#### DIRECTORS' REPORT

#### Principal activity

The Group's principal activity is residential development in Saint-Petersburg metropolitan area and Moscow metropolitan area.

#### Statement of Directors' responsibilities

The directors are responsible for preparing the Directors' Report and the consolidated financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards and applicable law.

The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with The Companies (Guernsey) Law, 2008. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

## Disclosure of information to Auditors

The Directors confirm that so far as they are aware, there is no information relevant to the audit of which the Company's auditors are unaware. The Directors also confirm that they have taken all steps they ought to have taken as directors to make themselves aware of any information relevant to the audit and to establish that the Company's auditors are aware of that information.

Peter Touzeau

The consolidated statement of cash flows is to be read in conjunction with the notes to, and forming part of, the consolidated financial statements set out on pages 11 to 55.

# 1 Background

#### (a) Organisation and operations

Etalon Group Limited (Etalon Limited before 19 January 2011, or the "Company") and its subsidiaries (together referred to as the "Group") comprise Russian open and closed joint stock companies and limited liability companies as defined in the Civil Code of the Russian Federation and companies located abroad. The Company was incorporated on 8 November 2007 in the Bailiwick of Guernsey.

The Company's registered office is located at:

Ogier House, St. Julian Avenue St. Peter Port Guernsey GY1 IWA

The Group's principal activity is residential development in Saint-Petersburg metropolitan area and Moscow metropolitan area, the Russian Federation.

The ultimate beneficiary shareholders of the Group are members of the family of Mr. Viacheslav Zarenkov, who owned 63.2% of the Company's shares at 31 December 2010 (2009: 67%).

Related party transactions are disclosed in note 30.

#### (b) Business environment

The Group's operations are primarily located in the Russian Federation. Consequently, the Group is exposed to the economic and financial markets of the Russian Federation which display characteristics of an emerging market. The legal, tax and regulatory frameworks continue development, but are subject to varying interpretations and frequent changes which together with other legal and fiscal impediments contribute to the challenges faced by entities operating in the Russian Federation. The consolidated financial statements reflect management's assessment of the impact of the Russian business environment on the operations and the financial position of the Group. The future business environment may differ from management's assessment.

# 2 Basis of preparation

#### (a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs"). They show a true and fair view and are in compliance with the Companies (Guernsey) Law, 2008.

#### (b) Busis of measurement

The consolidated financial statements are prepared on the historical cost basis.

#### (c) Functional and presentation currency

The national currency of the Russian Federation is the Russian Rouble ("RUB"), which is the Company's functional currency and the currency in which these consolidated financial statements are presented. All financial information presented in RUB has been rounded to the nearest million.

## (d) Use of estimates and judgments

The preparation of consolidated financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements, as well as information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is included in the following notes:

- Note 8 revenue recognition;
- Note 17 inventory obsolescence provisions;
- Note 23 loan participation notes (LPNs);
- Note 24 provisions;
- Note 29 contingencies.
- Note 31 special purpose entities (SPEs);

#### (e) Changes in accounting policies and presentation

With effect from 1 January 2010, the Group changed its accounting policies in the following areas:

- · accounting for business combinations
- accounting for leases of land

#### (1) Accounting for business combinations

From 1 January 2010 the Group has applied IFRS 3 Business Combinations (2008) in accounting for business combinations. The change in accounting policy has been applied prospectively and has had no material impact on earnings per share:

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

#### Acquisitions on or after 1 January 2010

For acquisitions on or after 1 January 2010, the Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus, if the business
  combination is achieved in stages, the fair value of the existing equity interest in the acquiree;
  less

 the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination, are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

# (ii) Accounting for leases of land

The amendment to IAS 17 Leases regarding the leases of land became effective from 1 January 2010. The amendment removed the earlier exemption which allowed leases of land to be classified as operating leases regardless of the length of the lease term. The amended guidance requires all existing leases of land to be reassessed and reclassified if necessary as finance leases if the finance lease classification criteria are met. At 1 January 2010, the Group reassessed all existing land lease contracts and as a result it was assessed that existing land lease contracts do not qualify as finance lease contracts and therefore, the classification was not changed (see note 27).

# 3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by Group entities, except as explained in note 2(e), which addresses changes in accounting policies.

The accounting policies have been applied consistently by Group entities.

#### (a) Basis of consolidation

#### (i) Business combinations

The Group has changed its accounting policy with respect to accounting for business combinations. See note 2(e)(i) for further details.

#### (ii) Acquisitions of non-controlling interests.

Acquisitions of non-controlling interests are accounted for as transactions with equity holders in their capacity as equity holders. Therefore no goodwill is recognised as a result of such transactions.

#### (iti) Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

# (iv) Special purpose entities

The Group has established a number of special purpose entities ("SPE"s) for trading and investment purposes. The Group does not have any direct or indirect shareholdings in these entities. An SPE is consolidated if, based on an evaluation of the substance of its relationship with the Group, the Group concludes that it controls the SPE. SPEs controlled by the Group were established under terms that impose strict limitations on the decision-making powers of the SPEs' management and that result in the Group receiving the majority of the benefits related to the SPEs' operations and net assets, being exposed to the majority of risks incident to the SPE's activities, and retaining the majority of the residual or ownership risks related to the SPE or their assets.

# (v) Acquisitions from enlittes under common control

Business combinations arising from transfers of interests in entities that are under the control of the shareholders that control the Group are accounted for at the date of transfer of shares to the Group. The assets and liabilities acquired are recognised at the carrying amounts recognised previously in acquired entity's financial statements. Any difference between the book value of net assets acquired and consideration paid is recognised as a contribution from, or distribution to, shareholders.

#### (vi) Loss of control

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

#### (vii) Investments in associates (equity accounted investees)

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20% and 50% of the voting power of another entity. Investments in associates are accounted for using the equity method and are recognised initially at cost. The cost of the investment includes transaction costs. The Group's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The consolidated financial statements include the Group's share of the income and expenses and equity movements of equity accounted investees, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in equity accounted investee, the carrying amount of that interest (including any long-ferm investments) is reduced to nil and the recognition of further losses is discontinued, except to the extent that the Group has an obligation or has made payments on behalf of the investee.

