directors are established for the prior consideration of critical issues falling within the jurisdiction of the Board of Directors.

4.1.4. Procedure for operation. The Board of Directors shall hold meetings in accordance with the schedule prepared at the beginning of its term of office, thus ensuring the proper fulfillment of its duties. The Board of Directors shall hold meetings at least quarterly.

The procedure for operation of the Board of Directors shall be governed by the Regulations for the Board of Directors. The executive secretary of the Board of Directors shall ensure that all directors in a timely manner receive brief but comprehensive information simultaneously with the notification of the Board of Directors meeting, yet no later than 10 days prior to each meeting.

The Board of Directors shall take minutes of its meeting. The minutes shall be signed by the Chairman of the Board and the Executive Secretary of the Board of Directors.

4.1.5. Remuneration. The remuneration of members of the Board of Directors shall meet the market conditions and shall be established so as to ensure the retention and involvement of top-notch specialists in the operation of the Company, encourage them to fair and efficient activity.

The Company shall publicly disclose the information on the remuneration of members of the Board of Directors.

The Company shall not extend any loans to members of the Board of Directors.

4.1.6. Duties of members of the Board of Directors. Members of the Board of Directors shall act in good faith and with due care for the benefit of the Company and all its shareholders. Each director shall seek to participate in all meetings of the Board of Directors.

Members of the Board of Directors shall realize their responsibility to the shareholders and believe that their principal goal is the conscientious and relevant fulfillment of duties related to the governance of the Company, thus ensuring the maintenance and growth of the value of its stock as well as the protection of shareholder rights and an opportunity for the shareholders to exercise their rights.

Members of the Board of Directors shall seek to maintain an ongoing dialog with the shareholders.

Members of the Board of Directors shall secure the development and implementation of the Company development strategy.

The Board of Directors shall establish and maintain the necessary mechanisms of control over the operation of the Management Board of the Company, including the monitoring and evaluation of its performance.

The Board of Directors shall establish a system of clear and transparent criteria and procedures for the appointment and replacement of members of the Management Board of the Company and an efficient remuneration system for its members.

The Board of Directors shall assess the plans for the restructuring of the Company and ensure control over their implementation.

Members of the Board of Directors shall neither disclose nor use any confidential information about the Company for personal gain.

Members of the Board of Directors undertake to refrain from actions which may lead to any conflict between their interests and the interests of the Company. In the event of such conflict a member of the Board of Directors undertakes to notify the other Board members thereof and abstain from voting on respective issues.

4.2. Management Board and the Chairman of the Management Board

The Company realizes that directing the daily operations of the Company requires the sole executive body represented by the Chairman of the Management Board. It also admits that during the governance process difficult tasks need to be solved and a team rather than individual approach is required to solve them. In this regard the Company shall form the Management Board headed by the Chairman of the Management Board.

4.2.1. Powers. The Chairman of the Management Board and the Management Board shall direct the daily operations of the Company for the purposes of accomplishing the objectives and implementing the strategy of the Company.

4.2.2. Membership. The Chairman of the Management Board shall submit recommendations regarding the membership of the Management Board which shall be determined by the Board of Directors of the Company.

4.2.3. Election, term and termination of powers of members of the Board of Directors. The Chairman of the Management Board shall be elected by the General Meeting of Shareholders of the Company. The Chairman of the Management Board, in his turn, shall propose officers to be members of the Management Board for approval by the Board of Directors.

The General Meeting of Shareholders may terminate the powers of the Chairman of the Management Board at any time. The Board of Directors may at any time terminate the powers of members of the Management Board.

4.2.4. Composition of the Management Board. The Management Board shall be composed of qualified and experienced persons, thus ensuring the efficient direction of the daily operations of the Company. Each member of the Management Board including the Chairman of the Management Board shall have experience, knowledge and qualifications necessary for the proper fulfillment of duties imposed thereon.

4.2.5. Procedure for the operation of the Management Board. The Management Board shall hold regular meetings, members of the Management Board shall receive information on agenda items with due advance. The procedure for the Management Board operation shall be governed by the Regulations for the Management Board of the Company.

4.2.6. Remuneration and performance assessment. The system of remuneration of the Chairman of the Management Board and members of the Management Board shall be determined by the Board of Directors. Remuneration shall consist of the constant and variable parts, the latter shall depend on the meeting of a certain system of performance indicators (hereinafter the "Indicators") for executive bodies and shall be connected with their personal input in ensuring a long-term development of the Company for the benefit of its shareholders.

The Indicators shall imply a system of financial and non-financial measures influencing the quantitative and qualitative changes in performance in relation to the strategic goal of the Company.

In determining the Indicators for executive bodies the Board of Directors of the Company shall focus only on the most significant ones excluding all secondary indicators and reducing their quantity to the "key" indicators. The quantity of Indicators shall be limited (for their practicability and the quality of monitoring).

The objective of the system of Indicators shall be translating the strategy of the Company into an integrated set of its performance indicators determining the principal parameters of the measurement and governance system. The set of indicators shall form the basis for developing the strategy of the Company and shall include quantitative characteristics for informing executive bodies of the principal success factors at present and in the future. Developing the strategy the Company shall set a goal and create an environment for achieving it.

4.2.7. Duties of executive bodies. The Chairman of the Management Board and members of the Management Board shall act in good faith and with due care for the benefit of the Company and all its shareholders.

The Chairman of the Management Board and members of the Management Board undertake to refrain from actions which may lead to any conflict between their interests and the interests of the Company. In the event of such conflict a member of the Board of Directors undertakes to notify the other Board members thereof and abstain from discussing and voting on respective issues.

The Company realizes that the experience, public relations, knowledge and qualifications of members of the Management Board, including those gained by them during their employment by the Company, open up opportunities for performing commercial activities (both private and group ones through ownership of stakes, shares) unrelated to the interests of the Company.

At the same time members of the Management Board shall guarantee that the execution of such activities:

- will not impede in any manner the fulfillment of functions as a member of the Management Board of the Company;
- will be unrelated to the utilization of tangible and intellectual resources of the Company;
- will not cause any financial damage to the Company;
- will not cause any damage to the business reputation of the Company;
- will not provoke competition for the Company.

In the event of non-fulfillment or creation of pre-conditions for the non-fulfillment of at least one of the above-listed conditions a member of the Management Board undertakes to cease any activity related to such non-fulfillment.

In order to prevent possible negative consequences for the Company members of the Management Board shall disclose to the Company any information on the execution by them of commercial activities unrelated to the interests of the Company in accordance with the procedure established by the local regulations of the Company.

4.3. Interaction between the Board of Directors and Executive Bodies.

Effective corporate governance shall require an open dialog between the Board of Directors and the executive bodies of the Company. To that end, the Management Board of the Company shall submit to the Board of Directors quarterly reports on the activity of the Management Board in accordance with the Regulations for the Management Board.

5. SHAREHOLDERS OF THE COMPANY

5.1. Shareholder Rights and Protection of Shareholder Rights

The shareholders of the Company shall hold a set of rights in respect of the Company the observance and protection of needs to be ensured by the Board of Directors and the Management Board of the Company.

The Company's Shareholder Register shall be kept by an independent registrar. The selection and appointment of an independent registrar having all necessary technical tools and an impeccable reputation shall allow the Company to ensure the reliable and efficient registration of the rights of ownership of shares and other securities of the Company.

The shareholders shall be entitled to receive information on the activity of the Company in a regular and timely manner in an amount sufficient for the adoption by the shareholders of informed and reasonable decisions on share disposition.

For the purposes of proper observance and protection of the aforesaid right the Company shall guarantee compliance with the information disclosure requirements established by law.

The Company discloses financial statements on a quarterly basis in accordance with the requirements of laws of the Russian Federation and in conformity with the International Financial Reporting Standards (IFRS).

All information disclosed in any manner shall be mandatorily published on the website of the Company.

The shareholders owning voting shares shall be entitled to participate in the General Meeting of Shareholders and shall have the right to vote on all issues falling within its jurisdiction.

For the purposes of proper observance and protection of the aforesaid right the Company shall arrange for holding the General Meeting of Shareholders in such a way that participation of the shareholders is not associated for them with any significant financial or time losses, ensuring equal treatment of all shareholders.

The Company undertakes to provide to the shareholders any information on items of the agenda of the General Meeting of Shareholders in an amount and within the time limits which allow the shareholders to adopt reasonable decisions.

As provided for by the Law and the Charter of the Company the Board of Directors shall prepare objective reasonable recommendations for the shareholders.

All information concerning the General Meeting of Shareholders shall be mandatorily disclosed on the website of the Company.

The shareholders shall be entitled to a portion of net income of the Company in the form of dividends.

For the purposes of proper observance and protection of the aforesaid right the Company undertakes to pay declared dividends within the time limits set by the General Meeting of Shareholders.

The rights of shareholders shall be governed by the provisions of the Charter and the internal documents of the Company.

5.2. General Meeting of Shareholders

The Company adopted the Regulations for the General Meeting of Shareholders which provides a detailed description of the procedure for the preparation, approval and adoption of resolutions by the General Meeting of Shareholders.

5.2.1. Preparation for the meeting. Each shareholder shall be entitled to participate in the General Meeting of Shareholders, vote on issues on its agenda, receive notice of such meeting with due advance and the agenda thereof as well as reliable, objective and timely information sufficient for the adoption of resolutions on any agenda items. The executive bodies of the Company shall be responsible for ensuring this process.

The Company shall have a fair and efficient procedure for submitting proposals for the agenda of the General Meeting, including motions on the nomination of candidates for the

Board of Directors. The agenda of the General Meeting may not be altered upon its approval by the Board of Directors.

5.2.2. Holding of the meeting. The Company shall make all necessary efforts to ensure participation of the shareholders in the General Meeting and the voting on agenda items.

The location for the General Meeting shall be accessible by the shareholders. The registration procedure shall be convenient for the participants and ensure quick and unimpaired access to the location of the meeting.

The Company shall ensure that the General meeting of Shareholders is attended by members of the Board of Directors, executive bodies, the Internal Audit Commission and the auditor of the Company and shall authorize them to answer the questions of the shareholders. The shareholders shall be entitled to speak on any agenda items, make respective motions and ask questions. The Chairman of the General meeting shall ensure its effective operation.

Voting shall be by ballots.

The procedure for the calculation of votes at the General meeting shall exclude the possibility of manipulating the voting results. The functions of the counting commission shall be performed by the independent registrar of the Company.

5.2.3. Results of the meeting. The voting results and other necessary materials shall be provided to the shareholders on the day of the General Meeting or later and published in a timely manner on the website of the Company and in mass media.

5.3. Dividend Policy

The Company has formally approved regulations for the dividend payment policy. Dividend policy is disclosed, in particular, on the website of the Company.

The procedure for determining the amount of dividends on preference shares shall not derogate from the rights of owners of ordinary shares. The dividend policy of the Company shall include:

- creating a transparent and clear mechanism for determining the amount of dividends;
- ensuring the most convenient for the shareholders dividend payment procedure;
- measures excluding any incomplete or untimely payment of declared dividends.

6. INFORMATION DISCLOSURE AND TRANSPARENCY

6.1. Information Disclosure Policies and Practices

The principal goal of the policy for the disclosure of information about the Company implemented by the Company shall be ensuring the highest possible degree of confidence in the Company on the part of shareholders, potential investors, counterparties and other interested parties by providing to the aforesaid persons information about the Company, its activities and securities in an amount sufficient for the adoption by the aforesaid persons of reasonable and informed decisions in relation to the Company and its securities.

In disclosing information about itself, the Company shall go beyond the information the disclosure of which is provided for by the regulations of the Russian Federation and shall disclose any additional information, thus ensuring a high level of transparency of the Company

and contributing to the accomplishment of goals of the information disclosure policy implemented by the Company.

