Key 2009 P&L Developments

- Full year 2009 **gross margin** totaled 24.2% compared to 25.6% in 2008 a year-on-year gross margin investment of 140 bp in line with management's expectations.
- Full year 2009 **SG&A expenses** decreased as a percentage of revenue by 60 bp year-on-year to 20.0%
- SG&A expenses before D&A⁽¹⁾ accounted for 16.9% of sales a year-on-year decrease of nearly 90 bp
- SG&A decline as a percentage of sales was achieved through cost control initiatives and implementation of X5's Strategic Efficiency Program. Significant savings were obtained from administrative expense and staff cost optimization, renegotiation of leases and energy saving initiatives..
- Full year 2009 **EBITDA margin** totaled 8.4% (60 bp decline year-on-year) despite 140 bp gross margin investment and ESOP⁽²⁾ cost of USD 59 mln on the back of GDR price growth in 2009 by more than 270%.
- USD 48 mln non-cash one-off CIP and Fixed Assets impairment charge recorded in FY 2009 with respect
 to certain real estate assets and construction projects suspended due to the financial crisis or otherwise
 affected by economic deterioration.
- The Company posted a USD 46 mln **FX loss** for full year 2009 due to exchange rate volatility throughout 2009. This is a primarily non-cash item, resulting from revaluation of the Company's USD-denominated debt.
- Income tax expense for 2009 totaled USD 99 mln for an effective tax rate of 37%. This is higher than the statutory tax rate mainly because inventory shrinkage is not tax deductable in Russia, ESOP cost is not tax deductable and FX loss is only partially tax deductable.
- X5 reported USD 165 mln net profit for 2009, for a net margin of 1.9%.

⁽¹⁾ D&A stands for Depreciation & Amortization. D&A for 2009 includes one-off non-cash impairment charge

2010 – Stepped Up New Store Openings

2010 Outlook

Net new store addition:

-Hypermarkets: 7-10 stores;

-Supermarkets: ~15 stores;

-Discounters: 200-250 stores.

- Capital Expenditures of up to RUR 18 bln
- Assuming stabilisation of the macro-economic environment, in 2010 X5 expects to deliver net sales growth comparable to 2009 pro-forma level⁽¹⁾. Actual top line performance will depend on inflationary trends and the timing of a recovery in the consumer spending