#### (viii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

## (b) Foreign currency

# (i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising in retranslation are recognised in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments which are recognised in other comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

# (ii) Foreign operations

The functional currency of foreign operations is RUB - the same as that of the Group, as activities of the foreign operations are carried out as an extension of the activities of the Group in the Russian Federation.

#### (c) Financial instruments

# (1) Non-derivative financial instruments

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

The Group initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

#### Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses. Loans and receivables comprise trade and other receivables.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

## Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale and that are not classified in any of the previous categories. The Group's investments in debt securities are classified as available-for-sale financial assets. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses (see note 3(h)(i)) and foreign currency differences on available-for-sale debt instruments (see note 3(h)(i)), are recognised in other comprehensive income and presented within debt in the fair value reserve. When an investment is derecognised or impaired, the cumulative gain or loss in other comprehensive income is transferred to profit or loss.

#### Other

Other non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses. Investments in equity securities that are not quoted on a stock exchange are principally valued using valuation techniques such as discounted eash flow analysis, option pricing models and comparisons to other transactions and instruments that are substantially the same. Where fair value cannot be reliably measured, investments are stated at cost less impairment losses.

# (ii) Non-derivative financial liabilities

The Group initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities (including liabilities designated at fair value through profit or loss) are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Group has the following non-derivative financial liabilities: loans and borrowings, bank overdrafts, and trade and other payables.

Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

#### (d) Share capital

## Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

## Repurchase of share capital

When share capital recognised as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognised as a deduction from

equity. Repurchased shares are classified as treasury shares and are presented as a deduction from total equity. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/from retained earnings.

# (e) Property, plant and equipment

# (l) Recognition and measurement

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment loss, except for certain items of property plant and equipment purchased before 1 January 2003. Historical cost for such items was determined in accordance with IAS 29 "Financial reporting in hyperinflationary economies" by applying a purchase price index determined by the state statistics committee.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and borrowing costs on qualifying assets for which the commencement date for capitalisation is on or after 1 January 2008, the date of transition to IFRSs.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised not within "other income" in profit or loss.

# (ii) Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

#### (III) Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives for the current and comparative periods are as follows:

Buildings and constructions
 Machinery and equipment
 Vehicles
 Other assets
 7-30 years
 5-15 years
 5-10 years
 3-7 years

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate. No estimates in respect of plant and equipment were revised in 2010.

#### (f) Leased assets

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Other leases are operating leases and the leased assets are not recognised on the Group's statement of financial position.

#### (g) Inventories

Inventories comprise real estate properties under construction (including residential premises, stand-alone and built-in commercial premises) when the Group acts in the capacity of a developer, finished goods, and construction and other materials.

The Group accounts for stand-alone and built-in commercial properties within inventories because it does not intend to engage in renting-out those assets and keeping those as investment properties to generate rental income and benefit from appreciation. Properties classified as inventory may be rented out on a temporary basis while the Group is scarching for buyer. Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

The cost of real estate properties under construction is determined on the basis of specific identification of their individual costs. The costs of individual residential units and built-in commercial premises are arrived at by allocating the costs of particular development project to individual apartments and built-in premises on a pro rata basis relative to their size:

The costs of real estate property comprise costs of construction and other expenditure directly attributable to a particular development project, including finance costs.

The cost of inventories, other than construction work in progress intended for sale, is based on the weighted average cost formula and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Cost of manufactured inventories and work in progress includes an appropriate share of overheads based on normal operating capacity.

Transfer from real estate properties under construction to the stock of finished goods occurs when the respective building is approved by the State commission established by the local regulating authorities for acceptance of finished buildings.

The Group's inventory is not limited to 12 months and may be of longer term since the development cycle exceeds 12 months. Inventories are classified as current assets even when they are not expected to be realised within twelve months after the balance sheet date.

#### (h) Impairment

#### (i) Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy.

The Group considers evidence of impairment for loans given and receivables at a specific asset level. All receivables and loans are assessed for specific impairment.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

## (ii) Non-financial assets

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

The Group's corporate assets do not generate separate cash inflows. If there is an indication that a corporate asset may be impaired, then the recoverable amount is determined for the cash generating unit to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of assets in the unit (group of units) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Goodwill that forms part of the carrying amount of an investment in an equity accounted investee is not recognised separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in an equity accounted investee is tested for impairment as a single asset when there is objective evidence that the investment in an equity accounted investee may be impaired.

#### (i) Employee benefits

Remuneration to employees in respect of services rendered during the period is recognised as an expense in the consolidated statement of comprehensive income.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or other profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

#### Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans, including Russia's State pension fund, are recognised as an employee benefit expense in the consolidated statement of comprehensive income in the periods during which services are rendered by employees.

#### (j) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-fax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

## (i) Warranties

The provision for warranties relates mainly to the residential units sold during the period. The provision is based on estimate made from historical experience from sale of such units.

# (ii) Provision for deferred works

The Group records provisions in respect of the Group's obligation to incur additional costs associated with landscaping and other works after finishing the construction of apartment buildings. The provision is estimated based on the budgeted project costs and contractual arrangements for the performance of such works.

## (k) Revenue

# (i) Revenue from sale of real estate properties (including flats, commercial premises and parking places)

Revenue from the sale of real estate properties is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when persuasive evidence exists that the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably.

The Group defines the moment of transfer of risks and rewards as the date when the buyer signs the act of acceptance of the property. Before that, the respective building has to be approved by the State commission for acceptance of finished buildings.

#### (II) Revenue from construction services

For accounting purposes the Group distinguishes two types of construction contracts:

- Contracts for provision of construction services;
- Contracts for construction of an asset falling within the scope of IAS 11 Construction Contracts.

For the first type of contracts revenue from construction services rendered is recognised in the statement of comprehensive income when it is probable that the economic benefits associated with the transaction will flow to the Group and the amount of revenue can be measured reliably. Revenue is recognised when the customer signs the act of acceptance of the construction service.

For the second type of contracts revenue and costs are recognised by reference to the stage of completion of the contract activity at the reporting date, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable to be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

The Group recognises the following assets and liabilities related to construction contracts:

- unbilled receivables represent the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised to date less progress billings and recognised losses. Cost includes all expenditure related directly to specific projects and an allocation of fixed and variable overheads incurred in the Group's contract activities based on normal operating capacity. Unbilled receivables are presented as part of trade and other receivables in the statement of financial position for all contracts in which costs incurred plus recognised profits exceed progress billings;
- billings in excess of work completed are recognised as a part of trade and other payables if progress billings exceed costs incurred plus recognised profits.