The list of the information disclosed by the Company, the procedure and time limits for information disclosure shall be determined by the Board of Directors of the Company in the Regulations for the Information Policy of RAO UES of Russia.

In disclosing information the Company shall rely on the following principles:

- **The principle of completeness and reliability of disclosed information** in accordance with which the Company shall provide true information to all interest parties without avoiding the disclosure of any negative information about itself to the extent which allows forming the fullest idea of the Company and performance of the Company;
- **The principle of accessibility of information** in accordance with which the Company in disclosing information shall use such channels for the distribution of information about its activity which provide free and easy access to disclosed information for shareholders, creditors, potential investors and other interested parties;
- **The principles of balanced information** which means that the information policy of the Company shall be based on the reasonable balance of transparency of the Company for all interested parties on the one hand and confidentiality on the other hand for the purposes of exercising the shareholder rights to receive information on the activity of the Company to the maximum extent on condition of protection of information characterized as belonging to confidential or insider information;
- **The principle of regular and timely information disclosure** which determines that the Company shall provide to its shareholders, creditors, potential investors and other interested parties information on its activity within the time limits established by the regulations of the Russian Federation and the internal documents of the Company.

The information disclosed by the Company shall be published on the website of RAO UES of Russia. The website of the Company shall have an English version.

The responsibility for information disclosure shall be assumed by the executive bodies of the Company. Members of the Board of Directors shall disclose to the Company information about themselves necessary for the disclosure by the Company of information in accordance with the regulations of the Russian Federation and the Regulations for the Information Policy of the Company.

6.2. Financial Statements

The Company shall maintain accounting records and prepare financial statements in accordance with the Russian financial accounting and reporting standards. The Company shall prepare consolidated statements in accordance with the International Financial Reporting Standards (IFRS) and publish such statements on the website of the Company.

Financial statements shall be accompanied by detailed notes allowing the recipient of such statements to correctly interpret data on the financial performance of the Company. Financial information shall be supplemented by comments and analytical estimates from the management of the Company as well as the Report of the Company's Auditor and the Internal Audit Commission. The Company shall prepare consolidated financial statements (of the

Company and its subsidiaries and dependent companies) in accordance with the International Financial Reporting Standards (IFRS).

6.3. Control of Financial and Economic Activities

Realizing the need for reducing the probability of events which have a negative impact on the achievement by the Company of set goals and lead to losses, in particular due to the adoption of decisions based on incorrect judgments, human errors, conscientious evasion of control, and admitting a high level of the shareholders' need for protecting their investments and safeguarding the assets of the Company, the Company shall establish a system of control over its financial and economic activities.

Internal control over financial and economic activities shall be targeted towards achieving the following goals:

- ensuring complete and reliable financial, statistical, management and other reporting;
- ensuring compliance with the regulations of the Russian Federation, resolutions of the management boards of the Company and the internal documents of the Company;
- ensuring that the Company's assets are safeguarded;
- ensuring that the goals set by the Company are achieved in the most efficient manner;
- ensuring the resources of the Company are used in the most efficient and cost-effective manner;
- ensuring the timely identification and analysis of financial and operating risks which may have a significant negative impact on achieving the Company's goals related to its financial and economic activities.

The system of control over the financial and economic activities of the Company shall include control procedures determined by the regulations of the Russian Federation, resolutions of the General Meeting of Shareholders and the Board of Directors of the Company and a set of bodies (functions, persons) of the Company exercising internal control: the Internal Audit Commission, the Board of Directors (directly and through the Audit Committee) and a separate function (set of functions) authorized to exercise such control.

The functions, rights, duties and responsibility of the Company's functions shall be stipulated by the organizational and directive documents of the Company.

To ensure a systematic nature of control over the financial and economic performance of the Company internal control procedures shall be performed by the duly authorized function of the Company in charge of internal control in collaboration with other bodies and functions of the Company.

Specific procedures as well as bodies and persons responsible for performing internal control procedures shall be determined by the Regulations for the Internal Control Procedures of the Company approved by the Board of Directors of the Company.

6.4. Ownership Structure

The Company shall ensure the disclosure of information on the beneficial owners of five percent or more of voting shares in the Company. The information disclosed by the Company shall also describe corporate relationship within the group of companies. The Company shall seek to ensure the transparency of the Company's equity structure.

7. RESTRUCTURING OF THE COMPANY AND RELATIONS WITH SUBSIDIARIES AND DEPENDENT BUSINESS ENTITIES

7.1. Restructuring of the Company.

The necessity and principal directions of the electric power industry reform shall be determined by the regulations of the Russian Federation.

The Company shall participate in developing the electric power industry reform concept and carry out corporate governance and exercise control over the implementation of electricity industry reform processes within the RAO UES of Russia holding companies.

The key document establishing on a corporate level the principal goals and objectives of the reform shall be the RAO UES of Russia Strategy Concept for 2003-2008 "5+5" approved by the Board of Directors of the Company (hereinafter the "Strategy Concept").

The principal goals of the electric power industry reform shall include increasing the efficiency of energy companies and creating an environment for developing the industry based on predominantly private investments and by raising state investments in the companies of regulated electricity industry sectors.

In implementing the reform processes the Company shall rigorously adhere to the following principles:

- Ensuring safe and reliable electricity and heat supply to the customers, compliance with energy security requirements;
- Protecting the rights of shareholders during corporate transformations;
- Ensuring the transparency of reform procedures and public nature of information on decisions adopted by the management bodies in relation to all reform issues;
- Improving corporate governance principles and ensuring their compliance with the best Russian and foreign standards;
- Improving the investment policy of the Company;
- Transparent and fair appraisal in respect of operations involving assets.

During the process of reform the industry structure shall undergo qualitative changes aimed at forming market mechanisms for interaction among its participants, attracting private investments in the industry. To ensure the restructuring of Russia's electric power industry and accomplish the tasks of the reform, the Company shall actively develop and implement a set of measures to change its own structure and restructure the holding.

In this regard, corporate mechanisms and procedures for making all transformations (reorganization of companies, creation of new industry participants) shall take on special significance in the reform environment. The Company shall ensure the transparency of such

transformations and their implementation in strict compliance with the law of the Russian Federation, the Charters and internal documents of the Company, the subsidiaries and dependent companies and with due account for the best global corporate governance practices.

The highest priorities in the process of such transformations for the Company shall be ensuring control on the part of shareholders over the progress of transformations and ensuring participation of the shareholders in decision-making with respect to issues addressing their legal rights and interests.

The Board of Directors of the Company considering the most important issues of the reform shall be composed of, in particular, representatives of the state, minority shareholders, management of the Company.

To ensure that high-quality and timely decisions are adopted and the positions of all interested parties are aligned Committees are established under the Board of Directors (in particular, the Strategy and Reforming Committee, the Appraisal Committee, the Audit Committee under the Board of Directors).

The aforesaid corporate governance tools shall be targeted towards building effective dialog and multilateral discussion of the crucial reform-related issues by all interested parties. The purpose of such dialog shall be developing mutually acceptable decisions both at the level of the Company and its subsidiaries and dependent companies.

By improving the mechanisms and methods of corporate governance, the Company shall seek to ensure that the companies being established in the process of the reform adopt the worthwhile experience and corporate culture of the Company, thus forming the basis for the future effective development of companies for the benefit of all shareholders.

The corporate policy and corporate governance practices applied by the Company shall contribute to the successful accomplishment of the goals and objectives of the electric power industry reform.

7.2. Principles and practices of interaction with subsidiaries and dependent business entities

The Company shall seek to promote balanced development of the holding in general based on effective corporate governance mechanisms.

For the purposes of exercising its rights as a shareholder and being a parent company of the holding, the Company shall build its relationship with the subsidiaries and dependent companies (the SDCs) in accordance with the requirements of laws of the Russian Federation, the Charter and internal documents of the Company, the Charters of the subsidiaries and dependent companies.

The principal goals of interaction between the Company and its subsidiaries and dependent companies shall be as follows:

- ensuring sustainable financial development, the profitability of functioning, increasing the attractiveness of the Company and its subsidiaries and dependent companies to investors;
- ensuring the protection of rights and legal interests of the shareholders of the Company and its subsidiaries and dependent companies;

- harmonizing relationship among the shareholders, executives and members of labor teams of the Company and its subsidiaries and dependent companies, preventing of conflicts among them and within the aforesaid groups;

- developing and implementing a coordinated and efficient investment policy of the Company and its subsidiaries and dependent companies.

The Procedure for Interaction Between RAO UES of Russia and Business Entities in which RAO UES of Russia Owns Shares (Stakes) (hereinafter the "Procedure") shall be a document stipulating the main principles and provisions of corporate governance of the subsidiaries and dependent companies of the Company. In accordance with the aforesaid Procedure interaction between the Company and its subsidiaries and dependent companies shall be performed pursuant to appropriate resolutions adopted by the management and supervisory bodies of the subsidiaries and dependent companies (resolutions of general meetings of shareholders, Boards of Directors, Internal Audit Commissions, Management Boards and sole executive bodies within their jurisdiction).

In addition to the aforesaid procedure the process of corporate governance of the subsidiaries and dependent companies shall be regulated by the following documents:

- Charter of the Company;
- Corporate Governance Code of the Company;
- Charters of the subsidiaries and dependent companies of the Company;
- Standards and procedural rules concerning corporate governance procedures.

As corporate governance practices evolve, the Company shall seek to develop the principles of corporate governance in relation to its subsidiaries and dependent companies.

8. Final Provisions

This Code shall come into force upon its approval by the Board of Directors of the Company.

**Appendix 2. Regulations for the Accounting Policy of RAO UES of Russia for 2006
(for paragraph 7.4)**

1. General provisions

1.1. These Regulations shall apply to RAO UES of Russia, its branches and other stand-alone subdivisions. The branches based on the specifics of their activity may have the peculiarities of accounting policy approved by order of the head of the branch and serving as a supplement to this accounting policy.

1.2. RAO UES of Russia (hereinafter the "Company") shall organize and maintain accounting records, prepare financial statements in accordance with Federal Law No. 129-FZ "On Accounting" dated November 21, 1996 and any other regulatory documents in the domain of financial accounting.

2. Organization of the accounting and tax function

2.1. Financial and tax accounting records shall be maintained by a function of the Company, the Financial and Tax Accounting Department headed by the manager of the Department, the Chief Accountant of the Company.

2.2. The Financial and Tax Accounting Department of the Company shall carry out the methodological direction of the accounting functions of the branches, representative offices and stand-alone subdivisions.

2.3. The branches, representative offices and stand-alone subdivisions of the Company shall have their own accounting functions, prepare separate balance sheets and other statements.

3. Typical working chart of accounts, workflow rules, technology for the processing of accounting information and preparation of statements

3.1. The accounting policy documents of the Company shall include these regulations, a typical working chart of accounts and workflow schedule (rules).

3.2. The working chart of accounts developed based on a typical working chart of accounts of RAO UES of Russia shall be used for maintaining accounting records. The working chart of accounts of the Company shall be applied in the process of maintenance of accounting records by the functions of the Company, its branches, representative offices and stand-alone subdivisions. The working chart of accounts of the Company shall be prepared in accordance with the Chart of Accounts approved by Decree of the Ministry of Finance of the Russian Federation No. 94n dated October 31, 2000 and with due account for the functionality of the software used by the Company for maintaining accounting records.

3.3. The ledgers of the Company shall be prepared in a format supported by the software on the base of which the Company maintains its accounting records.

3.4. The workflow rules in the Company shall be governed by the workflow schedule for the purposes of maintaining accounting and tax records and preparing statements. The workflow schedule shall set the time limits, procedure and volume of submission of source accounting or any other documents to the Financial and Tax Accounting Department by any other departments, directorates and functions of the Company, its branches, representative offices and stand-alone subdivisions. The time limits and volume of submission of the financial and tax statements of the Company to the appropriate state supervisory bodies shall not be established by the workflow schedule and shall be governed by the applicable law.