# (iii) Revenue from sale of construction materials

Revenue from the sale of construction materials produced by the Group is recognised in the consolidated statement of comprehensive income when significant risks and rewards of ownership have been transferred to the buyer.

# (lv) Rental income

Rental income from stand-alone and built-in commercial properties (see note 3(g)) is recognised in the statement of comprehensive income on a straight-line basis over the term of the lease.

#### (l) Other expenses

### (i) Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the contingency no longer exists and the lease adjustment is known.

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfilment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Group the right to control the use of the underlying asset.

#### (II) Social expenditure

To the extent that the Group's contributions to social programs benefit the community at large and are not restricted to the Group's employees, they are recognised in profit or loss as incurred.

#### (m) Finance income and costs

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets and changes in the fair value of financial assets at fair value through profit or loss, and foreign currency gains. Interest income is recognised as it accrues in profit or loss, using the effective interest method. Dividend income is recognised in profit or loss on the date that the Group's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, foreign currency losses, changes in the fair value of financial assets at fair value through profit or loss and impairment losses recognised on financial assets. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses are reported on a net basis,

#### (n) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Current tax payable also includes any tax liability arising from the declaration of dividends.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor texable profit or loss;
- temporary differences related to investments in subsidiaries and associates to the extent that it
  is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax assets and liabilities, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

In accordance with the tax legislation of the Russian Federation, tax losses and current tax assets of a company in the Group may not be set off against taxable profits and current tax liabilities of other Group companies. In addition, the tax base is determined separately for each of the Group's main activities and, therefore, tax losses and taxable profits related to different activities cannot be offset. A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

#### (o) Earnings per share

The Group presents basic earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

## (p) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Board of Directors to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available (see note 5).

Inter-segment pricing is determined on an arm's length basis.

# (q) New Standards and Interpretations not yet adopted

A number of new Standards, amendments to Standards and Interpretations are not yet effective as at 31 December 2010, and have not been applied in preparing these consolidated financial statements. The Group plans to adopt these pronouncements when they become effective.

- Revised IAS 24 Related Party Disclosures (2010) introduces an exemption from the basic disclosure requirements in relation to related party disclosures and outstanding balances, including commitments, for government-related entities. Additionally, the standard has been revised to simplify some of the presentation guidance that was previously non-reciprocal. The revised standard is to be applied retrospectively for annual periods beginning on or after 1 January 2011. The amendment is expected to have no impact on the Group's consolidated financial statements.
- Amendment to IAS 32 Financial Instruments: Presentation Classification of Rights Issues clarifies that rights, options or warrants to acquire a fixed number of an entity's own equity instruments for a fixed amount are classified as equity instruments even if the fixed amount is determined in foreign currency. A fixed amount can be determined in any currency provided that entity offers these instruments pro rate to all of the existing owners of the same class of its own non-derivative equity instruments. The amendment is applicable for annual periods beginning on or after 1 February 2010. The amendment is expected to have no impact on the Group's consolidated financial statements.
- Amended IFRS 7 Disclosures Transfers of Financial Assets introduces additional disclosure requirements for transfers of financial assets in situations where assets are not derecognised in their entirety or where the assets are derecognised in their entirety but a continuing involvement in the transferred assets is retained. The new disclosure requirements are designated to enable the users of financial statements to better understand the nature of the risks and rewards associated with these assets. The amendment is effective for annual periods beginning on or after 1 July 2011.
- IFRS 9 Financial Instruments will be effective for annual periods beginning on or after 1
  January 2013. The new standard is to be issued in phases and is intended ultimately to replace

International Financial Reporting Standard IAS 39 Financial Instruments: Recognition and Measurement. The first phase of IFRS 9 was issued in November 2009 and relates to the classification and measurement of financial assets. The second phase regarding classification and measurement of financial liabilities was published in October 2010. The remaining parts of the standard are expected to be issued during the first half of 2011. The Group recognises that the new standard introduces many changes to the accounting for financial instruments and is likely to have a significant impact on Group's consolidated financial statements. The impact of these changes will be analysed during the course of the project as further phases of the standard are issued. The Group does not intend to adopt this standard early.

- Amendment to IAS 12 Income taxes Deferred Tax: Recovery of Underlying Assets. The amendment introduces an exception to the current measurement principles for deferred tax assets and liabilities arising from investment property measured using the fair value model in accordance with IAS 40 Investment Property. The exception also applies to investment property acquired in a business combination accounted for in accordance with IFRS 3 Business Combinations provided the acquirer subsequently measures the assets using the fair value model. In these specified circumstances the measurement of deferred tax liabilities and deferred tax assets should reflect a rebuttable presumption that the carrying amount of the underlying asset will be recovered entirely by sale unless the asset is depreciated or the business model is to consume substantially all the asset. The amendment is effective for periods beginning on or after 1 January 2012 and is applied retrospectively.
- Amendments to IFRIC 14: LAS 19 The limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction clarifies the accounting treatment for prepayments made when there also is a minimum funding requirement. The amendment becomes effective for annual periods beginning on or after 1 January 2011 and is applied retrospectively.
- IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments provides guidance on accounting for debt for equity swaps by the debtor. The interpretation clarifies that an entity's equity instruments qualify as "consideration paid" in accordance with paragraph 41 of International Financial Reporting Standards IAS 39 Financial Instruments: Recognition and Measurement. Additionally, the interpretation clarifies how to account for the initial measurement of own equity instruments issued to extinguish a financial liability and how to account for the difference between the carrying amount of the financial liability extinguished and the initial measurement amount of the equity instruments issued. IFRIC 19 is applicable for annual periods beginning on or after 1 July 2010.
- Various Improvements to IFRSs have been dealt with on a standard-by-standard basis. All amendments, which result in accounting changes for presentation, recognition or measurement purposes, will come into effect not earlier than 1 January 2011. The Group has not yet analysed the likely impact of the improvements on its financial position or performance.

#### 4 Determination of fair values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and for disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

## (a) Property, plant and equipment

The fair value of property, plant and equipment recognised as a result of a business combination is based on market values. The market value of property is the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably and willingly. The fair value of items of plant, equipment, fixtures and fittings is based on market approach and cost approaches using quoted market prices for similar items when available.

When no quoted market prices are available, the fair value of property, plant and equipment is primarily determined using depreciated replacement cost. This method considers the cost to reproduce or replace the property, plant and equipment, adjusted for physical, functional or economical depreciation, and obsolescence.

## (b) Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

#### (c) Investments in equity and debt securities

The fair value of financial assets at fair value through profit or loss, held-to-maturity investments and available-for-sale financial assets is determined by reference to their quoted closing bid price at the reporting date. The fair value of held-to-maturity investments is determined for disclosure purposes only.

#### (d) Trade and other receivables

The fair value of trade and other receivables, excluding construction work in progress, is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purposes or when acquired in a business combination.

#### (c) Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. In respect of the liability component of convertible notes, the market rate of interest is determined by reference to similar liabilities that do not have a conversion option. For finance leases the market rate of interest is determined by reference to similar lease agreements.

# 5 Operating segments

The Group has three reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different technology and marketing strategies. The following summary describes the operations in each of the Group's reportable segments:

- Residential Development. Includes construction of residential real estate including flats, built-in premises and parking places.
- Construction services. Includes construction services for third parties.
- Other operations. Include selling of construction materials, construction of stand-alone premises for commercial use and various services related to sale and servicing of premises. None of these meet any of the quantitative thresholds for determining reportable segments in 2010 or 2009.

In the past, segment information was prepared on an ad hoc basis and was not formalized. However, the new structure of the reporting for the future periods has been developed. Segment information for the years ended 31 December 2010 and 2009 has been recalculated according to the new structure and is presented below.

Notes to the Coundidated Financial Statements for the year ended 31 December 2010

(a) Information about reportable segments

min RIB	Residential development	relopment	Construction services	a services.	Other		Total	_
	2010	2009	2010	2009	2010	2009	2010	2009
External revenues	16853	17 197	1691	1.842	764	449	19248	19 488
Inter-Segment revenue	1		\$229	3.982	833	819	260.9	4 600
Total segment revenue	16 853	191 71	068.9	5,824	1.597	1 067	25,340	24.088
Gross profit	8.984.	8 124	714.	346	98	12	9784	8 482
Reportable segment assets: inventory	25.572	25 856	381	T.	1,338	1,664	27311	27 692
Reportable segment liabilities; advances from customets	11.503	17 125	1887	302	176	42	13 336	17854

# (b) Geographical information

In presenting information on the basis of geographical information, revenue is based on the geographical location of properties.

	Revenu	es	Non-curren	t assets
mln RUB	2010	2009	2010	2009
St. Petersburg metropolitan area	20 064	19 698	2 785	2 723
Moscow metropolitan area	252	495	114	897
	20 316	20 193	2 899	3 620

# Major customer

In 2010 and 2009 no customer represented more than 10% of the Group's total revenue.

# (c) Reconciliations of reportable segment revenues, profit or loss, assets and liabilities and other material items

min RUB	2010	2009
Revenues		
Total revenue for reportable segments	25 340	24 088
Other revenue	1 068	705
Elimination of inter-segment revenue	(6 092)	(4600)
Consolidated revenue	20 316	20 193
Profit or loss		
Gross profit for reportable segments	9 784	8 482
General and administrative expenses	(2 047)	(1440)
Selling expenses	(589)	(131)
Other expenses, net	(177)	(196)
Finance income	284	225
Finance costs	(667)	(1049)
Elimination of inter-segment profit	(651)	644
Other profit or loss	105	44
Share of profit of equity accounted investees		2
Consolidated profit before income tax	6 042	6 581
Assets		
Total assets for reportable segments: inventory	27311	27 692
Elimination of unrealised gain	(1 671)	(1020)
Other	11	46
Total inventories	25 651	26 718
Liabilities		
Total liabilities for reportable segments: advances from customers	13 336	17 854
Elimination of intersegment advances	(1 555)	(64)
Other unallocated amounts	133	79
Total advances from customers	11 914	17 869

Performance of the reporting segments is measured by the management based on gross profits as the most relevant in evaluating the results of certain segments. Depreciation, general and administrative expenses, selling expenses, finance income and finance costs are treated as equally attributable to all reporting segments and are not analysed by the Group and therefore not reported for each individual segment.

Segments' assets and segments' liabilities being analysed by the Board of Directors include inventories and advances received from customers as the key indicators relevant for segment performance measurement. Therefore, other assets and liabilities are not allocated between the segments:

# 6 Acquisitions and disposals of subsidiaries and non-controlling interest

### (a) Acquisition of subsidiary

There were no significant acquisitions of controlling interests in businesses in 2010.

On 18 December 2009 the Group obtained control of LLC "Severnaya Vysota I K" - a company holding construction cranes under finance lease contracts - by acquiring 70% of the shares and voting interests in the company. As a result, the Group's equity interest in LLC "Severnaya Vysota I K" increased from 30% to 100%.

Taking control of LLC "Severnaya Vysota I K" will enable the Group to reduce crane rent costs and safeguard access to cranes that are essential for the construction.

From the date of acquisition to 31 December 2009 LLC "Severnays Vysots I K" did not contribute any material revenue and profit. The following summarizes the classes of consideration transferred, and the recognised amounts of assets acquired and liabilities assumed at the acquisition date.

The identifiable assets acquired and the liabilities assumed were as follows.

min RUR	Recognised fair values on acquisition
Non-current assets	587
Property, plant and equipment	567
Deferred tax assets	20
Current assets	89
Inventories	1
Trade and other receivables	71
Cash and cash equivalents	139
Non-current liabilities	(505)
Loans and borrowings	(209)
Trade and other payables	(296)
Deferred tax liabilities	
Current ) labilities	(171)
Louns and borrowings	(28)
Trade and other payables	(143)
Net identifiable assets, liabilities and contingent liabilities	
Not identifiable assets, liabilities and contingent liabilities acquired	
Carrying amount of existing 30% investment in the company	
Consideration paid	Visit 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
Cash acquired	17
Net eash inflow	17

## (b) Changes in non-controlling interests

During the year ended 31 December 2010 the Group acquired additional interests in a number of subsidiaries from companies controlled by the Group's ultimate controlling party and third parties. The Group recognised a decrease in non-controlling interest of RUB 33 million. Contribution from shareholders of RUB 10 million and distribution to shareholders of RUB 71 million was recognised directly in equity.