3.5. To document business facts the Company shall use the standard forms of source accounting documents established by the State Committee of the Russian Federation on Statistics, the Ministry of Finance of the Russian Federation and any other duly authorized state executive bodies. Documents to which standard forms are not applicable shall be developed by the Company internally.

3.6. The principal rules of maintaining accounting records and documenting business operations shall comply with the Regulations for Accounting and Reporting in the Russian Federation with due consideration of separate sectoral peculiarities adopted and reflected in this document and other directive documents of the Company.

3.7. The annual financial statements of the Company shall be considered and approved by the General Meeting of Shareholders and submitted within the time limits and at the addresses established by Article 15 of Federal Law No. 129-FZ "On Accounting" dated November 21, 1996.

3.8. The financial statements of the Company in accordance with the IFRS shall be prepared based on consolidation tables, i.e. breakdowns developed for each reporting period and completed by the Executive Office, branches, representative offices and stand-alone subdivisions of the Company.

3.9. The annual financial statements of the Company shall be published no later than June 1 of the year following the reporting year.

3.10. The content of accounting and tax ledgers, internal financial accounting forms shall be highly confidential and proprietary. Any individuals granted access to the information contained in these documents shall be obliged to preserve the confidentiality of commercial transactions. They shall be liable for the disclosure thereof as established by the internal orders of the Company and the law of the Russian Federation.

3.11. The right to sign source accounting documents shall be held by the management of the Company in accordance with the directive documents of the Company (orders and powers of attorney). The heads of functions of the Company, branches, representative offices and stand-alone subdivisions shall be entitled to sign source accounting documents under the powers of attorney issued by the Company.

3.12. Any documents on business transactions involving cash flow (through bank accounts or pay office of the organization) shall be signed by the Chairman of the Management Board of the Company and the Chief Accountant as well as the individuals duly authorized by them under powers of attorney.

3.13. Branches, representative offices and other stand-alone subdivisions of the Company which operate in accordance with the expense budget approved by the Company shall submit to the Executive Office on a monthly basis an intracompany report of prior expenses broken down by expense item and type of sources of finance. The head and chief accountant of the subdivision which sign the report shall be liable for the correct preparation of the report. The original source accounting and other documents on business transactions executed by the branches, representative offices and other stand-alone subdivisions shall be recorded and kept at the location of said subdivisions.

3.14. The accounting records for property, liabilities and business transactions shall be maintained in rubles and kopecks.

4. Procedure for taking inventory of property and liabilities

4.1. An inventory of property and liabilities shall be taken in accordance with Article 12 of Federal Law No. 129-FZ "On Accounting" dated November 21, 1996 and the Guidelines for Taking Inventory of Property and Financial Liabilities approved by Decree of the Ministry of Finance of the Russian Federation No. 49 dated June 13, 1995.

4.2. An inventory of property, including the property transferred under lease agreements, shall be taken on site by the branches, functions as well as subsidiaries, dependent and any other companies operating their respective facilities.

4.3. The procedure and time limits for taking the annual inventory of property and liabilities shall be established by order of the Chairman of the Management Board of the Company.

4.4. An inventory of fixed assets shall be taken once every three years in accordance with the order on inventory-taking, unless otherwise provided for by law.

5. Fixed asset accounting

5.1. The Company shall maintain fixed asset accounting records in accordance with AP (Accounting Principles) 6/01 approved by Decree of the Ministry of Finance of Russian Federation No. 26n dated March 30, 2001.

5.2. The fixed assets valued at no more than 10,000 rubles per unit (as well as acquired books, booklets and similar publications not included in the library stock) shall be expensed as launched into production or operation. For the purpose of safeguarding these assets in production or operation the accountable persons from the Executive Office, branches and functions shall exercise control over their movement.

5.3. Fixed assets shall be depreciated using the straight-line method based on the useful life of these assets. For fixed assets recorded in the accounting books prior to January 1, 2002 depreciation shall be accumulated in accordance with Resolution of the Council of Ministers of the USSR No. 1072 "On Unified Norms on Depreciation Charges for Full Restoration of the Fixed Assets of the National Economy of USSR" dated October 22, 1990. For fixed assets recorded in the accounting books as from January 1, 2002 depreciation shall be

accumulated in accordance with Resolution of the Government of the Russian Federation No. 1 "On the Classification of Fixed Assets Included in Depreciation Groups" dated January 1, 2002.

5.4. Expenses in connection with fixed asset write-off in case of accidents, acts of God or in any other emergencies shall be recorded as extraordinary expenses.

5.5. Any fixed assets the rights to which are subject to state registration in accordance with the laws of the Russian Federation and for which capital investments were completed, the appropriate source accounting documents of delivery were executed, documents were submitted for state registration and are actually operated shall be recorded in the accounting books as fixed assets in a separate sub-account of fixed assets account.

For such assets depreciation shall be accumulated on a standard basis as from the first day of the month following the month in which the asset was commissioned.

5.6. Under the Order of the General Manager the Company may on an annual basis revalue the groups of homogenous fixed assets at their current (net book) value through direct recalculation at documented market prices.

6. Intangible asset accounting

6.1. Intangible asset accounting records shall be maintained in accordance with AP (Accounting Principles) 14/2000 approved by Decree of the Ministry of Finance of Russian Federation No. 91n dated October 16, 2000.

6.2. Intangible assets shall be depreciated using the straight-line method based on the useful life of intangible assets. The useful life shall be determined by the Commission of the Executive Office to be approved by order of the Company.

6.3. Intangible asset depreciation shall be recognized in the accounting books through the accumulation of respective amounts in balance sheet account 05 "Intangible Asset Depreciation".

7. Accounting for financial investments

7.1. Financial investment accounting records shall be maintained in accordance with AP (Accounting Principles) 19/02 approved by Decree of the Ministry of Finance of Russian Federation No. 12bn dated October 10, 2002.

7.2. The analytical accounting records of financial investments shall be maintained on an individual basis by type of financial investments and facility in which these investments were made (securities issuing entities, other entities in which the organization participates, borrowing entities, etc). The accounting records of financial investments within a group of related entities with respect to the activity of which consolidated financial statements are prepared shall be maintained in account 58 "Financial Investments" on an isolated basis.

7.3. A unit of financial investment accounting depending on the nature, acquisition and utilization procedure shall be a series or any other homogenous set of financial investments.

7.4. The original value of each unit of financial investment accounting shall apply to the disposal of financial investments the market value of which is undeterminable.

7.5. The valuation of financial investments for which the current market value can be determined in accordance with the established procedure shall be adjusted on an annual basis at the end of the reporting year.

Current market value shall apply to the valuation of debt securities.

7.6. The Company shall establish a reserve against the depreciation of financial investments in the event of sustainable reduction in their value. Reserve shall be formed as of the final date of the reporting year in accordance with the procedure provided for by AP (Accounting Principles) 19/02 and in conformity with the calculation provided by the Department for Corporate Governance and Shareholder Relations.

7.7. Contributions to the charter (share) capitals of other entities shall be recognized as financial investments of the organization and recorded in the accounting books as the equivalent of actual costs incurred by the investor, i.e. at the value of contributed assets at which they were recorded in the balance sheet of the Company.

7.8. Interest (coupon yield, discount) on securities shall be evenly accrued during the period of circulation of debt securities as yield is accrued for them and charged to operating income (expense).

7.9. The value of shares received by the shareholders of newly established entities in the reorganization through a spin-off shall be determined in the accounting records in accordance with the procedure stipulated for tax accounting in paragraph 18.4.6 of the Appendix.

7.10. The discount value of granted loans shall not be calculated by the Company.

7.11. All costs directly associated with the acquisition of assets as financial investments irrespective of their amount shall be included in the original value of financial investments.

8. Inventory accounting

8.1. Inventory accounting records shall be maintained in accordance with AP (Accounting Principles) 5/01 approved by Decree of the Ministry of Finance of Russian Federation No. 44n dated June 9, 2001.

8.2. Inventory launched into production, used for repair operations, capital construction or disposed of in any other manner shall be valued at the production cost of each unit. The production cost of each unit shall include all expenses in connection with the acquisition of inventories.

8.3. Goods purchased shall be recorded in account 41 "Goods" at purchase prices.

8.4. Fittings, tools, fixtures with a useful life of less than one year shall be recognized as inventory in account 10 "Materials".

8.5. The analytical accounting records of materials shall be maintained using cash method of accounting. Contractual prices shall be used as book prices.

8.6. Stock number shall be a unit of inventories.

8.7. Operations related to the procurement and acquisition of material resources shall be recognized in the accounting records without using account 15 "Procurement and Acquisition of Materials" and account 16 "Materials Cost Deviation".

8.8. Transportation and procurement expenses shall be included in the actual production cost of a material.

9. Prepaid expense accounting

9.1. Expenses paid in this reporting period yet used by the Company in its activity during a certain period shall include the following expenses:

- payments in connection with voluntary and mandatory property and employee insurance;
- costs in connection with the acquisition of copies of computer software;
- expenses in connection with the acquisition of licenses to perform certain activities;
- expenses in connection with the leaves of future reporting periods;
- any other expenses meeting the criteria for prepaid expenses.

9.2. Prepaid expenses shall be written off evenly during the period to which they relate. The duration of such period shall be determined as of the date on which prepaid expenses are recorded in the accounting books.

9.3. The life of prepaid expenses for which the useful life is not determined shall be established by the Commission.

9.4. Reserves for the future payment of employee vacation allowance, annual long-service award, year-end bonuses, repair and other reserves for covering any other contingencies shall not be established.

10. Accounting for settlements, other assets and liabilities

10.1. Accounts receivable of buyers shall be recorded in the amount of invoices submitted for payment at reasonable prices and tariffs. Settlements with any other debtors and with respect to claims shall be recognized in accounts and reports based on the prices stipulated in agreements.

Accounts receivable shall be recognized as short-term unless their maturity exceeds 12 months from the reporting date. The remaining accounts receivable shall be recognized as long-term. Said period shall be calculated from the first day of the calendar month following the month in which the asset is recorded in the accounting books.

10.2. The bad debt reserve shall be established once a year under a directive document after the annual inventory-taking prior to the preparation of the annual statements of the entity. The amount of reserve shall be determined on a-case-by-case basis based on the objective information about the solvency of the debtor. The underutilized amount of bad debt reserve shall

be charged to the operating expense of the year following the year in which the bad debt reserve is established.

10.3. The other assets of the Company, its branches, representative offices and stand-alone subdivisions shall be valued at the actual costs as of the date on which they are recorded in the accounting books.

10.4. Accounts payable for credits and loans obtained shall be recorded and recognized in the accounting books inclusive of interest payable at the end of the reporting period.

Accounts payable to suppliers and other creditors shall be recorded and recognized in the accounting books based on the amount of accepted invoices and accrued liabilities.

10.5. Additional expenses directly related to the obtainment of loans and credits, placement of borrowings shall be included in costs in the reporting period in which they are paid.

10.6. The accrual of payable yield (interest, discount) on borrower's liabilities shall be recognized in the reporting periods to which these accruals relate according to the executed agreements.

10.7. The accounting records of operations related to the issuance of bonds shall be maintained in account 67 "Settlements for Long-Term Credits and Loans".

10.8. The debt owed by the entity to its lenders secured by own promissory notes issued shall be recorded in account 66 "Settlements for Short-Term Credits and Loans" (short-term) and in account 67 "Settlements for Long-Term Credits and Loans" (long-term).

10.9. Long-term accounts payable for credits and loans obtained shall not be transformed into short-term accounts even if in accordance with the terms and conditions of the loan and/or credit agreement 365 days are left until the repayment of the principal amount of debt.