## (c) Disposal of subsidiaries due to the loss of control

During the year ended 31 December 2010 the Group ceased the consolidation of four subsidiaries that were previously consolidated based on management contracts with CJSC "UK Etalon" due to the termination of those contracts. The subsidiaries contributed RUB 6 million to the net profit for the year ended 31 December 2010, including the loss on disposal of RUB 12 million, not assets at the date of disposal amounted to RUB 58 million. The Group recognised a decrease in non-controlling interest of RUB 45 million.

## 7 Revenue

min RUB	2010	2009
Sale of flats	14 560	15 631
Construction services	í 631	1 842
Sale of built-in commercial premises	1 430	1115
Sale of stand-alone commercial premises	539	255
Sale of parking places	863	451
Sale of construction materials	225	194
Rental revenue	118	94
Other revenue	950	611
Total revenues	20 316	20 193

# 8 Construction contracts

min RUB	2010	2009
Revenue recognised during the period	1 203	1 686
Coxts incurred	(965)	(1 545)
Recognised profits during the period	238	141
For contracts in progress - aggregate amount of costs incurred and recognised profits to date	955	1.55,5
Unbilled receivables	8	21
Billings in excess of work completed	119	219
Advances for which the related work has not started	99	181
Retentions relating to construction contracts	73	21

Revenue recognised during the period is included into the line "Construction services" in note 7.

Unbilled receivables under construction contracts and retentions relating to construction contracts in progress are included into accounts receivable (see note 18).

Advances for which the related work has not started, and billings in excess of costs incurred and recognised profits, are presented as accounts payable (see note 25).

For contracts whose total costs to complete could not be estimated reliably, contract revenue was recognised to the extent of contract costs incurred, until the date when the contracts were completed, at which time revenue was recognized in full as specified in those contracts.

# 9 General and administrative expenses

min RUB	2010	2009
Payroll and related taxes	1 433	1 025
Audit and consulting services	123	42
Services	104	169
Repair and maintenance	92	18
Materials	äi	22
Bank fees and commissions	16	45
Social expenses	3	9
Other	245	110
Total	2 047	1 440
10 Other expenses, net		
min RUB	2010	2009
Other Income		
Fees and penalties received	31	60
Gain on disposal of property, plant and equipment	1	64

284	225
(602)	(759)
(65)	(231)
	(59)
(667)	(1 049)
(383)	(824)
	(602) (65) - (667)

In addition to interest expense recognised in the statement of comprehensive income, the following amounts of borrowing costs have been capitalised into the cost of real estate properties under construction:

min RUB	2010	2009
Borrowing costs capitalised during the year	302	18
Weighted average capitalisation rate	12,50%	12,21%

# 13 Income tax expense

The Group's applicable tax rate is the income tax rate of 20% for Russian companies (2009: 20%).

mln RUB	2010	2009
Current lax expense		
Current year	1 309	7.70
Adjustment for prior years		12
	1 309	782
Deferred tax expense		
Origination and reversal of temporary differences	46	652
Income tax expense	1 355	1.434

Reconciliation between tax expense and the product of accounting profit multiplied by the applicable tax rate 20% (2009: 20%):

min RUB	2010	2009
Profit before tax	6 042	6.581
Theoretical income tax at statutory rate of 20%.	1 208	1 316
Adjustments due to:		
Expenses not deductible and income not taxable for tax purposes, net	149	125
Effect of different tax rates	(2)	(7)
Income tax expense	1 355	1 434

# 14 Property, plant and equipment.

Depreciation expense of RUB 242 million (2009: RUB 180 million) has been charged to cost of goods sold, RUB 7 million (2009: RUB 25 million) to cost of real estate properties under construction, RUB 2 million (2009: RUB 3 million) to selling expenses and RUB 42 million (2009: RUB 25 million) to general and administrative expenses.

#### (a) Security

At 31 December 2010 properties with a carrying amount of RUB 88 million (2009; RUB 113 million) are subject to a registered debenture to secure bank loans (see note 23).

## (b) Leased plant and machinery

The Group leases production equipment under a number of finance lease agreements. At the end of each of the leases the Group has the option to purchase the equipment at a beneficial price. At 31 December 2010 the net book value of leased plant and machinery was RUB 288 million (2009: RUB 614 million). The leased equipment secures lease obligations.

7	min RUB	Buildings and	Machinery and equipment	Vehicles	Other	Land	Construction in progress	Total

Built-in premises	2 484	2 706
Construction materials	297	182
Other	92	46
	26 570	27,547
Less: Allowance for obsolete inventory	(919)	(829)
Total	25 651	26 718

In 2008 the Group acquired a land plot for construction in the Moscow region. The acquisition was partly paid in cash with the remaining (in the amount of RUB 2 252 million) to be settled by future transfer of real estate properties upon completion of their construction. The amount, which remains to be settled, is recognised within trade accounts payable as at 31 December 2010 and 31 December 2009.

The following is movement in the allowance for obsolete inventory:

min RUB	2010	2009
Balance at the beginning of the year	829	764
Change in allowance for obsolete inventory	90	65
Balance at and of the year	919	829

The amount of allowance of RUB 894 million (2009; RUB 824 million) relates to 3 items of stand-alone commercial properties under construction (included into the line "Built-in premises under construction" in this note). The allowance was calculated as follows.

At 31 December 2010 the Group has provided in full for the land lease and other infrastructure payments that were capitalised into the costs of construction of 2 items of stand-alone commercial properties since those properties are not expected to be completed, resulting in allowance of RUB 457 million (2009; RUB 387 million).

The recoverable amount of the third item of stand-alone commercial property, in the absence of the market transactions for sale and purchase of similar assets, was estimated using future cash flow techniques. Cash flows were estimated as if the property has been rented out. At 31 December 2010 the gross value of the property item equals to RUB 891 million (2009: RUB 862 million), while recognised allowance amounts to RUB 437 million (2009: RUB 437 million).

The Group has temporarily rented out part of certain items of property classified as inventory in these consolidated financial statements. The total carrying value of these items of property was RUB 855 million as at 31 December 2010 (2009; RUB 1 443 million). The Group actively seeks for the buyer for these properties.