10.10. In case of issuance of a promissory note to obtain a cash loan and payment for goods, work and services using a promissory note the amount of interest or discount payable to the promise shall be included by the promisor in operating expense evenly (on a monthly basis) using account 97 "Prepaid Expenses".

10.11. The consolidated (grouped) amount of deferred tax assets and deferred tax liability shall be recorded in the financial statements.

11. Financial performance accounting

11.1. Financial performance accounting records shall be maintained on a separate basis for the following activities:

- Services related to ensuring the functioning and development of the Unified Energy System of Russia;
- Property lease;
- Other activities.

11.2. Income from ordinary activities shall include earnings from the provision of services related to ensuring the functioning and development of the Unified Energy System of

Russia at the transmission fee (tariff) approved by the state regulatory bodies, rent, other activities.

Other activities income from which is recorded in account 90 "Sales" may include activities stipulated in the Charter income from which is received on a regular basis.

11.3. Operating income means any proceeds related to participation in the authorized capital of other entities; proceeds from the sale of fixed and other assets; profit received under partnership agreements and other proceeds as specified in paragraph 7 of AP 9/99.

11.4. Non-operating income shall include penalties, fines and late charges for breaching contractual relationship; free receipt of assets; profit of prior years; amounts of statute-barred accounts payable and accounts receivable; exchange rate differences and other non-operating income as specified in paragraph 8 of AP 9/99.

11.5. Sale revenue and the actual value of assets prior to recording the facility in the accounting books, respectively, shall be adjusted for the sum differences which occurred in the current reporting year from the sale of products, goods, work and services and the procurement of fixed assets, inventories and other assets.

11.6. The sum differences which occurred in the current reporting year from income and expense of prior years shall be recognized in account "Profit (Loss) of Prior Years Identified in the Reporting Period".

11.7. General and administrative expenses shall be recorded by the Company in account 26 "General Expenses". These expenses shall be fully charged to the production cost of goods and services sold in the reporting period and recognized in account 90 "Sales". The expenses of intersystem power grids, Energonadzor regional representative offices from ordinary activities shall be fully production-related, exclude any administrative expenses and shall be recognized in account 20 "Core Operations".

11.8. Indirect expenses shall be allocated in proportion to earnings by activity.

11.9. Expenses in connection with the repair of fixed assets shall be included in the production cost of products as repair proceeds.

11.10. Income and expense shall be recognized in the accounting books based on the accrual principle assumption, suggesting the recognition in the accounting books of the Company's business facts in the reporting period in which they occurred irrespective of the actual time of receipt or payment of funds related to these facts.

11.11. Income and expense forming the financial performance and denominated in foreign currency shall be recalculated into rubles at the rate of the Central bank of the Russian Federation on the date of execution of the transaction.

11.12. The value of currency notes in pay office and cash in accounts with lending institutions denominated in foreign currency shall be recalculated on the date of execution of the transaction and the date of preparation of financial statements.

11.13. The use of net income of the entity shall be approved by the General Meeting of Shareholders. The composition and purpose of funds established using net income shall be determined by the documents of incorporation of the Company.

11.14. Expenses in connection with social consumption – recreation activities, social asset funding, pension supplements and other similar expenses – shall be recorded in account 91 "Other income and expense" and included in non-operating expenses.

11.15. The property tax for the Company shall be recorded in account 26 "General Expenses".

12. Accounting for expenses in connection with research, development and engineering.

12.1. The accounting records of expenses in connection with research, development and engineering shall be maintained in accordance with AP (Accounting Principles) 17/02 approved by Decree of the Ministry of Finance of Russian Federation No. 115n dated November 19, 2002.

12.2. Expenses in connection with research, development and engineering operations the results of which are used for the production of goods (performance of work, provision of services) or for administrative needs shall be recorded in account 04 "Intangible Assets" in correspondence with the credit of account 08 "Investments in Non-Current Assets".

12.3. Analytical accounting records shall be maintained for each inventory: any research, development or engineering operation performed the results of which are independently used in production.

12.4. Expenses in connection with each R&D asset shall be written off using the straight-line method.

12.5. The depreciable life of expenses in connection with R&D assets which produced a positive result shall be determined by the commissions of the Company and its branches based on the expected useful life of R&D during which the Company shall gain economic benefits (income), yet no more than five years.

13. Segment-by-segment information

13.1. In accordance with AP 12/2000 approved by Decree of the Ministry of Finance of the Russian Federation No. 11n dated January 27, 2000 the Company shall disclose in its annual financial statements information by operating and geographic segment. Primary segment-by-segment information shall be the information broken down by operating segment, secondary information shall be broken down by geographic segments (asset locations).

13.2. Operating segments shall include: (1) electricity transmission; (2) lease; (3) other activities. The following information shall be disclosed by operating segments:

13.2.1. Revenue from sales to external buyers:

- for segment (1) revenue shall be transmission fee;
- for segment (2) revenue shall be lease income;
- for segment (3) revenue shall be other sales income.

13.2.2. Financial performance shall be determined as sales revenue net of production cost and selling expenses:

- for segment (1) financial performance shall be equal to the revenue of the segment net of electricity transmission cost (including depreciation) recognized in the Income Statement;
- for segment (2) financial performance shall be equal to the revenue of the segment net of lease costs (including leased property depreciation);
- for segment (3) financial performance shall be equal to the revenue of the segment net of other costs recognized in the Income Statement;
- the general expenses of the entity shall not be broken down by segment.

13.2.3. Total book value:

- the assets of the segment (1) shall be fixed assets and construction-in-progress assets recognized on the balance sheet of RAO UES of Russia with the exception of those included in segment (2), accounts receivable for transmission fee;
- the assets of the segment (2) shall be the value of fixed assets and construction-in-progress assets of leased power plants, accounts receivable for lease;
- the assets of the segment (3) shall be accounts receivable for other sales;
- the amount of long-term and short-term financial investments of the entity shall not be allocated among operating segments;
- the amount of other unallocated assets shall be allocated among selected operating segments in proportion to the segments' revenue.

13.2.4. Total liabilities:

VAT (on unpaid products) shall be allocated among selected operating segments in proportion to the accounts receivable of the segment;

turnover taxes and other liabilities shall be allocated among selected operating segments in proportion to the segment's revenue.

13.2.5. Total capital investments in fixed assets and intangible assets:

- for segment (1): capital construction, with the exception of construction included in segment (2);
- for segment (2): capital construction at leased power plants.

13.2.6. Total depreciation of fixed assets and intangible assets:

for segment (1): depreciation of fixed assets and intangible assets, with the exception of depreciation included in segment (2);

- for segment (2): depreciation of leased fixed assets.

13.3. Geographic segment shall include: (1) the Company; (2) the Center; (3) the North-West; (4) the Urals; (5) Siberia; (6) mid-Volga Region; (7) the East; (8) the South. The following information shall be disclosed by geographic segment:

13.3.1. Revenue from sales to external buyers shall be broken down by geographic segments in accordance with the following procedure:

- transmission fee, income from fixed asset lease shall be broken down by power system location;
- other expenses shall be broken down by location of subdivisions;
- unallocated income shall relate to the RAO UES of Russia segment.

13.3.2. The book value of assets shall be broken down by geographic segment in accordance with the following procedure:

- the assets of subdivisions shall be distributed by location of subdivisions;
- the assets of the Executive Office shall be allocated in accordance with the following procedure:
 - accounts receivable for transmission fee and lease shall relate to the locations of power systems;
 - long-term investments shall be broken down by geographic segment by location of entities in which investments were made;
 - other assets unallocated above, including cash and other short-term assets, shall relate to the RAO UES of Russia segment.

13.3.3. The amount of capital investments in fixed assets and intangible assets shall be broken down by geographic segment in accordance with the following procedure:

- investments in non-current assets transferred to the Executive Office or occurring in subdivisions by location of subdivisions.
- investments in the non-current assets of leased power plants by location of power plants.

14. Post balance sheet events

14.1. In accordance with AP 7/98 approved by Decree of the Ministry of Finance of the Russian Federation No. 56n dated November 25, 1998 the Company shall record in the financial statements any post balance sheet events which had or may have an impact on the financial condition, cash flow or performance of the entity and took place during the period between the reporting date and the date on which the financial statements for the reporting period are signed.

14.2. Post balance sheet events shall be reported in the financial statements through the revision of data on respective assets, liabilities, capital, income and expense of the Entity accompanied by the disclosure of respective information in the explanatory note.

14.3. For the monetary evaluation of the consequences of a post balance sheet event the respective calculation shall be made and the confirmation of such calculation shall be ensured. The calculation shall be made by the Department (function) to which the event related in accordance with the functions performed.

15. Contingent business facts

15.1. In accordance with AP 8/01 approved by Decree of the Ministry of Finance of the Russian Federation No. 96n dated November 28, 2001 the financial statements of the Company shall report contingent business facts in relation to the consequences and future probability of which uncertainty occurs.

15.2. Contingent liabilities (losses) shall be recognized through the accrual of reserve in the synthetic and analytical accounting records as closing turnover of the reporting period prior to the approval of the annual accounting report. Contingent assets shall not be recognized in the accounting books and information thereon shall be disclosed in the explanatory note. Information of contingent facts shall be disclosed in the statements based on the calculation prepared by the Department (function) to which the event related in accordance with the functions performed.

16. Information concerning discontinued operations

16.1. The information concerning discontinued operations, in particular as a result of the reorganization of entities (in the event of demerger, spin-off), shall be disclosed in the financial statements in accordance with AP 16/02 approved by Decree of the Ministry of Finance of the Russian Federation No. 66n dated July 2, 2002.

17. Information concerning affiliates

17.1. The Company shall include information concerning its affiliates as a separate section of the explanatory note made part of the financial statements. Said data shall not apply to the preparation of statements for internal purposes as well as statements prepared for state statistical observation and for a lending institution or for any other special purposes.

17.2. In the preparation of consolidated financial statements for the Group as a whole information concerning operations between the parent company and its subsidiaries or among the subsidiaries shall not be disclosed.

17.3. The list of affiliates information about which is disclosed in the financial statements shall be independently prepared by the Company.

18. Tax accounting

18.1. Organizing tax accounting

18.1.1. The Company shall calculate and pay taxes and levies in accordance with the laws of the Russian Federation on taxes and levies, the law of the constituent entities of the Russian Federation on taxes and levies, the regulations of local governments on taxes and levies.

18.1.2. The Financial and Tax Accounting Department based on source documents and data provided by other Departments or stand-alone subdivisions (branches and functions) of the Company shall form the tax base, maintain tax ledgers (forms), prepare tax reports on taxes and levies in respect of taxes and levies paid by the Executive Office on a centralized basis.

18.1.3. The Financial and Tax Accounting Department shall calculate and prepare reports on the individual income tax, unified social tax, mandatory industrial accident and occupational illness insurance contributions paid by the Executive Office.

With regard to taxes and levies of the constituent entities of the Russian Federation and local taxes and levies calculated and paid by the stand-alone subdivisions of the Company at their location the tax base shall be formed and tax reports shall be prepared directly by the respective stand-alone subdivisions.

18.1.4. Tax report preparation procedure, tax ledger forms and maintenance procedure, tax base formation procedure, the calculation and payment of taxes and levies shall be governed by these Regulations for the Accounting Policy as well the internal documents of the Company on the procedure for the calculation and payment of individual taxes and levies. Tax ledgers shall be kept electronically as special forms and stored as hard copies.

18.1.5 The tax portion of the accounting policy of the Company shall be amended in case of alteration of the accounting procedure for separate business operations and/or facilities for tax purposes in the event of changes to legislation or applicable accounting methods.

18.1.6. The tax portion of the accounting policy shall be binding upon the branches and stand-alone subdivisions of the Company.