Inventories with a carrying amount of RUB 100 million (2009; RUB 1 508 million) are pledged as security for borrowings, see note 23.

During 2010 the Group has acquired rights on the certain land plot with the total value of RUB 473 million, of which RUB 99 million represents cash payment contingent on the receipt of the construction permit. The total value of the land plot of RUB 473 million is included in Own flats under construction. In addition to that, the Group has to transfer to the Seller certain number of flats (up to 20%) to be constructed on this land plot, which is also contingent on the receipt of the construction permit.

The Group keeps major bank balances in the following Russian banks - Bank St. Petersburg, Sherbank, Rosbank, Alfa Bank and in the Cyprus Hellenic bank.

The Group's exposure to interest rate risk and a sensitivity analysis for financial assets and liabilities are disclosed in note 26.

## 21 Capital and reserves

## (a) Share capital and share premium

The table below summarizes the information about the share capital of Etalon Group Limited.

Number of shares unless otherwise stated	Ordinary shares		
	2010	2009	
Authorised shares at beginning of year	1 117 647	1 117 647	
Par value	0,01 GBP	0,01 GBP	
On issue at beginning of year	1 117 647	1 117 647	
On issue at end of year, fully paid	1 117 647	1 117 647	

The holders of ordinary shares are entitled to receive dividends and to one vote per share at meetings of the Company.

#### (b) Dividends

As the majority of the Company's subsidiaries are incorporated in the Russian Federation, and in accordance with Russian legislation, the subsidiaries' distributable reserves are limited to the balance of retained earnings as recorded in their statutory financial statements prepared in accordance with Russian Accounting Principles. As at 31 December 2010 the total of subsidiaries' retained earnings, including the profits for the current year were RUB 11 028 million (2009; RUB 6 632 million).

## 22 Earnings per share

The calculation of basic earnings per share is based on the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding during the year, as shown below. The Company has no dilutive potential ordinary shares.

Number of shares unless otherwise stated	2010	2009
Issued shares at 1 January	1 117 647	1 117 647
Weighted average number of shares for the year ended 31 December	1 117 647	1 117 647

# 23 Loans and borrowings

This note provides information about the contractual terms of the Group's interest-bearing loans and borrowings, which are measured at amortised cost. For more information about the Group's exposure to interest rate, foreign currency and liquidity risk, see note 26.

#### Bank loans are secured by:

- buildings with a carrying amount of RUB 88 million, see note 14.
- inventory with a carrying amount of RUB 100 million, see note 17.

The bank loans are subject to certain restrictive covenants, which are calculated based on the individual financial statements of certain entities of the Group. None of the restrictive covenants have been breached during the reporting period.

In 2010 the Group has offset financial assets (LPNs) and liabilities (loans) which were receivable from and payable to the same party in the amount of RUB I 085 million in the statement of financial position. The Group has a legal right to offset the amounts and will realise the asset and settle the liability simultaneously.

## 24 Provisions

Current		1 189	1 189
27. T. T. C. T. T. S.	81	1 189	1 270

#### (a) Warranties

The provision for warranties relates mainly to the residential units sold during the period. The provision is based on estimates made from historical experience from the sale of such units. The Group expects the expenses to be incurred over the next three years in average. For the production companies, the warranty provision relates to construction works done.

## (b) Provision for deferred works

The Group records provisions in respect of the Group's obligation to incur additional costs associated with landscaping and other works after finishing the construction of apartment buildings. The provision is estimated based on historical experience. The Group expects the expenses to be incurred over the next year.

# 25 Trade and other payables

min RUB	2010	2009
Long-term		
Advances from customers	74.	
Finance lease liabilities	44	346
Trade payables	61	31,
Other payables	82	
	261	382
Short-term		
Advances from customers	11914	17.869
Trade payables	841	1 013
Billings in excess of work completed	119	219
Payroll liabilities	245	176
Income tax payable	367	.175

Other taxes payable	72	81
Other payables	215	660
	14 284	20 558
Total	14 545	20 940

Advances from customers are represented by prepayments for housing and commercial properties made under sales contracts. In case customers cancel sales contracts, advances received by the Group are repaid within 3 months from the moment of cancellation, but withholding 5-10% forfeit.

The Group's exposure to currency and liquidity risk related to trade and other payables is disclosed in note 26.

Finance lease liabilities are payable as follows:

		2010			2009	
mia RUS	Future minimum lease payments	Interest	Present value of minimum lease payments	Future minimum lease payments	Interest	Present value of minimum lease payments
Less than one year	91	7	84	177	38	139
Between one and five years	45_	1_	44	378	32	346
	136	- 8	128	555	70	485

## Terms and conditions of outstanding finance lease liabilities were as follows:

# 26 Financial instruments and risk management

## (a) Overview

The Group's financial instruments as at 31 December 2010, 31 December 2009 are categorized as follows:

mla RUB	2010	2009
Financial assets at amortized cost		
Loans and receivables (excluding taxes receivable and advances paid to suppliers)	2.124	2.011
Cash and cash equivalents	3 636	3 416
	5 760	5 427
Financial liabilities at amortized costs	21 805	26 302

The Group has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk.

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

## Risk management framework

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, has developed a disciplined and constructive control environment in which all employees understand their roles and obligations.

#### (b) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from cash and cash equivalents, deposits with banks as well as credit exposures to customers, including outstanding trade and other receivables.

Credit risk with regards of cash and cash equivalents and deposits with banks is managed by placing funds primarily in the banks listed in note 20.

Credit risk connected with trade receivable arising from sale of apartments to individuals is managed by securing those receivables against sold apartments. A significant share of such sales is made on a prepayment basis.

To manage the credit risk of trade receivables from legal entities the Group has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are applied.

## (1) Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Group has no customers accounting individually for more than 10% of the Group's balance of trade and other receivables as at 31 December 2010 (2009: none).

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

## (ii) Guarantees

As at 31 December 2010 the Group had not provided any financial guarantees to entities outside the Group (2009; nil).

#### (III) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Carrying a	mount
min RUB	2010	2009
Loans and receivables (excluding taxes receivable and advances paid to suppliers)	.2 124	2 011
Cash and cash equivalents	3.636	3.416
And the second s	5 760	5 427

The maximum exposure to credit risk for trade receivables at the reporting date by geographic region was concentrated in the St. Petersburg region.

The maximum exposure to credit risk for trade receivables at the reporting date by type of customer was concentrated on the industrial customers – legal entities included in the segment "Construction services".

## Impairment losses

The aging of trade receivables at the reporting date was:

min RUB	Gross 2010	Impairment 2010	Gross 2009	Impairment 2009
Not past due	1.147	ſ	1 383	4
Past due 0-30 days	104		33	
Past due 31-120 days	122		31	1
Past due more than 120 days	254	32	123	37
	1 627	33	1,570	42

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

min RUB		2010	2009
Balance at beginning of the year		42	27
Increase during the year		20	38
Write-offs	Tal. X1	(2)	(7)
Decrease due to reversal	1000	(27)	(16)
Balance at end of the year	T. det	.33	42

The movement in the allowance for impairment in respect of other receivables during the year was as follows:

min RUB	2010	2009
Balance at beginning of the year	177	133
Increase during the year	52	112
Write-offs	(8)	(8)
Decrease due to reversal	(132)	(60)
Balance at end of the year	89	177

## (e) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Each year the Group prepares cash flow budget to forecast possible liquidity deficits and to define the sources of financing of those deficits.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements. It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

#### (d) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

## (l) Currency risk

The Group is exposed to currency risk on borrowings denominated in USD (the US dollar) and on finance lease liabilities denominated in BURO - the currencies other than the respective functional currency of Group entities, the Russian Rouble (RUB).

#### Exposure to currency risk

The Group's exposure to foreign currency risk was as follows based on notional amounts:

min ŘUB	USD- denominated 2010	Euro- denominated 2010	USD- denominated 2009	EUR- denominated 2009
Cash and cash equivalents	1 502	385	106	590
Loans and borrowings	(3 533)	(374)	(3.652)	•
Finance lease liabilities	2012	(124)	(50)	(432)
Gross exposure	(2.031)	(113)	(3 596)	158

The following significant exchange rates applied during the year:

in RUB	Averag	e rate	Reporting d	ate spot rate
	2010	2009	2010	2009
USD 1	30,38	31,77	30,48	30,24
EUR 1	40,22	44,34	40,33	43,39
GBP L	46,93	49,65	47,26	48,04

## Sensitivity analysis

A weakening of the RUB, as indicated below, against the following currencies at 31 December would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2009, albeit that the reasonably possible foreign exchange changes rate variances were different, as indicated below.

min RUB		Equity	Profit or loss
	2010		
USD (10% strengthening)		(203)	(203)
EUR (10% strengthening)		(11)	(11)
		(214)	(214)
	2009		
USD (10% strengthening)		(360)	(360)
EUR (10% strengthening)		16	16
3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3		(344)	(344)

A strengthening of the RUB against the above currencies at 31 December would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

## (II) Interest rate risk

Interest rate risk is the risk that changes in floating interest rates will adversely impact the financial results of the Group. The Group does not use any derivative instruments to manage interest rate risk exposure.

#### Profile

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments was:

mln RUB	Carrying	amount
	2010	2009
Fixed rate instruments		
Pinancial assets	4 028	4 030
Financial liabilities	(7 880)	(6 329)
	(3 852)	(2 299)
Variable rate instruments		
Financial liabilities	(374)	
	(374)	

## Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

## Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have decreased equity and profit or loss before taxes by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

mln RUB	Profit	or loss	Equity		
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease	
2010					
Variable rate instruments	(4)	4	(4)	4	
Cash flow sensitivity (net) 2009	(4)	4	(4)	4	
Variable rate instruments				7.	
Cash flow sensitivity (net)		1		(+)	

## (e) Fair values versus carrying amounts

The fair values of financial assets and liabilities, together with the carrying amounts shown in the statement of financial position, are as follows:

min RUB	Note	Carrying amount 2010	Fair value 2010	Carrying amount 2009	Fair value 2009
Assets carried at amortised cost					
Loans and receivables (excluding taxes receivable and advances paid to suppliers)	18, 15	2 124	2 124	2 011	2 011
Cash and cash equivalents	20	3 636	3 636	3 416	3 416
		5 760	5760	5 427	5 427
Liabilities carried at amortised cost					
Secured bank loans	23	423	423	528	528
Unsecured bank loans	23	4 084	4 084	1 964	1 964
Secured loans from other parties	23	7	7	1 160	1 160
Unsecured bond issues	23	3 612	3612	2 192	2 192
Trade and other payables	25	13 679	13 679	20 458	20 458
		21 805	21 805	26 302	26 302

The basis for determining fair values is disclosed in note 4.

Management believes that the fair values of its financial assets and liabilities approximates their carrying amounts.

## (f) Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximising the return to equity holders through the optimisation of the debt and equity balance. The management of the Group reviews the capital structure on a regular basis. As part of this review, the management considers the cost of capital and the risks associated with it.

The capital structure of the Group consists of net debt (borrowings as detailed in note 23 offset by cash and bank balances) and equity of the Group (comprising issued capital and retained earnings as detailed in note 21). The Group is not subject to any externally imposed capital requirements.

min RUB	2010	2009
Total berrowings	8 126	5 844
Less: cash and cash equivalents	(3 636)	(3 416)
Net debt	4.490	2,428
Total equity	12 568	8 051
Debt to capital ratio at 31 December	0,36	0,30

Finance lease liabilities (RUB 128 million at 31 December 2010, RUB 485 million at 31 December 2009) are not included in the total amount of borrowings.

# 27 Operating leases

Non-cancellable operating lease rentals are payable as follows:

min RUB	2010	2009
Less then one year	75	134
Between one and five years	144	87
More than five years	-44	16
	263	237

The Group leases a number of land plots for the purpose of construction of residential and commercial premises for sale, as well as land plots occupied by its own production and office facilities under operating leases.

Lease payments for land plots occupied by residential and commercial premises under construction are capitalized into the cost of those premises.

The leases typically run for the period of construction of premises. After these properties are constructed and sold, lease rentals are paid by the owners of those properties. Lease payments are usually increased annually to reflect market rentals.

During the year ended 31 December 2010 an amount of RUB 33 million (2009: RUB 60 million) was recognised as an expense in the statement of comprehensive income in respect of operating leases, while RUB 61 million (2009: RUB 68 million) were capitalized into the cost of residential and commercial premises under construction.