18.1.7. An inventory of liabilities related to tax and levy settlements shall be taken and debt reconciliation with tax authorities shall be performed by the Executive Office and stand-

alone subdivisions of the Company, respectively, with regard to payments at the location of fulfillment of taxpayer obligations.

18.2. Liability for maintaining tax accounting records and preparing tax reports.

18.2.1. Liability for the correct calculation of the taxes and levies calculated and paid by the Executive Office shall be borne by the Head of the Financial and Tax Accounting Department, the Chief Accountant of the Company.

Liability for the correct calculation of the taxes and levies calculated and paid by the stand-alone subdivisions of the Company shall be borne by the heads of respective stand-alone subdivisions.

Liability for the correct calculation of the individual income tax, unified social tax, mandatory industrial accident and occupational illness insurance contributions calculated and paid by the Executive Office shall be borne by the Head of the Financial and Tax Accounting Department (Chief Accountant) of the Company.

18.2.2. To ensure the correct and complete formation of tax bases for all taxes and levies the functions of the Executive Office, branches and stand-alone subdivisions shall submit the necessary information within the time limits established by the workflow schedule in the forms and volumes approved by separate internal directive documents.

18.3. Budget settlements

18.3.1. The accounting records of settlements for taxes and levies shall be maintained in accounts on an accrual basis separately for each tax and levy by budget levels (federal, budget of the constituent entity of the Russian Federation, local budget) and by type of debt (principal amount of tax or levy in arrears, penalties, fines, the restructured amount of tax or levy in arrears, penalties, fines).

18.3.2. For taxes and levies paid by the Executive Office on a centralized basis to the budgets at the location of stand-alone subdivisions the accounting records of settlements shall be maintained by the Executive Office and broken down by respective stand-alone subdivisions, budget levels and types of debt.

18.4. Income tax accounting

The Company shall apply a unified organization system, methods and forms of tax accounting for income tax purposes under Chapter 25 of the Tax Code of the Russian Federation and this accounting policy for tax purposes.

The Company shall calculate its tax base for each closed reporting (tax) year based on tax reporting data if Chapter 25 of the Tax Code of the Russian Federation envisions any procedure for grouping and recording assets and business transactions for tax purposes different from the procedure for grouping and recording in the accounting records.

The Company shall permit the revision and expansion of principles, procedures and forms of tax accounting set forth in this accounting policy for tax purposes during the tax period through the inclusion of additional analytical data, registers and principles of generalization of information, which is expected to contribute to a more correct disclosure of the tax base formation.

Source documents for tax accounting purposes shall be source financial accounting documents transformed into tax ledgers based on which the tax base is calculated.

18.4.1. Fixed assets and intangible assets

Depreciable property shall be any property with a useful life of more than 12 months and original value exceeding 10,000 rubles.

For tax purposes it shall be ensured that accounting for costs included in the original value of depreciable assets in the financial and tax accounting records and costs not involved in forming the original value of depreciable is maintained separately in accordance with tax accounting rules with respect to:

- interest on borrowings;
- payment for the registration of rights to immovable property and land, transactions involving said facilities, payments for the provision of information on registered rights, payment for the services of duly authorized bodies and specialized organizations related to the appraisal of property, preparation of land and registration and maintenance documents (inventory-taking) of real property (to be included in other production and sale-related expenses);
- exchanges rate and sum differences.

The useful life of fixed assets shall be determined independently as of the date of commissioning of this facility in accordance with the classification of fixed assets established by Resolution of the Government of the Russian Federation No. 1 "On the Classification of Fixed Assets Included in Depreciation Groups" dated January 1, 2002.

For any types of fixed assets not specified in depreciation groups in accordance with Resolution of the Government of the Russian Federation No. 1 "On the Classification of Fixed Assets Included in Depreciation Groups" dated January 1, 2002 the useful life shall be established in accordance with the specifications or recommendations of producers.

The useful life of any previously used fixed assets acquired shall be reduced by the number of years (months) of operation of this property by its previous owners. If the actual useful life of acquired fixed assets when operated by its previous owners equals or exceeds its useful life determined by the classification of fixed assets approved by the Government of the Russian Federation the useful life shall be determined independently based on safety requirements and other factors.

In the event that as of the disposal of a fixed asset the asset's actual useful life exceeds its depreciable life the loss on disposal of such fixed assets shall be included in other expenses on a non-recurrent basis immediately from the moment of disposal of such asset.

The straight-line method of depreciation shall apply to all fixed assets based on the norms calculated relying on useful lives in accordance with Article 259 of the Tax Code of the Russian Federation and Resolution of the Government of the Russian Federation No. 1 "On the Classification of Fixed Assets Included in Depreciation Groups" dated January 1, 2002.

A special coefficient – 3 – shall apply to the basic depreciation rate for depreciable fixed assets which are a subject matter of any financial lease agreement (lease agreement).

Depreciable assets shall also include capital investments in leased fixed assets in the form of non-removable improvements made by the lessee with the consent of the lessor.

Capital investments in the leased fixed assets specified in paragraph one of sub-article 1 of Article 256 of Chapter 25 of the Tax Code of the Russian Federation shall be depreciated in accordance with the following procedure:

capital investments the value of which is paid to the lessee by the lessor shall be depreciated by the lessor in accordance with the procedure established by Article 25 of the Tax Code of the Russian Federation;

capital investments made by the lessee with the consent of the lessor the value of which is not paid by the lessor shall be depreciated by the lessee during the effective period of the lease agreement based on depreciation amounts calculated with due account for the useful life determined for leased assets in accordance with the Classification of Fixed Assets approved by the Government of the Russian Federation.

In the event that after any rehabilitation, upgrading or technical re-equipment of any fixed asset its useful life was increased, the useful life shall increase under the directive documents of the Company within the time limits established for the group in which such fixed asset was included earlier.

The useful life of intangible assets shall be determined based on the term of a patent, certificate or any other limitations on the useful life of intellectual property in accordance with the laws of the Russian Federation or the applicable law of any foreign country and based on the useful life of the intangible assets specified in the respective agreements.

The depreciation rate for intangible assets the useful life of which can not be determined shall be established for a period of ten years (yet no more than the period of activity of the taxpayer).

The straight-line method of depreciation shall apply to all intangible assets.

18.4.2. Tax accounting for production and sale-related expenses.

Production-related expenses shall be divided into direct and indirect.

Direct expenses shall include:

- operating costs determined in accordance with subparagraphs 1 and 4 of paragraph 1 of Article 254 of the Tax Code of the Russian Federation;
- expenses in connection with compensation for the personnel involved in the process of production of goods, performance of work, provision of services and the amount of unified social tax; expenses in connection with mandatory pension insurance used for financing the insurance and funded portions of the labor pension charged to said amounts of compensation expenses, the mandatory industrial accident and occupational illness insurance contributions charged to said amounts of compensation expenses;
- depreciation of fixed assets used in the production of goods (work, services).

The Company shall include in the expenses of the reporting (tax) period any expenses associated with capital investments in an amount not exceeding 10 percent of the original value of fixed assets (with the exception of fixed assets received free of charge) and/or any expenses incurred in the event of the completion, retrofit, upgrading, technical re-equipment, partial liquidation of fixed assets the amounts of which are determined in accordance with Article 257 of this Code.

The valuation method based on the value of a unit of inventory shall apply to the determination of the amount of operating expenses associated with the write-off of all types of inventories used in the production of goods, performance of work, provision of services. The date of payment of said expenses shall be the date of their launch into production.

The value of inventories in the form of surpluses identified during the inventory-taking and/or the property received as a result of the dismantling or demolition of decommissioned fixed assets shall be determined as the amount of tax imposed on income in the form of the value of materials or any other property received as a result of the dismantling or demolition during the liquidation of decommissioned fixed assets, in the form of the value of surpluses of inventories and other property identified as a result of inventory-taking.

Compensation expenses shall be considered for tax purposes, with the exception of the amount of contributions under mandatory and voluntary insurance contracts executed in favor of employees based on financial accounting data. The amount of said contributions accepted for tax purposes shall be calculated in tax ledgers.

The reserve for future expenses in connection with the payment of employee vacation allowance, annual long-service award and year-end bonuses shall not be established.

All production and sale-related expenses not included in direct expenses shall be deemed indirect, with the exception of expenses recognized as non-operating in accordance with Article 265 of the Tax Code of the Russian Federation.

Expenses in connection with the repair of fixed assets shall be recognized for tax purposes in the actual costs for the reporting (tax) period in which they were paid. Expenses in connection with the repair of fixed assets shall be recorded based on data recognized in the accounting records.

Direct expenses shall be fully charged in the current month to services rendered.

In the event of sale or any other disposal of securities the expensed value of securities sold shall be determined based on the production cost of a unit.

For tax purposes the accounting records of income and expense associated with the service sector (housing and public utilities and social and cultural assets) shall be maintained separately in accordance with Article 275.1 of the Tax Code of the Russian Federation.

When income is received during several reporting (tax) periods and connection between income and expense may not be determined with certainty or is determined indirectly expense shall be allocated with due consideration of the principle of even recognition of income and expense. Expense related not only to the income of the reporting period but also to future income (expense in connection with the acquisition of rights to use computer software and databases, etc) shall be allocated between the reporting and future periods. Such allocation shall typically be made in accordance with the procedure applied for financial accounting purposes.

18.4.3. Tax accounting for income and expense from sales.

Income from the sale of goods (work, services) shall be recognized by type of activity.

Income from the sale of goods (work, services) shall be recognized as of the day of transfer of the product ownership right to buyers, the results of work performed or fee-based provision of services to customers determined in accordance with the terms and conditions of executed agreements.

In the event of sale of goods through a commissioner income from sales shall be recognized as of the date of sale specified in the commissioner's (agent's) notice of sale and/or the commissioner's (agent's) report.

For tax purposes income from the sale of fixed assets and other property (with the exception of securities) shall be recognized based on financial accounting data net of the amounts of tax imposed on buyers and sum differences.

Regular income from property lease recognized in the accounting records and financial statements as sales revenue in line 010 of the Income Statement shall be recognized for tax purposes as income from sale. Expense related to the lease of the respective property shall be recognized for tax purposes as production and sale-related expenses.

Property lease income shall be recognized in the tax accounting records as amounts payable for the reporting (tax) period in accordance with the terms and conditions of executed agreements with due consideration of the principle of even and proportionate formation of income and expense. Said income shall be recognized in the tax accounting records as of the day of their recording in the accounting books, yet no later than the last date of the month to which they relate.

Expense in the form of rental (lease) payments for rented (leased) property, any other similar expense shall be recognized in the tax accounting records as of the date of execution of the certificates of acceptance of rendered services and unless the agreement provides for the preparation of said certificates as of the date of issued invoices with due consideration of the principle of even and proportionate formation of income and expense. Capital investments in the leased fixed assets specified in paragraph one of sub-article 1 of Article 256 of Chapter 25 of the

Tax Code of the Russian Federation shall be depreciated in accordance with the following procedure:

capital investments the value of which is paid to the lessee by the lessor shall be depreciated by the lessor in accordance with the procedure established by Article 25 of the Tax Code of the Russian Federation;

capital investments made by the lessee with the consent of the lessor the value of which is not paid by the lessor shall be depreciated by the lessee during the effective period of the lease agreement based on depreciation amounts calculated with due account for the useful life determined for leased assets in accordance with the Classification of Fixed Assets approved by the Government of the Russian Federation.

In the event that after any rehabilitation, upgrading or technical re-equipment of any fixed asset its useful life was increased, the useful life shall increase under the directive documents of the Company within the time limits established for the group in which such fixed asset was included earlier.

The useful life of intangible assets shall be determined based on the term of a patent, certificate or any other limitations on the useful life of intellectual property in accordance with the laws of the Russian Federation or the applicable law of any foreign country and based on the useful life of the intangible assets specified in the respective agreements.