# 28 Capital commitments

As at 31 December 2010 the Group does not have any capital commitments (2009: nil).

# 29 Contingencies

#### (a) Insurance

The insurance industry in the Russian Federation is in a developing state and many forms of insurance protection common in other parts of the world are not yet generally available. The Group does not have full coverage for its plant facilities, business interruption, or third party liability in respect of property or environmental damage arising from accidents on Group property or relating to Group operations. Until the Group obtains adequate insurance coverage, there is a risk that the

loss or destruction of certain assets could have a material adverse effect on the Group's operations and financial position.

## (b) Litigation

During the year, the Group was involved in a number of court proceedings (both as a plaintiff and a defendant) arising in the ordinary course of business. In the opinion of management, there are no current legal proceedings or other claims outstanding, which could have a material effect on the result of operations or financial position of the Group and which have not been accrued or disclosed in these preliminary consolidated financial statements.

## (c) Taxation contingencies

The taxation system in the Russian Federation is relatively new and is characterised by frequent changes in legislation, official pronouncements and court decisions, which are often unclear, contradictory and subject to varying interpretation by different tax authorities. Taxes are subject to review and investigation by a number of authorities, which have the authority to impose severe fines, penalties and interest charges. A tax year remains open for review by the tax authorities during the three subsequent calendar years; however, under certain circumstances a tax year may remain open longer. Recent events within the Russian Federation suggest that the tax authorities are taking a more assertive position in their interpretation and enforcement of tax legislation.

These circumstances may create tax risks in the Russian Federation that are substantially more significant than in other countries. Management believes that it has provided adequately for tax liabilities based on its interpretations of applicable Russian tax legislation, official pronouncements and court decisions. However, the interpretations of the relevant authorities could differ and the effect on these consolidated financial statements, if the authorities were successful in enforcing their interpretations, could be significant.

The Group believes that all Group's sales transactions were taxed in accordance with Russian tax legislation. However, based on the uncertainty of legislation and arbitration practice, the tax authorities could take a different position and attempt to assess additional tax (including VAT), penalties and interest. Based on the uncertainty of practical application of the law the potential amount of such assessment cannot be reliably estimated. The Group has not made any provision because it believes it is not probable that an outflow of funds relating to any such assessment will take place.

# 30 Related party transactions

## (a) Control relationships

The ultimate beneficiary shareholders of the Group are members of the family of Mr. Viacheslay Zarenkov, who owned 63,2% of the Group's shares at 31 December 2010 (2009: 67%).

## (b) Transactions with management and close family members

## (1) Management remuneration

Key management received the following remuneration during the year, which is included in personnel costs (see note 11):

mla RUB		2009
Salaries and bonuses	157	109
Benefits in kind	C 50 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0	2
	157	111

## (ii) Other transactions

Sales to key management personnel are disclosed below;

In May 2010 Vyacheslav A. Zarenkov has sold his 20% shareholdings in subsidiary CJSC "ZSM "Etalon" to CJSC "SSMO LenSpetsSMU" for the consideration of RUB 91 million.

# 31 Group entities

## Significant subsidiaries

Subsidiary	Country of Incorporation	31 December 2010	31 December 2009	
CJSC "UK Etalon"	Russian Federation	99,50%	99.50%	
CJSC "SSMO LenSpetsSMU"	Russian Federation	98.01%	98.01%	
CJSC "SP6 MFTC"	Russian Federation	88.64%	88.64%	
CJSC "TSUN LenSpessMU"	Russian Federation	98.90%	98.90%	
CJSC "Aktiv"	Russian Federation	98.01%	98.01%	
CJSC "Novator"	Russian Federation	89:40%	89.40%	
CJSC."LenSpetsSM- Reconstruktsiva"	Russian Federation	79.23%	79.23%	

As of 31 December 2010 the Group controlled 83 legal entities (31 December 2009: 77). Their assets, liabilities, revenues and expenses have been included in these consolidated financial statements. The above is a list of the most significant subsidiaries.

In 2010 and 2009 a number of subsidiaries were consolidated based on management contracts with CJSC "UK Etalon" being the Russian subholding company of the Group. Management contracts give CJSC "UK Etalon" the power to govern the financial and operating policies of those subsidiaries and to obtain benefits from their activities.

The Group has established a number of special purpose entities (SPEs) for holding of land plots and trading purposes that are also consolidated. SPEs established for trading purposes are cooperatives of owners of housing and commercial premises in which the customers acquire shares in order to obtain ownership rights for those premises.

# 32 Events subsequent to the reporting date

#### (a) Financing events

Subsequent to the reporting date the Group has repaid loans and borrowings outstanding as at 31 December 2010 for the total amount of RUB 120 million.

In February 2011 the Group has obtained additional tranche of loan for the total amount of RUB 545 million with increst rate of EURIBOR+7% and repayable at 2014.

## Independent auditor's report to the members of Etalon Group Limited

We have audited the accompanying consolidated financial statements of Etalon Group Limited (the "Company", and together with its subsidiaries, the "Group"), which comprise the Consolidated Statement of Financial Position as at 31 December 2010, the Consolidated Statements of Comprehensive Income, Changes in Equity and Cash Flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

This report is made solely to the Company's members, as a body, in accordance with section 262 of the Companies (Guernsey) Law, 2008. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

## Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances

## Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of consolidated financial statements.

In addition, we read all the financial and non-financial information in the Directors' Report to identify material inconsistencies with the audited consolidated financial statements. If we become aware of any apparent material misstatements on inconsistencies we consider the implications for our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Independent auditor's report to the members of Etalon Group Limited (continued)

## **Opinion**

In our opinion, the consolidated financial statements;

- give a true and fair view of the consolidated financial position of the Group as at 31
  December 2010 and of its consolidated financial performance and its consolidated cash
  flows for the year then ended;
- are in accordance with International Financial Reporting Standards; and
- comply with the Companies (Guernsey) Law, 2008

## Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies (Guernsey) Law 2008 requires us to report to you if, in our opinion:

- the Company has not kept proper accounting records, or
- the financial statements are not in agreement with the accounting records; or
- we have not received all the information and explanations, which to the best of our knowledge and belief are necessary for the purpose of our audit.