The depreciation rate for intangible assets the useful life of which can not be determined shall be established for a period of ten years (yet no more than the period of activity of the taxpayer).

The straight-line method of depreciation shall apply to all intangible assets.

18.4.2. Tax accounting for production and sale-related expenses.

Production-related expenses shall be divided into direct and indirect.

Direct expenses shall include:

- operating costs determined in accordance with subparagraphs 1 and 4 of paragraph 1 of Article 254 of the Tax Code of the Russian Federation;
- expenses in connection with compensation for the personnel involved in the process of production of goods, performance of work, provision of services and the amount of unified social tax; expenses in connection with mandatory pension insurance used for financing the insurance and funded portions of the labor pension charged to said amounts of compensation expenses, the mandatory industrial accident and occupational illness insurance contributions charged to said amounts of compensation expenses;
- depreciation of fixed assets used in the production of goods (work, services).

The Company shall include in the expenses of the reporting (tax) period any expenses associated with capital investments in an amount not exceeding 10 percent of the original value of fixed assets (with the exception of fixed assets received free of charge) and/or any expenses incurred in the event of the completion, retrofit, upgrading, *technical re-equipment*, partial liquidation of fixed assets the amounts of which are determined in accordance with Article 257 of this Code.

The valuation method based on the value of a unit of inventory shall apply to the determination of the amount of operating expenses associated with the write-off of all types of inventories used in the production of goods, performance of work, provision of services. The date of payment of said expenses shall be the date of their launch into production.

The value of inventories in the form of surpluses identified during the inventory-taking and/or the property received as a result of the dismantling or demolition of decommissioned fixed assets shall be determined as the amount of tax imposed on income in the form of the value of materials or any other property received as a result of the dismantling or demolition during the

liquidation of decommissioned fixed assets, in the form of the value of surpluses of inventories and other property identified as a result of inventory-taking.

Compensation expenses shall be considered for tax purposes, with the exception of the amount of contributions under mandatory and voluntary insurance contracts executed in favor of employees based on financial accounting data. The amount of said contributions accepted for tax purposes shall be calculated in tax ledgers.

The reserve for future expenses in connection with the payment of employee vacation allowance, annual long-service award and year-end bonuses shall not be established.

All production and sale-related expenses not included in direct expenses shall be deemed indirect, with the exception of expenses recognized as non-operating in accordance with Article 265 of the Tax Code of the Russian Federation.

Expenses in connection with the repair of fixed assets shall be recognized for tax purposes in the actual costs for the reporting (tax) period in which they were paid. Expenses in connection with the repair of fixed assets shall be recorded based on data recognized in the accounting records.

Direct expenses shall be fully charged in the current month to services rendered.

In the event of sale or any other disposal of securities the expensed value of securities sold shall be determined based on the production cost of a unit.

For tax purposes the accounting records of income and expense associated with the service sector (housing and public utilities and social and cultural assets) shall be maintained separately in accordance with Article 275.1 of the Tax Code of the Russian Federation.

When income is received during several reporting (tax) periods and connection between income and expense may not be determined with certainty or is determined indirectly expense shall be allocated with due consideration of the principle of even recognition of income and expense. Expense related not only to the income of the reporting period but also to future income (expense in connection with the acquisition of rights to use computer software and databases, etc) shall be allocated between the reporting and future periods. Such allocation shall typically be made in accordance with the procedure applied for financial accounting purposes.

18.4.3. Tax accounting for income and expense from sales.

Income from the sale of goods (work, services) shall be recognized by type of activity.

Income from the sale of goods (work, services) shall be recognized as of the day of transfer of the product ownership right to buyers, the results of work performed or fee-based provision of services to customers determined in accordance with the terms and conditions of executed agreements.

In the event of sale of goods through a commissioner income from sales shall be recognized as of the date of sale specified in the commissioner's (agent's) notice of sale and/or the commissioner's (agent's) report.

For tax purposes income from the sale of fixed assets and other property (with the exception of securities) shall be recognized based on financial accounting data net of the amounts of tax imposed on buyers and sum differences.

Regular income from property lease recognized in the accounting records and financial statements as sales revenue in line 010 of the Income Statement shall be recognized for tax purposes as income from sale. Expense related to the lease of the respective property shall be recognized for tax purposes as production and sale-related expenses.

Property lease income shall be recognized in the tax accounting records as amounts payable for the reporting (tax) period in accordance with the terms and conditions of executed agreements with due consideration of the principle of even and proportionate formation of income and expense. Said income shall be recognized in the tax accounting records as of the day

of their recording in the accounting books, yet no later than the last date of the month to which they relate.

Expense in the form of rental (lease) payments for rented (leased) property, any other similar expense shall be recognized in the tax accounting records as of the date of execution of the certificates of acceptance of rendered services and unless the agreement provides for the preparation of said certificates as of the date of issued invoices with due consideration of the principle of even and proportionate formation of income and expense.

18.4.4. Tax accounting for non-operating income and expense

For tax purposes exchange rate differences shall be considered calculated in accordance with accounting rules and recognized in ledgers with due account for the provisions of paragraph 11 of Article 250 and paragraph 5 of Article 265 of the Tax Code of the Russian Federation.

Income and expense from the purchase and sale of foreign currency shall be considered for tax purposes based on financial accounting data.

For tax purposes a bad debt reserve shall be established at the end of reporting (tax) period in accordance with paragraph 4 of Article 266 of the Tax Code of the Russian Federation.

For tax purposes expense in the form of interest on loans and under any other similar agreements (including interest and sum differences with respect to commitments expressed in conventional units at the rate of conventional monetary units agreed upon by and between the parties) shall be considered within the refinancing rate of the Central Bank of the Russian Federation increased 1.1 times in the execution of debt obligation in rubles and equal to 15 percent for debt obligations in foreign currency.

18.4.5. Procedure for income tax calculation

The Company shall calculate and make quarterly advance payments and make monthly advance payments amounting to one-third of the actual payment for the actually received income for the quarter preceding the quarter in which advance payments are made in accordance with the procedure provided for by Articles 286 and 287 of the Tax Code of the Russian Federation.

Advance payments and tax amounts to be credited to the revenue side of budgets of the constituent entities of the Russian Federation and the budgets of municipalities shall be paid at the location of the Company and each of its stand-alone subdivisions based on the profit share for which these stand-alone subdivisions account determined as an arithmetic mean of the percentage of the average payroll headcount and the percentage of the net book value of depreciable property of this stand-alone subdivision, respectively, in the average payroll headcount and the net book value of depreciable property of the Company.

18.4.6. Procedure for determination of stock value in the event of reorganization through demerger or spin-off.

In the event of reorganization through demerger or spin-off including the conversion or distribution of shares of newly established entities among the shareholders of any newly established entity the overall value of shares in each established entity and reorganized entity received by the shareholder as a result of reorganization shall be equal to the value of shares in the entity being reorganized owned by the shareholder determined based on tax accounting data of the shareholder.

The value of shares in each newly established and reorganized entity received by the shareholder as a result of reorganization shall be determined in accordance with the following procedure.

The value of shares in each newly established entity shall be equal to a portion of the value of shares in an entity being reorganized owned by the shareholder proportional to the ratio of the value of net assets of an established entity to the value of net assets of the entity being reorganized.

The value of shares in an entity being reorganized (reorganized upon completion of reorganization) owned by the shareholder shall be determined as a difference between the acquisition value of shares in the entity being reorganized and the value of shares in all newly established entities owned by this shareholder.

The value of net assets of an entity being reorganized and newly established entities shall be determined based on the data from the separation balance sheet as of the date of its approval by the shareholders in accordance with the established procedure.

18.5 Value added tax

The tax base shall be determined as of the earliest of the following dates:

- 1) the day of shipment (transfer) of goods (work, services), property rights;
- 2) the day of payment, partial payment for the future delivery of goods (performance of work, provision of services), transfer of property rights.

For the assignment by the new creditor which received a monetary claim and the transfer of property rights or the acquisition of a monetary claim it shall be the day of assignment of the claim, termination of the respective obligation or the day of fulfillment of the obligation by the debtor; in the event of transfer of rights related to the agreement execution right and lease rights it shall be the day of transfer of such rights.

18.5.1. Maintenance of separate accounting for production and sales costs

RAO UESR shall ensure the maintenance of costs in connection with the production and sale of:

- taxable and non-taxable (tax-exempt) goods (work, services);
- goods (work, services) to which various tax rates are applicable by statute;

The amounts of VAT on purchased goods (work, services) used only for the production and/or sale of goods (work, services) exempt from VAT shall be recognized as the value of such purchased goods (work, services). The tax amounts imposed by the sellers of goods (work, services) used for the production and/or sale of both taxable goods (work, services) and non-taxable goods (work, services) shall be allocated in proportion to the volume of revenue, respectively, from the sale of taxable and non-taxable goods (work, services) in the total volume of revenue from the sale of goods (work, services). The VAT amounts imposed by the sellers of goods (work, services) used for the production and/or sale of VAT-exempt goods (work, services) shall be recorded in a separate sub-account of account 19 "Input VAT".

The amount of VAT on goods (work, services) used for the production and/or sale of such VAT-taxable and non-taxable goods (work, services) corresponding to the percentage of revenue from the sale of VAT-exempt goods (work, services) shall be non-refundable and shall be recognized as the production cost of purchased goods (work, services).

This provision shall not apply to the tax periods in which the percentage of total expenses in connection with the production of non-taxable goods (work, services) does not exceed 5 percent (in monetary value) of total production expenses. All amounts of tax imposed by the sellers of said goods (work, services) in such tax period shall be refunded in accordance with the established procedure.

18.5.2. Procedure for the preparation and execution of invoices, purchase ledger, sales ledger

Invoices, registers of received and issued invoices, purchase ledger and sales ledger shall be stored directly in the place where invoices issued to the buyers and received from the suppliers are recorded, i.e., respectively, at the location of the Executive Office or stand-alone subdivisions of the Company. For the execution of the unified purchase ledger and sale ledger of the Company stand-alone subdivisions shall submit to the Executive Office copies of purchase ledgers and sales ledgers for each reporting tax period certified by the general manager and chief accountant.

Invoices prepared by the Executive Office of the Company and stand-alone subdivisions shall be numbered in ascending order both by the Executive Office and each stand-alone subdivision. The number of invoices issued to the buyers and recorded in the accounting books at the location of the Executive Office shall be a combination consisting of the following segments separated from each other by a hyphen:

- current year of preparation of an invoice;
- current month of preparation of an invoice;
- current date of preparation of an invoice;
- unique number automatically assigned by a software system.

18.6. Property tax

Tax accounting for the calculation of property tax shall be maintained on a centralized basis under Chapter 30 of the Tax Code "Corporate Property Tax" and the law of the constituent entity of the Russian Federation which determines the tax rate, the period of tax payment, the form of reporting and may contain additional tax credits and grounds for using them.

The Executive Office of the Company shall form the tax base and file property tax returns at the location of the entity, its stand-alone functions which maintain a separate balance sheet and the real property located outside the entity and its stand-alone functions which maintain a separate balance sheet based on data on movable and immovable property recorded on the balance sheet as fixed assets.

For the calculation of property tax the stand-alone functions shall submit data to the Executive Office of the Company in the form of an accounting set within the time limits established by the workflow schedule.

For the purposes of correct application of tax credits the separate accounting records of property for which credits are allowed shall be maintained in accordance with the applicable property tax law.

18.7. Unified social tax (UST)

The calculation of UST and tax accounting in respect of paid income and the unified social tax shall be performed by the Executive Office of the Company, its branches and stand-alone functions of RAO UESR.

The Executive Office of the Company shall calculate and pay UST and file with the tax authorities tax reports in respect of payments related to the Executive Office.

The branches and stand-alone functions of the Company shall calculate and pay UST and file with the territorial tax authorities tax reports in respect of payments related to these branches.

18.8. Other taxes

The calculation and payment of water tax, individual income tax, land tax, transport tax and any other taxes shall be made in accordance with the law on taxes and levies.

19. Amendment of accounting policy

19.1. The accounting policy of the Company may be amended in the instances of amendment of the law of the Russian Federation or financial and tax accounting regulations.

19.2. The amendment of the accounting policy shall be reasonable and fixed in the appropriate organizational and directive documents (order) of the Company.

Approved by the Annual General Meeting of
Shareholders of RAO UES of Russia
June 28, 2006

Amendments to the Charter of RAO UES of Russia.

Subparagraph 7 of paragraph 11.1 shall be amended by striking "quarterly reports of the issue-grade securities issuer".

Subparagraph 23 of paragraph 11.1 shall be amended by inserting subparagraph "m" which shall read as follows (by renaming subparagraphs "m" and "n" of subparagraph 23 of paragraph 11.1 in the current version as "n" and "o", respectively):

"m) decide on entering into transactions by a SDCs (including several associated transactions) in relation to the disposal or a possibility of disposal of the property that constitutes fixed assets, intangible assets, and construction-in-progress not intended for the production, transmission, dispatching, or distribution of electricity and heat;"

The last subparagraph of subparagraph 23 of paragraph 11.1 shall read as follows:

"The Board of Directors of the Company shall adopt decisions on issues provided for in subparagraphs "i," "k," "l," "m," and "n" of subparagraph 11.1.23 in the cases (to the extent) defined by the procedure for the Company's interaction with business companies whose shares and equities are held by the Company as approved by the Board of Directors of the Company in accordance with subparagraph 11.1.22 of this Charter."

Paragraph 11.1 shall be amended by inserting subparagraph 27 which shall read as follows (by renumbering subparagraphs 27 and 28 of paragraph 11.1 in the current version as 28 and 29, respectively):

"27) approve decisions on the Company entering into transactions (including several associated transactions) in relation to the disposal or a possibility of disposal of the property that constitutes fixed assets, intangible assets, and construction-in-progress not intended for the production, transmission, dispatching, or distribution of electricity and heat in the cases defined by a special procedure established by the Board of Directors of the Company;"

Subparagraphs 6 and 7 of paragraph 12.2 shall be deleted (by renumbering subparagraphs 8 and 9 of paragraph 12.2 in the current version as 6 and 7, respectively).

Paragraph 13.4 shall be amended by inserting subparagraph 14 which shall read as follows (by renumbering subparagraph 14 of paragraph 13.4 in the current version as 15):

"13.4.14. appoint persons to represent the Company at meetings of members of business entities whose shares and equities are owned by the Company;"

Approved by the Board of Directors of
RAO UES of Russia

Minutes No. 224

Regulations for the Information Policy of RAO UES of Russia

1. General Provisions.

1.1. These regulations on the information policy of Unified Energy System of Russia (hereinafter the "Regulations") are prepared in accordance with the requirements of laws of the Russian Federation, the Charter of RAO UES of Russia (hereinafter the Company), the Corporate Governance Code of RAO UES of Russia any other local regulatory documents of the Company with due account for international corporate governance practices.

1.2. These Regulations shall be a local regulatory document of the Company defining the rules and approaches to information disclosure, the list of information and documents to be disclosed to the shareholders, creditors, potential investors and professional securities market participants, state authorities and other interested parties (hereinafter "any other interested parties") and establishing the procedure and time limits for the disclosure and submission thereof.

1.3. The liability for the completeness and reliability of information disclosed about the Company and its activities shall be borne by the sole executive body of the Company.

1.4. The obtainment by the Company of information necessary for performing the Regulations and any other information shall be governed by the local regulatory documents of the Company, including special Procedural Rules¹¹ and Standards¹² approved by the executive bodies of the Company.

2. Purpose of these Regulations

2.1. These Regulations are prepared for the purpose of:

- protecting the rights and legal interests of shareholders of the Company;
- compliance with the requirements of laws of the Russian Federation with regard to the mandatory disclosure of information by a joint-stock company;
- granting the shareholders, creditors, potential investors of the Company and its subsidiaries and dependent companies, professional securities market participants, state authorities and any other interested parties the right to access complete and reliable information on the activities of the Company;
- increasing the level of openness and confidence in relations among the Company and the shareholders, creditors, potential investors of the Company and its subsidiaries and dependent

¹¹ The Procedural Rules for the Disclosure of Insider Transactions of RAO UES of Russia and the Subsidiaries and Dependent Companies were approved by resolution of the Board of Directors of May 27, 2005 (Minutes No. 196).

¹² Standard information exchange among the functions of the Corporate Center, the Reform Management Center, Business Units, the Subsidiaries and Dependent Companies of RAO UES of Russia.

companies, professional securities market participants, state and municipal authorities and any other interested parties;

- providing to the shareholders of the Company information sufficient for the adoption by the shareholders of decisions related to their rights to participate in managing the Company;
- improving the corporate governance of the Company and its subsidiaries and dependent companies;
- increasing the shareholder value of the Company and its subsidiaries and dependent companies;
- strengthening financial and economic ties between the Company and its counterparties.

2.2. The sole executive body of the Company shall ensure that the goals of these Regulations are achieved by the subsidiaries and dependent companies by ensuring that the appropriate local regulatory documents are prepared and approved by the subsidiaries and dependent companies.

The sole executive body of the Company shall provide the procedures for the preparation, obtainment of concurrence and control over the content and time limits for information disclosure, the proper system for storing the Company's documents, the functionality and protection of information resources.

3. Principles of Information Disclosure

The Company shall be guided by the following principles in information disclosure:

3.1. Regularity and promptness

The Company shall provide on a regular basis information about its activities to its shareholders, their agents, potential investors and any other interested parties by using all means of informing which the Company has in place.

The Company shall inform its shareholders, their agents, potential investors and any other interested parties as soon as practicable about the most significant events and facts influencing the financial and economic activity of the Company and affecting their interests with due account for understanding that the disclosed information will have value for its recipients only if disclosed in a timely manner.

3.2. Accessibility of information

The Company shall use the channels and means of distributing information about its activities which grant its shareholders, their agents, potential investors and any other interested parties the right to free, unencumbered and non-selective access to disclosed information.

3.3. Completeness and reliability of disclosed information

The Company shall provide true information to all interested parties without avoiding the disclosure of any negative information about itself to the extent which allows forming the fullest idea of the Company and performance of the Company.

3.4. Maintaining a reasonable balance between the openness of the Company and safeguarding its commercial interests

The information policy of the Company shall be based on the maximum exercise of the rights of shareholders and investors to receive information about the activity of the Company. Mandatory conditions shall include:

The protection of information which constitutes secrecy in business, state secret or any other secret protected by law in accordance with the applicable law;

Compliance with the rules for disseminating and using insider information established by the applicable local regulatory documents of the Company¹³.

4. Disclosure of Information by the Executives of the Company

4.1. Information about the activities of the Company shall be gathered, prepared and disclosed by the executives who perform the functions related to information disclosure in accordance with the local regulatory documents of the Company.

4.2. The Chairman of the Board of Directors or any member of the Board of Directors duly authorized by the Chairman shall be entitled to officially comment on any resolutions adopted by the Board of Directors and state the official position of the Board of Directors on any issues considered at the meetings of the Board of Directors of the Company.

4.3. The Chairman of the Management Board and the executive of the Company duly authorized by the Chairman shall hold conference calls with investors and analysts based on the results of the Board of Directors meetings.

4.4. The sole executive body of the Company and any other executives of the Company (within the powers defined by the sole executive body) shall have a right to publicly make an official statement on behalf of the Company on any issues related to the activity of the Company.

4.5. Members of the Board of Directors shall be entitled to publicly state their opinions on any issues considered at the Board of Directors meetings and any resolutions adopted by the Board of Directors, relying on the principles of reasonableness and reliability and with due account for the limitations on the disclosure of information which constitutes secrecy in business, state secret or any other secret protected by law.

4.6. The chairmen of committees under the Board of Director, members of committees and duly authorized persons of the Company shall be entitled to comment on the information about any resolutions adopted at the committee meetings and communicate it to any interested parties.

5. Disclosed information

The Company shall disclose the following information about the Company and activity of the Company:

5.1. Information subject to mandatory disclosure in accordance with the requirements of laws of the Russian Federation:

- information disclosed by the Company during the phases of the securities issuance procedure;
- securities prospectus (prospectus to issue securities);
- quarterly report;
- notifications of material facts;
- information which may have a significant impact on the value of securities of the Company;
- annual report of the Company;
- annual financial statements of the Company;

¹³ The Procedural Rules for the Disclosure of Insider Transactions of RAO UES of Russia and the Subsidiaries and Dependent Companies were approved by resolution of the Board of Directors of May 27, 2005 (Minutes No. 196).

- information about the content of the Charter and other internal documents governing the activity of the Company, including amendments;
- information about the affiliates of the Company in the form of a list of affiliates as of the final date of each reporting quarter and amendments to the list of affiliates made during the reporting quarter;
- notification of the upcoming General Meeting of Shareholders of the Company;
- any other information disclosed in accordance with the laws of the Russian Federation.

5.2. Information additionally disclosed by the Company.

In addition to the information disclosed by the Company in accordance with the requirements of laws of the Russian Federation the Company shall additionally disclose on its corporate website the following information:

5.2.1. General information about the Company:

- a** – mission and strategy of the Company;
- b** – history of the Company;
- c** - goals, objectives, progress in the restructuring of the Company;
- d** – information about the management of the Company: members of the Board of Directors, members of the Management Board, the Chairman of the Management Board;

f - a quarterly overview of the transactions executed by and between the Company and the shareholders of the Company owning at least 5% of voting shares in the Company;

g – detailed information about related-party transactions executed by the Company, including information about the parties, subject matter and price of such transactions and information about compliance between the terms of such transactions and the market terms;

h - information about the transactions executed with any state-owned companies, including the list (register) of such transactions and information about compliance between the terms of such transactions and the market terms.

The sole executive body and the Board of Directors of the Company shall be entitled to establish an additional list of information to be disclosed at the sole discretion of the Company by adopting resolutions.

6. Information Disclosure Rules

6.1. *Information disclosure language.*

In disclosing information in accordance with these Regulations the Company shall disclose information in the Russian and English languages in all instances when it is permitted by the applicable law and does not contradict the essence of information disclosure in a particular case (interview, public utterance, in a an environment excluding simultaneous translation, etc). The Company shall seek to disclose information in the Russian and English languages fully and simultaneously.

6.2. *Publishing information in news feeds.*

Messages about any material facts and observations which may have a significant impact on the value of securities of the Company shall be published in the news feed of any information agencies having the status of mass media and duly authorized by a federal executive securities market authority to publish information. RAO UES of Russia shall publish messages in the news feed of ZAO Interfax information agency at <http://www.e-disclosure.ru>

6.3. *Publishing information in printed press.*

Messages about any material facts (events, actions) affecting the financial and economic activity of the Company shall be published in any printed periodical within the time limits established by the law of the Russian Federation.

In case of publishing information in any printed periodical such information shall also be published in the news bulletin *Appendix to the Federal Financial Markets Service Gazette* within 30 days of the date on which the obligation to publish appropriate information is assumed by the Company.

Messages on the upcoming General Meetings of Shareholders of the Company and the resolutions adopted by the general meetings of shareholders of the Company shall be published in the printed periodical¹⁷ and the annual financial statements and the Company's audit report shall be published in the printed periodical¹⁸ within the time limits established by law, the Charter and the local regulatory documents of the Company.

6.4. *Publishing information on the Internet.*

The Company shall publish on the corporate website information about its activities, the activities of its subsidiaries and dependent companies as well as documents, press releases, messages, news, articles, interviews, promotional and any other information stipulated in paragraph 5 of these Regulations. The corporate website of the Company is as follows: **www.rao-ees.ru**.

The Company shall arrange for the distribution of information messages in Russian and English about the key events in its activity via email to the representatives of the investment community and mass media.

6.5. *Publishing information in brochures and booklets.*

The Company shall include in its annual report the information specified in subparagraph 5.2.1 – 5.2.10 of these Regulations. In the event that in accordance with said paragraphs the local regulatory document of the Company is subject to disclosure, only the principal provisions of such documents shall be disclosed.

The Company shall typographically print its annual reports and information materials about the Company (brochures, booklets and other materials). The copies of annual reports or said information materials and/or copies thereof shall be provided to the shareholders of the Company upon request within 5 business days from the receipt of respective request by the Company and shall be distributed during public events and published on the corporate website of the Company.

6.6. *Holding of press conferences, conference calls, briefings and meetings with the shareholders and other interested parties, participation in the activity of international organizations.*

The Company through the press service of the Company shall disseminate official comments in mass media on the activity and development prospects for the Company, respond to requests from the mass media, organize interviews, briefings and press conferences attended by the duly authorized executive of the Company.

The Company shall hold meetings with its shareholders (agents of shareholders), potential investors, topical round table discussions with analysts and any other interested parties, including road shows. The Company shall seek to hold a road show attended by the Chairman of the Management Board at least semiannually.

The Company shall participate in the activity of Russian and international conferences, shows, in the activity of international organizations.

¹⁷ *Izvestia* newspaper.

¹⁸ *Rossiiskaya Gazeta* newspaper.

Representatives of the Company participating in any events¹⁹ including the disclosure of information about the activity of the Company and the topics of disclosed information shall be agreed upon by and between the functions of the Company authorized to interact with mass media²⁰, shareholders²¹, investors¹⁰, external contacts²², authorities and non-profit-making organizations²³ or those in charge of the activity of the respective international organization".

The duly authorized representatives of the Company (from among the employees of the Company) participating in any events including the disclosure of information about the activity of the Company shall be liable for the public disclosure of information (speeches, comments, interviews, publications, etc) which had a negative impact on the reputation of the Company.

6.7. *Distribution of information to the shareholders of the Company.*

The Company shall distribute to the shareholders via registered mail information messages about the upcoming meetings of shareholders and ballots in accordance with the procedure and within the time limits established by the law of the Russian Federation, the Charter and any other local regulatory documents of the Company.

6.8. *Time limits for the disclosure of additional information by the Company.*

The Company shall disclose the additional information about itself and its activities specified in paragraph 5.2 of these Regulations within the following time limits:

- the information specified in subparagraph "l" of paragraph 5.2.1 of these Regulations shall be disclosed by the Company and renewed on the corporate website on a daily basis;
- the information specified in subparagraphs "h-i" of paragraph 5.2.1; in subparagraphs "c", "e-r" of paragraph 5.2.7; in subparagraphs "a-c", "e" of paragraph 5.2.8; in subparagraphs "a-e" of paragraph 5.2.9; in subparagraphs "e-h" of paragraph 5.2.10 of these Regulations shall be disclosed by the Company on the corporate website on a quarterly basis;
- the information specified in subparagraph "b" of paragraph 5.2.7 of these Regulations shall be disclosed by the Company on the corporate website within 90 days from the expiration of the fiscal year;
- any other information stipulated in paragraph 5.2 of these Regulations shall be disclosed by the Company on the corporate website within 3 business days from the alteration of the respective information (documents) or occurrence of a certain event.

7. Granting shareholders the right to access documents and information about the activity of the Company

7.1. The Company shall grant access to the information which the Company shall be obliged to safeguard and provide to its shareholders, creditors, potential investors and any other interested parties in accordance with the laws and/or regulations of the Russian Federation.

7.2. The Company shall ensure that information is provided to the shareholders during the preparation and holding of the General Meeting of Shareholders in accordance with the procedure and within the time limits established by the laws of the Russian Federation.

7.3. The Company shall provide documents for review upon proper informal written request addressed to the person acting as the sole executive body of the Company or the Chairman of the Board of Directors of the Company.

¹⁹ Press conferences, meetings with shareholders, investors, conferences, symposiums, sessions, events held by federal authorities.

²⁰ Department for Media Relations of the Corporate Center.

²¹ Department for Corporate Governance and Shareholder Relations of the Corporate Center.

²² Department for External Affairs and Protocol of the Corporate Center.

²³ Department for Relations with Authorities and Non-Profit-Making Organizations of the Corporate Center.

7.4. The Company shall ensure that the requested documents and/or copies thereof related to the information to be provided to the shareholders by statute are provided to the shareholders within five days of the day of submission of the respective request.

7.5. Information about the Company and its activity shall be provided to any interested parties other than the shareholders of the Company and mass media representatives upon their written requests, unless such information is connected to the information which constitutes secrecy in business, state secret or any other secret protected by law. A decision to provide such information shall be adopted by the person acting as the sole executive body or any other duly authorized executive performing the functions related to information disclosure as specified in paragraph 7.1 of these Regulations in accordance with the corporate distribution of authority.

Additional Requirements for Quarterly Report of the Issuer Issue-Grade Securities

In disclosing information in the form of a quarterly report the Company shall not only disclose information on material events in the life of the Company in the reporting period but also provide analytical conclusions/comments in relation to these events which give to any interested party full idea of the opinion of the Company about said events and actions.

The quarterly report of the Company shall include the information specified in subparagraphs 5.2.1 – 5.2.10 of these Regulations. In the event that in accordance with said subparagraphs any local regulatory document of the Company is subject to disclosure it shall seek to disclose only the principal provisions of such documents or contain references specifying where this document can be found. Said information shall be included in the respective sections of the quarterly report and, unless the inclusion of such information is covered by the content of such sections, in the section titled "Other Information" (paragraph 8.10)²⁴. In addition to the information disclosed in accordance with the requirements of laws of the Russian Federation the quarterly report of the issuer²⁵ may disclose the following additional information:

1. With regard to bank account information (paragraph 1.2) the Company shall disclose information about all bank accounts, in particular in the event that their quantity exceeds ten.

2. With regard to information about the auditor(s) (paragraph 1.3) the Company shall disclose information on the amount of the auditor's (auditors') fee paid by the Company in the most recently closed fiscal year, information about existing agreements pertaining to such payments in the current fiscal year as well as information about the amount of the auditor's (auditors') fee for the services (work) which bear no direct connection to the audit of financial statements in respect of the Company in the current and previous fiscal years.

3. With regard to information about the appraiser (paragraph 1.4) the Company shall disclose information on the amount of the appraiser's fee paid by the Company in the most recently closed fiscal year as well as information about existing agreements pertaining to such payments in the current fiscal year.

4. With regard to information on market capitalization (paragraph 2.2) the Company shall disclose information on the market capitalization for the 5 most recently closed fiscal years and specify information on market capitalization as of the final date of each fiscal year and the final date of the most recently closed reporting period²⁶.

In the event that the Company's stock is listed by two or more trade institutors on the securities market the Company shall calculate its capitalization in accordance with the trade results for each trade institutor which listed the Company's stock and prepare brief comments on these calculations. Capitalization shall be calculated in accordance with the calculation methods used by the Company.

5. With regard to information about financial investments (paragraph 4.3.2) the Company shall disclose the list of its financial investments which account for 5 percent or more of all financial investments as of the final date of the respective reporting period.

²⁴ Hereinafter the number of paragraph of Appendix 11 to the Regulations for the Disclosure of Information by Issue-Grade Securities Issuers No. 05-5/pz-n dated March 16, 2005 shall be specified in parenthesis.

²⁵ Pursuant to the resolutions adopted by the management bodies of the Company.

²⁶ The Company shall be entitled to select a trade institutor on the securities market for the calculation of the average weighted stock price in determining the market capitalization of the Company and the submission of the calculation for 1 trade institutor.

The Company shall disclose (for investments in securities) the following additional information: category (type) for stock; series (identification characteristics of the issuance, series); maturity for bonds; identification characteristics of the issuance, series for options.

6. With regard to information about intangible assets (paragraph 4.3.3) the Company shall disclose information on their composition, the original (net book) value of intangible assets and the amount of accumulated depreciation, even in the event that this information is reported in the financial statements of the Company for the respective period.

7. With regard to information about the liquidity of the Company, capital and current assets adequacy (4.2) the Company shall provide a description of factors which in the opinion of the management bodies of the Company led to such change in the event that any indicators changed against the comparable previous reporting period by 5 percent or more.

8. With regard to information on the amount of accounts receivable (paragraph 6.7) in the event that accounts receivable for the respective reporting period include debtors which account for at least 5 percent of total accounts receivable the Company shall disclose information thereon in accordance with the requirements of Appendix 11 to the Regulations for the Disclosure of Information by Issue-Grade Securities Issuers No. 05-5/pz-n dated March 16, 2005 (including the disclosure of information on debtors which belong to the affiliates of the Company).

9. With regard to information on the value of immovable property of the Company and significant changes in the composition of property which occurred after the final date of the most recently closed fiscal year (paragraph 7.6) in the event that within 12 months prior to the final date of the reporting quarter the immovable property owned or leased by the Company on a long-term basis was appraised, in addition to the information about the value of immovable property determined by the appraiser the Company shall also specify information about the appraiser which carried out such appraisal, including the appraiser's name, legal address, information about the license and the amount of fee.

10. With regard to information on participation of the Company in legal proceedings (paragraph 7.7) the Company shall disclose information about participation in legal proceedings if such participation may have a significant impact on the financial and economic performance of the Company²⁷ and specify the subject matter of the dispute; lawsuit cost; the persons involved in the case; provisional remedies imposed by the court on the Company; the case phase; significant judicial acts; the published opinions of executive bodies on the likely issue of suit. The Company shall disclose additional information about the group of homogenous legal proceedings in the year preceding the final date of the reporting quarter.

11. With regard to information about material transactions executed by the Company (paragraph 8.1.6) information shall be disclosed pertaining to the execution of any material transaction (group of inter-related transactions) the amount of obligations for which equals 5 percent or more of the book value of assets of the Company based on data from its financials statements for the most recent reporting quarter preceding the transaction date.

12. With regard to any other information (paragraph 8.10) the Company shall disclose the following additional information:

12.1. information about the amount of fee payable to the registrar of the Company paid in the most recently closed fiscal year and information about existing agreements in relation to such payments in the current fiscal year;

12.2. information about the establishment and utilization of the reserve fund and other funds of the Company;

– size of the Company's fund;

²⁷ The Company shall disclose information on lawsuits the cost of which exceeds 50 million rubles.

- resources used to form the fund;
- information on the replenishment of the fund;
- information about the reduction of the fund specifying the needs for which the resources of the fund are used.

12.3. The Company shall disclose the following additional information:

- the quotation list in which the securities of the Company are included;
- the price dynamics for the Company's securities in the most recently closed fiscal year;
- the total number of transactions in the Company's securities executed on stock markets in each month and each quarter during the closed and current fiscal year;
- the total value of transactions in the Company's securities executed on stock markets in each month and each quarter during the closed and current fiscal year;
- trade institutors on the securities market, including stock markets on which issue-grade securities are traded or planned to be traded (name and location of the stock market).

12.4. information about the Company's market makers:

- names of trade participants fulfilling the obligations of market makers;
- the scope of obligations of each market maker;
- the amount of the market maker's fee;
- information regarding a shift to a different market maker;
- criteria under which the market maker is obliged to place bids;
- procedure for determining the maximum difference between the best purchase offering price and the best sale offering price (spread) for bids placed by the market maker, the minimal volume of bids and the maximum volume of transactions executed under such bids upon achieving which the market maker shall be exempt from said duty;
- the period of time during which the market maker is entitled not to place bids.
